**"You won't know how refreshing a puddle can be unless you take a moment to jump in and see"**

Dear K4 & ASP Parents:

Summer is coming quick and it's time to start making plans for Summer Day Camp!

Right now we just need to know if you plan on your child attending Summer Day Camp. We always have a long waiting list from outside of the center, so we need a definitive answer by April 19th. You will need to pay a nonrefundable \$100 deposit toward your activity fee to reserve your child's spot. **Please don't assume that we know what your plans are.** If we do not get notice and payment from you, we will assume that you are withdrawing for the summer.

If you do decide to withdraw for the summer, we cannot guarantee a spot for the next school year. We always have a long wait list and the children who attend for the summer will have first choice to stay for after school care.

Thank you!!

Laurie Wolfe

# HEARTWORM

## AWARENESS MONTH

### Lydia's Corner

Heartworms are foot-long worms that infest the heart, blood vessels and lungs of our pets. They can cause severe damage to major organ systems, including lung disease and heart failure.

0 MONTHS

6 MONTHS

HEARTWORM MATURE INTO FULL-GROWN ADULTS IN ABOUT **SIX MONTHS**.

HEARTWORMS ARE TRANSMITTED AS LARVAE FROM MAMMAL TO MAMMAL BY MOSQUITOES, SO THEY'RE MORE PREVALENT IN WARMER SEASONS AND CLIMATES.

**2-3 YEARS**

HOW LONG CAN HEARTWORMS LIVE IN CATS AND DOGS?

**5-7 YEARS**

MEDICATIONS USED TO TREAT HEARTWORM DO NOT WORK FOR CATS, WHICH MAKES PREVENTION EVEN MORE IMPORTANT FOR OUR FELINE FRIENDS.

SIGNS YOUR PET MAY HAVE A HEARTWORM:

- LACK OF APPETITE
- COUGHING
- FATIGUE
- WEIGHT LOSS
