

Slicing vs Peeling Blades

Slicing Tools: Spindle Gouges
Detail Gouges

Slicing or Peeling: Beading & Part Tools
Vortex Tools
Skews

The above are slicing tools when their cutting edge is vertical and peeling tools when their edge is horizontal.

Peeling Tools: Spindle Roughing Gouges
Narrow Parting Tools
Bottom Bowl Gouges
Continental Gouges

Slicing & Peeling: 40/40 Vee or Elliptical fluted bowl gouge (Dual action simultaneous slice & peel cut)
This grind allows for simultaneous slicing with the nose/tip of the gouge and peeling with the wing.
