

Fits 1967-69 Chevrolet Camaro **Pic 4**

Bolts in the stock three holes in firewall in engine compartment.

Some of the Camaro's on the engine compartment side where The steering column comes thru has a radius edge that has to Be trimmed down (Teardrop shape) **Pic 3** . As so the Stainless Steel Trim Bezel will lay down flat against the firewall.. **Pic 1**

The factory inside mount should be used to hold the column in place **Pic 2**
