Audit Committee Disclosure

Pursuant to section 224(1) of the BCBCA, the policies of the CSE and *National Instrument 52-110 - Audit Committees* (“**NI 52-110**”), the Company is required to have an Audit Committee comprised of not less than three directors, a majority of whom are not officers, control persons or employees of the Company or an affiliate of the Company. NI 52-110 requires the Company, as a venture issuer, to make certain disclosure concerning the constitution of its Audit Committee and its relationship with its independent auditor.

The Audit Committee over sees the accounting and financial reporting practices and procedures of the Company and the audits of the Company’s financial statements. The principal responsibilities of the Audit Committee include: (i) overseeing the quality, integrity and appropriateness of the internal controls and accounting procedures of the Company, including reviewing the Company’s procedures for internal control with the Company’s auditors and chief financial officer; (ii) reviewing and assessing the quality and integrity of the Company’s internal and external reporting processes, its annual and quarterly financial statements and related management discussion and analysis, and all other material continuous disclosure documents; (iii) establishing separate reviews with management and external auditors of significant changes in procedures or financial and accounting practices, difficulties encountered during auditing, and significant judgments made in management’s preparation of financial statements; (iv) monitoring compliance with legal and regulatory requirements related to financial reporting; (v) reviewing and pre-approving the engagement of the auditor of the Company and independent audit fees; and (vi) assessing the Company’s accounting policies, and considering, approving, and monitoring

A member of the audit committee is *independent* if the member has no direct or indirect material relationship with the Company. A material relationship means a relationship which could, in the view of the Board, reasonably interfere with the exercise of a member's independent judgment.

Reliance of Certain Exemptions in NI 52-110 regarding De Minimis Non-audit Services or on a Regulatory Order Generally

At no time during the thirteen months ended February 28, 2022 has the Company relied on the exemption in Section 2.4 of NI 52-110 (De Minimis Non-audit Services) (which exempts all non-audit services provided by the Company's auditor from the requirement to be preapproved by the Audit Committee if such services are less than 5% of the auditor's annual fees charged to the

Company, are not recognized as non-audit services at the time of the engagement of the auditor to perform them and are subsequently approved by the Audit Committee prior to the completion of that year’s audit), or an exemption from NI 52-110, in whole or in part, granted under Part 8 of NI 52-110.

Pre-Approval Policies on Certain Exemptions

Except as described in the audit committee charter attached to this Circular, the Audit Committee has not adopted specific policies and procedures for the engagement of non-audit services.

External Auditor Services Fees

The Audit Committee has pre-approved the nature and amount of the services provided by Manning Elliott LLP, Chartered Accountants, to the Company to ensure auditor independence.

Aggregate fees paid to the auditor during the financial years ended February 28, 2022 and February 28, 2021 were as follows:

2021	\$4,750	\$Nil	\$Nil	\$Nil

Notes:

1. Fees charged for assurance and related services reasonably related to the performance of an audit, and not included under “Audit Fees”.
2. Fees charged (or estimated charges) for tax compliance, tax advice and tax planning services.
3. Fees charged for review of interim financial statements.

Information about Corporate Governance

Corporate governance relates to the activities of the Board, the members of which are elected by and are accountable to the shareholders and takes into account the role of the individual members of management who are appointed by the Board and who are charged with the day-to-day management of the Company. National Policy 58-201 Corporate Governance Guidelines establishes corporate governance guidelines which apply to all public companies. These guidelines are not intended to be prescriptive but to be used by issuers in developing their own corporate governance practices. The Board is committed to sound corporate governance practices, which are both in the interest of its shareholders and contribute to effective and efficient decision making.

Pursuant to National Instrument 58-101 Disclosure of Corporate Governance Practices (“NI 58-101”), the Company is required to disclose its corporate governance practices, as summarized below. The Board will continue to monitor such practices on an ongoing basis and, when necessary, implement such additional practices as it deems appropriate.

Composition of the Board

The Board facilitates its exercise of independent supervision over management. Directors are considered to be independent if they have no direct or indirect material relationship with the Company. A “material relationship” is a relationship which could, in the view of the Board, be

reasonably expected to interfere with the exercise of a director's independent judgment. The Board has three directors, one of which is considered to be independent. Mr. Bowden is considered to be an independent director for the purposes of NI 58-101 and Mr. Selby and Mr. Gray are not considered to be independent due to their relationships as past and present senior officers.

The Board of the Company facilitates its exercise of supervision over Company's management through frequent meetings of the Board.

