Microsoft Power BI

POWER BI FOR HR

NEW YEAR, NEW RESOLUTION

Upgrade your skills as a new year resolution!

Let 2023 be the year you influence your people-related decisions with powerful data analytics.

Power BI is named as the **Leader in 2022 Gartner® Magic Quadrant™ for Analytics and BI Platforms for the 15th year in a row!** Power BI is changing how decision are made, and HR is no exception.

This 4-day workshop focuses on how Power BI can suit HR professionals in generating insights for their critical decisions. With a mix of technical skills and ability to make decisions based on data, this online workshop provides an opportunity to learn with experience of the instructor and the peers.

The timing of the workshop is flexible with more or less 4 hours per day for 4 days. Consecutive Saturdays have been chosen to suit professionals to optimise their off days.
