CAPABILITY STATEMENT

Ben Medina - Owner

P: (517) 404-3551

b.medina@medina-llc.com

Medina Resources Group, LLC (MRG) was founded in 2015, with a mission to become the best civil contractor nationwide. MRG may be a small, young company but that is exactly what gives us an advantage.

- Our ambitious determination coupled with our team's combined knowledge and expertise, has made us a go-to for countless jobs ranging from road work to building trades. We have experience with energy and water treatment facilities, high rise construction, hospitals, universities, retail renovations, auto industry facilities and private development.
- Our company is able to get to know you on a personal level and truly make a good business connection, we go above and beyond to get our clients what they need. Over the past 8 years we have become a well-rounded company; our products and reputation speak for itself, as we receive most of our work through referrals. Our smaller team allows us to be flexible and cater to your needs.
- We prioritize yielding a quality product as scheduled and on budget. Job safety is also a top priority for MRG; which has earned us an EMR rating of 0.70.

We would be happy to meet with you about future opportunities and show you just what Medina Resources Group can do for you!
