## **ANNUAL REPORT(2022-2023)**

*“Education is not preparation for life; education is life itself.”*

“Pursuit of excellence with sincerity of serving village children is what the school strives for. Our school is a standing example of excellent leadership with vision, commitment and discipline that can be achieved through single minded striving towards school’s vision by all staff. Looking back at our journey of the years serving the cause of education, we are both happy and proud at the thought of the memorable milestones we have crossed, the great strides made in every field of activity.

The following is the annual report of the school 2022-2023. The number of enrolled students was higher than last year and we developed our campus with 100 % Spoken English Campus. The sprawling 4.42 acres campus is comprised of 15 classrooms, Mathematics, Science and computer labs. Buildings are ventilated freely and fitted with CCTV Surveillance (Camera). Staying updated is the key to success in any field, especially in the field of education. Our teachers constantly strive to stay updated. We are fortunate to have a cadre of nearly 20 teachers who are well trained, well experienced, dedicated and capable of fulfilling the demands of the growing modern generation of village students.

The school conducted workshops and various training programs to all the teaching faculties. There was an orientation course conducted for our teachers by Mr .Balasundaram in the field of CBSE. Primary teachers were sent to CBSE training centres in different places like Hyderabad, Madurai.

Our teachers' efficiency was proved through the board examination results. We are happy to share the good news that our students of grade 10 who appeared for the 2023 CBSE Examinations have passed in flying colors. We achieved 100% result. We take this opportunity to congratulate the students for their excellent performance and send them warm wishes for a bright future ahead. We also would like to thank the parents for their wonderful support extended towards all our school's proceedings.

As we share the yearly updates of our activities, we take the modesty to say that we adapted ourselves to the remodeled assessment structure from CCE as we had planned and we are proud of our students and teachers who strive hard to achieve beyond expectations. Thus we rely on activity and project oriented teaching as well as subject enrichment activities. Our teachers attended several workshops and seminars.

Our nursery section follows the "Happy Schooling" curriculum, primary sections follow the NEXT EDUCATION syllabus and the Higher classes follows CBSE-NCERT syllabus. We have focused on the holistic development of the students. Our students took part in various examinations such as Olympiad, NTC and Spell Bee to name a few and bagged laurels to our school.

As the **World Health Organization (WHO)** defined human **health** in its broader sense in its 1948 constitution as “a state of complete physical, mental, and social well-being and not merely the absence of disease or infirmity”, we give more importance to co-scholastic activities, thus we have: courts for volley ball, a playing and practicing court for football. Sports competitions inculcate the spirit of positive challenges and sportsmanship among the students and prepare them for the life ahead.
