

**BCX BIO
Organics**

**BCX
TOTAL**

**A novel patented product for
enhancing your plant productivity**

KEY MECHANISMS TARGETED BY HUMIC AND FULVIC ACID BASED BIOSTIMULANTS

BCX TOTAL is a humic and fulvic acid biostimulant.

BCX TOTAL is a sure shot plant special mix. Works across all plants and at all stages. Increases flowering and fruiting.

- Balances cell electrolytes
- Enhances plant metabolic activity
- Increases chlorophyll content
- Improves enzymatic reactions
- Chelates & improves uptake of minerals
- Regulates transpiration activity
- Reduces plant water requirement

MANUFACTURED & MARKETED BY:

M/s BCX BIO ORGANICS

11, Survey No. 38/1,
Krishansagara Village, Attibele,
Anekal Taluk, Bangalore, India.
Pincode- 562 107.
