About Sierra Leone

Languages:

- English
- Krio
- Mende
- Temme
- Kono
- Kissi
- Kuranko
- Limba
- Fula
- Mandingo
- Susu

Government:

- There was a civil war from 1991-2001
- The dictatorship before the war led to major corruption but even when the leader lost the war, the corruption didn't end.

Facts:

- Sierra Leone is the 5th poorest country in the world.
- Sierra Leone is the 10th least literate (ability to read) country in the world.

Sierra Leone's Healthcare Problems

- Too many communities in Africa are lacking safe health resources
- In Sierra Leone, some people don't have a healthcare clinic within 20 miles. And there's no transportation to get there.
- Your life expectancy (average of how long people live) in America is 79 years old. In Sierra Leone it is only 51 years old due to lack of:
 - Healthcare
 - Knowledge of personal health
 - Poverty
 - Healthy food

Sierra Leone Literacy Problems And How We Can Help

Literacy problems:

- Only 43 percent of Sierra Leone's population can read when, in the US, it is 88 percent.
- Sierra Leone is majorly lacking in books, libraries and school supplies.

How we can help:

OHES could start a book and art supply drive.
