- A technical training provider that can design and implement your new technology, plus provide advanced technical training.
- Monthly Based Subscription Billing model. No hidden fees or clauses. Real TCO and Capex reduction through efficiencies reached when using the whole Unified Connect Solution.

## TechCloud Expertise

- **Experienced and expertise.** We have completed 82 + Leading Industry Technical Certifications and accreditations. We have designed production systems that scaled as high as 1.2 million users
- **Enterprise Architecture for Infrastructure and Cloud.** Extensive experience with Deployment and Delivery of Email, Database, Unified Communications, Office 365, and Azure Services and Applications
- **Extensive Migration expertise.** We have done many large-scale Microsoft Application migrations to Cloud that have been 100% successful and delivered on-time and on budget.
- **Extensive Enterprise and Small Business Management Experience.** We have managed many small and medium business enterprises at the C, VP, Director, and Administrative levels.
- **Database.** We have designed, delivered, and migrated many large-scale Microsoft SQL database solutions for both On-Premise and Hybrid Cloud Database Systems.
- **Business Continuity.** We have designed many large-scale business continuity solutions for Email, database, storage, and cloud.
- **Containerization.** We have technical expertise for design and deployment of clustered container solutions built on Docker and Mesosphere.
- **Infrastructure and Cloud Assessment.** We provide complete analysis of your Infrastructure and Cloud. We look for management and capacity inefficiency, security vulnerability and architecture and performance problems that may be impacting Cloud, infrastructure, and applications.
- **Technology Training.** We provide deep technology training based on real world and IT business experience.
- **Public Cloud.** We have Technical expertise with large Scale Global Public Cloud providers such as Amazon AWS and Azure.

## TechCloud

TechCloud is now also a Cloud Reseller and has partnered with Microsoft, Amazon, Dell EMC, and Nutanix, and TetherView to name a few . TechCloud Cloud is a new Cloud Solution provider who has a great solution for Cloud, Managed Services and Support. Solutions allow you to incrementally scale your cloud or infrastructure as needed without the large upfront costs like traditional Cloud and Managed Services solution providers.

TechCloud will provide Superior IT Technical Expertise for Infrastructure, Cloud, IT Projects and IT Business operations for our customers. We offer tight IT alignment with Unified Connect for your business needs and requirements. TechCloud help drive IT efficiencies that lead to real TCO and Capex reduction that bring you to a true modern Opex business model that aligns with your private, Hybrid and Cloud models
