Dear Press Office,

Please would you ignore my last two emails addressed to Sir Christopher Whitty (sent in the last 60 minutes) as they were corrupted. This is the correct version which includes the title 'Iatrogenic Diseases - Asthma and Diabetes'.

My apologies for the multiple emails. If I don't hear from you I will assume that you have received this large file intact. It's large due to images of the BNF.

Unless I hear from you by noon Monday 21 August 2023 (excluding any auto-responder saying that staff are on holiday, as I have used the email address to which I have been directed in an auto-responder), I will assume that you have forwarded this email to Sir Christopher Whitty which has questions to be answered by him by Friday 25 August 2023.

Thank you for your time.

Regards,
Dr Lisa Landymore-Lim

Hi Lisa,

Can I clarify what the ask is here please as it doesn't look like this a media enquiry?

Many thanks,

**Department
of Health &
Social Care****Jeremy Gale**

Senior Media Relations Officer – Public Health Desk

Department of Health and Social Care,

Dear Jeremy,

Many thanks for your email.

Sir Christopher Whitty is the government's Chief Medical Adviser and head of the public health profession and epidemiologist so his opinion is very important.

His opinion or lack of response will be published in the media with the opinions of Professors of medicine worldwide.

My articles have already been published in national and regional newspapers in Australia and in a UK magazine. The Daily Telegraph in the UK has also published an article of mine.

Unless I hear from you by noon today 21 August, I will assume that Sir Christopher Whitty has received my uncorrupted email as attached in your email.

Thank you very much for your assistance.

Regards,
Dr Lisa Landymore-Lim

Thanks for clarifying, Lisa.

The file isn't opening properly via the link (only shows the first page) so can you please send it as an attachment rather than a google doc.

Many thanks,

 **Jeremy Gale**

Jeremy Gale
Senior Media Relations Officer
Public Health Desk

Dear Jeremy,

Many thanks for your help.

I've reduced the file size so hopefully this will work!

Unless I hear from you by 3pm today 21 August informing me that there's still a problem with the file, I will assume that you have sent Sir Christopher Whitty my questions.

Thank you for your assistance.

Kind Regards,
Lisa Landymore-Lim

Thanks, Lisa.

Has this piece been commissioned by the Lancet?

It would also be helpful to know what the angle is to your piece please.

Mon, Aug 21, 2023 at 10:40 AM

Hi Jeremy,

It's going to be submitted to the Lancet or other medical journals.

It will discuss the 20 publications that have reported a link between antibiotics and the onset of asthma in children and provide the compensation levels for 'occupational asthma' which in the UK ranges from £5,000 to £65,000.

Unless I hear from you by 3pm today, I will assume that you have sent the questions in my last attachment (attached again in this email) to Sir Christopher Whitty.

Thank you very much for your help.

Kind Regards,

Lisa Landymore-Lim
