

Spring Tips for Homeowners

Spring Cleaning! Don't try to do it all at once. Make a list and break it down into manageable cleaning sessions.

Air Conditioning – Test to make sure it's working – Schedule any needs for service EARLY in season.

Inspect Your Roof – check for any damages or age related problems.

Check your Gutters to make sure they are clean and no leaks

Make repairs to blacktop or concrete.

Trim your tree branches.

Make sure your lawnmower is in good working order.

Does your lawn need fertilizing/reseeding?

Start planning your flower and/or vegetable gardens!

Schedule a Date for your preferred Charitable Organization to make a pick up – having a date will help keep you motivated to finish the Spring cleaning and donating!

Are You Ready?

Are you looking for a [Disaster Response Plan for your commercial properties](#)? Set up an informational meeting with us to learn more about how EDS can help your business be prepared for any disaster. Send an [email meeting request](#) to: Jackie@easterndiversified.com

EDS provides complete restoration services for commercial and residential properties. We reverse the damage caused by water, fire, storms, mold, and more.
