**Re: link to district budget feedback form**

Hello Ratepayer Members

The District has a sheet online to assist you in formulating a response to their budget proposal.

There are further links on the district page, under the heading 2020 budget, providing more information about the various budget items.

There is no reason to limit your input to the issues identified or the space provided. In other words, say what you want about what you want.

Cheers, Jack Gillie