Mandate of the Board

The Board has responsibility for the stewardship of the Company including responsibility for strategic planning, identification of the principal risks of the Company's business and implementation of appropriate systems to manage these risks, succession planning (including appointing, training and monitoring senior management), communications with investors and the financial community and the integrity of the Company's internal control and management information systems.

The Board sets long-term goals and objectives for the Company and formulates the plans and strategies necessary to achieve those objectives and to supervise senior management in their implementation. The Board delegates the responsibility for managing the day-to-day affairs of the Company to senior management but retains a supervisory role in respect of, and ultimate responsibility for, all matters relating to the Company and its business. The Board is responsible for protecting Shareholders' interests and ensuring that the incentives of the Shareholders and of management are aligned.

As part of its ongoing review of business operations, the Board reviews, as frequently as required, the principal risks inherent in the Company's business including financial risks, through periodic reports from management of such risks, and assesses the systems established to manage those risks. Directly and through the audit committee of the Board, the Board also assesses the integrity of internal control over financial reporting and management information systems.

In addition to those matters that must, by law, be approved by the Board, the Board is required to approve any material dispositions, acquisitions and investments outside the ordinary course of business, long-term strategy, and organizational development plans. Management of the Company is authorized to act without Board approval, on all ordinary course matters relating to the Company's business.

The Board also monitors the Company's compliance with timely disclosure obligations and reviews material disclosure documents prior to distribution.

The Board is responsible for the appointment of senior management and monitoring of their performance.

The Board facilitates its exercise of independent supervision over the Company's management through frequent meetings of the Board.

The Board does not hold regularly scheduled meetings without the non-independent directors and members of management. Since the beginning of the Company's last financial year, the independent directors did not hold any ad hoc meetings without the non-independent directors and management.

When a matter being considered involves a director, that director does not vote on the matter. As well, the directors regularly and independently confer amongst themselves and thereby keep apprised of all operational and strategic aspects of the Company's business.

Position Descriptions

The Board has not developed written position descriptions for the President or the chair of any board committees. Given the size of the Company's infrastructure and the existence of only a small number of officers, the Board does not feel that it is necessary at this time to formalize position descriptions in order to delineate their respective responsibilities.

Orientation and Continuing Education

When new directors are appointed, they receive orientation, commensurate with their previous experience, on the Company's properties, business and industry and on the responsibilities of directors. New directors also receive historical public information about the Company and the mandates of the committees of the Board. Board meetings may also include presentations by the Company's management and employees to give the directors additional insight into the Company's business. In addition, new directors are encouraged to visit and meet with management on a regular basis and to pursue continuing education opportunities where appropriate.

Ethical Business Conduct

The Board has found that the fiduciary duties placed on individual directors by the Company's governing corporate legislation and the common law and the restrictions placed by applicable corporate legislation on an individual director's participation in decisions of the Board in which the director has an interest have been sufficient to ensure that the Board operates independently of management and in the best interests of the Company. Further, the Company's auditor has full and unrestricted access to the Audit Committee at all times to discuss the audit of the Company's financial statements and any related findings as to the integrity of the financial reporting process.

Under applicable corporate legislation, a director is required to act honestly and in good faith with a view to the best interest of the Company and exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances, and disclose to the board the nature and extent of any interest of the director in any material contract or material transaction, whether made or proposed, if the director is a party to the contract or transaction is a director or officer (or an individual acting in a similar capacity) of a party to the contract or voting on the contract or transaction, unless the contract or transaction (i) relates primarily to their remuneration as a director, officer, employee or agent of the Company or an affiliate of the Company, (ii) is for indemnity or insurance for the benefit of the director in connection with the Company, or (iii) is with an affiliate of the Company. If the director abstains from voting after disclosure of their interest, the directors approve the contract or transaction and the contract or transaction was reasonable and fair to the Company at the time it was entered into, the contract or transaction is not invalid, and the director is not accountable to the Company for any profit realized from the contract or transaction. Otherwise, the director must have acted honestly and in good faith, the contract or transaction must have been reasonable and fair to the Company and the contract or transaction be approved by the shareholders by a special resolution after receiving full disclosure of its terms in order for the director to avoid such liability or the contract or transaction being invalid.

Nomination of Directors

The Board will consider its size each year when it considers the number of directors to recommend to the shareholders of the Company for election at the annual Meeting of shareholders, taking into account the number required to carry out the Board's duties effectively and to maintain a diversity of views and experience.

The Board does not have a nominating committee, and these functions are currently performed by the Board as a whole. The Board is responsible for identifying individuals qualified to become new Board members and recommending to the Board new director nominees for the next annual Meeting of the shareholders.

