Hi! I'm Joan of Lazy Girl Designs. I created this pattern to share a little crafty love with the special people in our lives.

What could be sweeter than note cards adorned with your favorite fabrics? These fabric covered note cards are quick, easy and full of love. Perfect for gifting year-round.

Make a few or a slew! Then join the Lazy Girl community online at Facebook to share pics, tips and fun.

SUPPLIES FOR MAKING FABRIC NOTE CARDS

- 100% Cotton quilter's weight fabric scraps a little bigger than your note cards
- Fusi-Bond Lite lightweight fusible adhesive web from Lazy Girl Designs
- 5in x 7in blank White Cards and Envelopes
- Cellophane bags for gifting
- Scissors, iron, and basic supplies for a fusible project

Select fabrics, either yardage to make many at a time, or scraps a little bigger than your blank note cards. Work with your fabric and fusible bigger than needed, so when it is cut to size, the fusible will go all the way to the edge of the fabric for a great finish.

The cards shown here are 5" x 7". Cut the Fusi-Bond Lite slightly larger than needed and fabric slightly larger than that. That will keep the fusible in from the edges while fusing and prevent it from getting on the pressing surface

These cards came flat, but they are ready to fold. Take a look at both sides of your blank note cards. The side with the indented 'fold' line is the inside of the card. If you want to get fancy, print labels with some notes about the fabric for the back of the finished card. I printed directly onto the card. I set up the info I wanted in a file and did a few practice prints to get it where I wanted. My 5in x 7in cards are 7in x 10in before folding.

Center the fabric with the fusible against the card, then follow the manufacturer's direction to fuse the fabric to the card.

Try not to iron over the fold line so the card stays soft there and folds nicely. To give fabric note cards as gifts, place one card and envelope in a self-sealing cellophane bag. These bags are the perfect finishing touch and protect your beautiful creation.
