

AGZ Block 8 – The Giraffe

Recommended Coloring Materials: The Giraffe is done with a variety of pencils and gel pens. The following is a list of recommended colors in order corresponding to the photo next to it.

1. Gelly Roll Sepia #517
2. Gelly Roll Burgandy #522
3. Gelly Roll Black Gold #549
4. Gelly Roll Silver #553
5. Gelly Roll Gold #551
6. Kaisercraft Black Glitter
7. Kaisercraft Copper Glitter
8. Kaisercraft Red Glitter
9. Kaisercraft Orange Glitter
10. Kaisercraft Gold Glitter
11. Kaisercraft Neon Orange
12. Kaisercraft Lt Orange
13. Fabrico Apricot
14. Fabrico Tangerine
15. Fabrico Cherry Pink
16. Kaisercraft Pink
17. Inktense Sun Yellow
18. Inktense Sicilian Yellow
19. Inktense Sienna Gold

NOTE: WHEN USING LIGHT WATERCOLORS NEXT TO DARK COLORS, ALLOW THE LIGHT COLORING TO DRY FOR FIVE-TEN MINUTES BEFORE COLORING WITH DARKER COLOR. THIS WILL PREVENT BLEEDING!!!

Use the Black and White Version of each Giraffe section attached to test colors first and to set up a color code chart before coloring on sampler. In the case of the Giraffe you may want to make several copies of the black and white version and color it several times to determine the best color combo for you.

Bling Kit – the bling kit for the Giraffe is rather large (of the Animals Gone Zen series) and contains many SS6 and SS8 sized stones (sort of hard to see due to their small size). You may want a pair of magnifiers for placing these stones! The

Giraffe design has been broken down into sections and labeled carefully with names of stones, the stone size and the number of stones used in each band.

Bling Kit (all the stones necessary to bling according to the photo included in kit. Please note that there are just a few extra stones of each color so be careful when handling the rhinestones).

Iron or Mini Iron. The best way to attach most of these stones is with a mini iron preferably one that has a rhinestone tip. A regular iron can be used but may prove to be cumbersome when setting the very smallest stones. **IN ORDER TO PREVENT SCORCHING YOUR FABRIC USE A PRESS CLOTH!!!!**

Pair of tweezers for placing the stones. Any tweezer will do but I find that embroidery tweezers or medical supply tweezers at least 4.5" long work the best. Some 'Blingers' like a pickup tool that has a sticky end to pick up the stone and a small awl to help put the stone down in the correct location. You can find this type of tool at any hobby shop that carries rhinestones.

Roxanne's Baste it with the small nozzle for precise glue placement. Although the stones are all hot fix (meaning that the glue on the stone is activated by heat), I found it somewhat easier to put a spot of Roxanne's Baste it glue down, place the stone on the glue then let the glue dry (for about 5 minutes). Then hit the stone with your iron or mini iron. The Baste it glue holds the stone exactly where you want so you can place the iron on it without worry of the stone shifting under the iron.

There is no particular step by step process other than it is easier to color first then place the stones. Always place your smaller stones first then the larger stones so that the iron can touch the surface completely. Make sure to heat set the coloring first before placing stones. The photo included should be the best guide for coloring as well as where exactly to place stones. However, there are detailed diagrams of each part of the design labeled with number associated with a particular stone and pencil for coloring. Please see the Excel spreadsheet printout for the rhinestone name, the size and the color code for each stone. I have also provided a close count of how many stones are used throughout the process.

If you are having difficulty setting the stones (i.e., they don't seem to stick once heat activated) you may want to refer to the VERY DETAILED instructions provided by the following link:

Instructions for coloring Giraffe Head

Please note that the body is colored with Inktense pencils or water color pencils **AFTER** all gel pen areas have been colored. Since pencils need fabric medium it is best to wait until gel pen coloring is dried as fabric medium may cause fresh wet ink to bleed. Fabric medium on dried ink will not affect the gel pen final color appearance.

AGZ Block 8 – The Giraffe

Once all the gel pens are dry, color the background of the body first with Sun Yellow (Pentel color307) then use Sicilian Yellow (Pentel 309) and Sienna Gold (Pentel 314) on back legs to darken as if they are in a shadow of the front legs. Go over all penciled areas with fabric medium. Do not worry if fabric medium gets on gel pen colored areas – it should not affect the pen colors.