New nominees must have a track record in general business management, special expertise in an area of strategic interest to the Company, the ability to devote the time required, show support for the Company's mission and strategic objectives, and a willingness to serve.

Assessments

The Board of Directors has not established a formal process to regularly assess the Board and the Audit Committee with respect to their effectiveness and contributions. Nevertheless, their effectiveness is subjectively measured on an ongoing basis by each director based on their assessment of the performance of the Board, the Audit Committee or the individual directors compared to their expectation of performance. In doing so, the contributions of an individual director are informally monitored by the other Board members, bearing in mind the business strengths of the individual and the purpose of originally nominating the individual to the Board.

Information about Executive Compensation

Compensation of Executives

When determining executive compensation, the Company's practices are designed to retain, motivate and reward the executive officers of the Company for their performance and contribution to the Company's long-term success. The Board seeks to compensate the Company's executive officers by combining short and long-term cash and equity incentives. It also seeks to reward the achievement of corporate and individual performance objectives, and to align executive officers' incentives with shareholder value creation. The Board seeks to tie individual goals to the area of the executive officer's primary responsibility. These goals may include the achievement of specific financial or business development goals.

The compensation of the executive officers of the Company include three major elements: (a) base salary, (b) discretionary cash bonuses, and (c) long-term equity incentives, consisting of stock options or RSUs under the Plan. These three principal elements of compensation are described below.

Compensation of Directors

Other than the Share Compensation Plan, the Company does not currently have a director compensation plan for which directors are paid fees for attending director or committee meetings.

Directors are entitled to receive stock options or RSUs in accordance with the terms of the Share Compensation Plan and the CSE requirements and are reimbursed for any out-of-pocket travel

expenses incurred in order to attend meetings of the Board, committees of the Board or meetings of the shareholders of the Company.

Components of Executive Compensation

Base Salary

Base salaries are intended to provide an appropriate level of fixed compensation that will assist in employee retention and recruitment. Base salaries are based on an assessment of factors such as the executive's performance, a consideration of competitive compensation levels in companies similar to the Company and a review of the performance of the Company as a whole and the role such executive played in such corporate performance.

Discretionary Cash Bonus

The Company, in its discretion, may award cash bonuses in order to motivate executives to achieve short-term corporate goals. The compensation committee will make recommendations to the Board (or, there being no compensation committee, the Board alone) who will approve cash bonuses. The success of executive officers in achieving their individual objectives and their contribution to the Company in reaching its overall goals are factors in the determination of cash bonuses. In determining cash bonuses, the Board assesses each executive's performance on the basis of his or her respective contribution to the achievement of the predetermined corporate objectives, as well as to needs of the Company that arise on a day to day basis.

Share Compensation Plan

Effective April 28, 2021, the Company established a Share Compensation Plan (the "**Plan**"). The Plan is a 15% "rolling" plan pursuant to which the total number of SV Shares reserved and available for grant and issuance pursuant to the exercise of Options and settlement of Restricted Share Units ("**RSUs**"), each under the Plan, shall not exceed 15% (in the aggregate) of the issued and outstanding SV Shares from time to time (assuming conversion of all MV Shares into SV Shares). Further, the aggregate sales price (meaning the sum of all cash, property, notes, cancellation of debt, or other consideration received or to be received by the Company for the sale of the securities) or amount of SV Shares issued under the Plan during any consecutive 12-month period will not exceed the greatest of the following: (i) U.S.\$1,000,000; (ii) 15% of the total assets of the Company, measured at the Company's most recent balance sheet date; or (iii) 15% of the outstanding amount of the SV Shares, measured at the Company's most recent balance sheet date.

Stock Options – A Stock Option is a right to purchase a SV Share for a fixed exercise price. Options shall be for a fixed term and exercisable from time to time as determined in the discretion of the Board, provided that no option shall have a term exceeding five years.

Restricted Share Units – An RSU is a right to receive an SV Share issued from treasury after the passage of time or on such other terms and conditions as the Board may determine. RSUs may be redeemed for SV Shares only after they have vested. Unless otherwise determined by the Board, there will be no exercise price payable for RSUs and any time-based restriction period for the vesting of RSUs will be at least three years.

The issuance of RSUs and Options granted under the Plan must at all times be compliant with applicable securities laws and the policies of the CSE in all respects.

Under the Plan, Options and RSUs may be granted to directors, officers, consultants, and employees of the Company or its subsidiaries.
