10	Iris Blue
11	Apple Green
12	Felt Green
13	Ionian Green or Beech Green
14	Clear or Gold Stardust Gelly Roll Pen

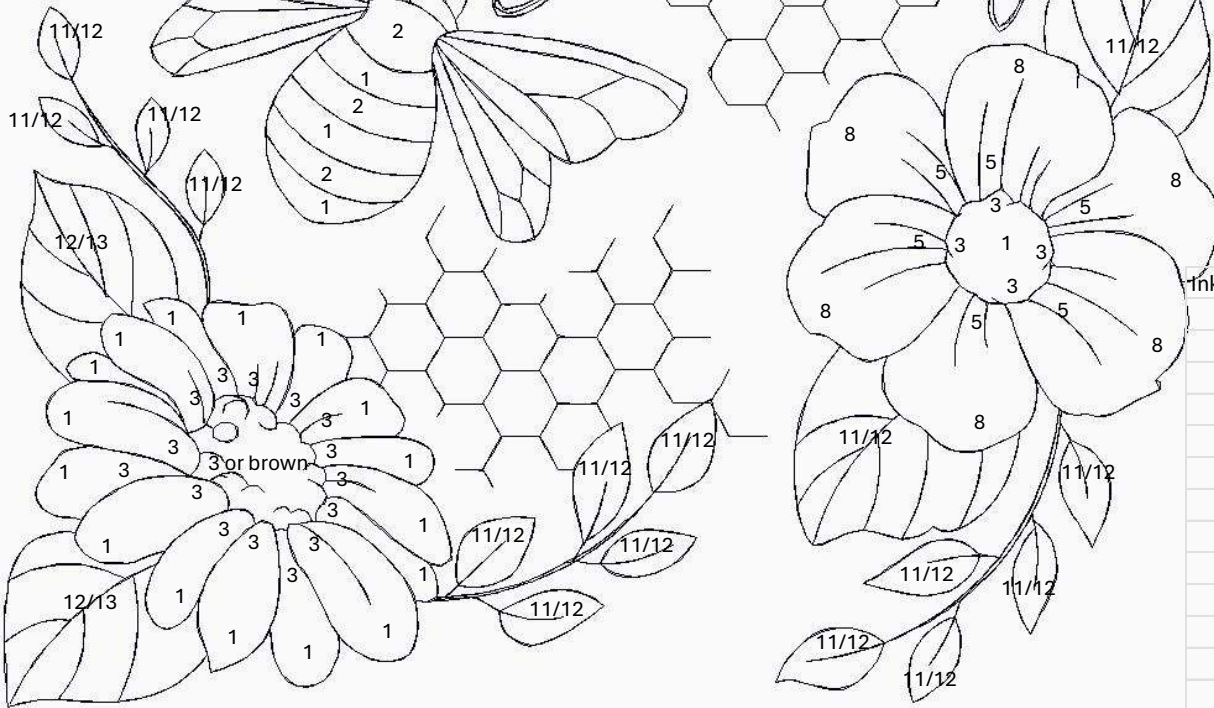

## General Notes for all Blocks (Please read first):

- All blocks have the honeycomb which I used a combination of various paints to color. To achieve the same look; use Sun Yellow and Sienna Gold together. You can create a paint using pencil shavings. (See YouTube video: <https://youtu.be/OA-8GLOWps>)
- The wings of all the bees were colored with Unicorn Spit/fabric medium using the Iced Egret color. If you purchased the kit; you will get a clear Stardust gel pen to color the wings.
- When you color the bee; color the yellow first then let it dry. Then color with the charcoal gray.
- Please note that there are several substitutes for some of the colors used. Any of the color combos will work as well as similarly colored watercolor pencils.
- You may also want to use a brown or tan pencil for some of the flower centers but it is not necessary.
- The leaves are colored first with a light colored green then each leaf section is outlined in a darker color of green. The two colors will be noted as #/# with the first number the lighter color and the second number the darker. For further info on coloring leaves see my YouTube channel: <https://studio.youtube.com/video/ZMqYRT5DZ1w/edit>
- Also on YouTube, are several videos on how to color flowers: <https://youtu.be/eZWDdrEElqk>

Bee Kind to Yourself
