The District was award the AFG grant in the amount of \$24,715 for a mechanical chest compression device (LUCAS Device). Chief McLane explained that there are two back plates that can be used with the Lucas device, the standard plate and the carbon-fibre PCI Back Plate which is intended for use in the cath lab. The PCI back plate is approximately \$3,000 more and allows compressions and other interventions to continue once reaching the hospital. Chief McLane spoke to EMS Chief Granger and together they agree that the PCI plate is the way to go and to keep the overall budget balanced they would like to forego the Video Laryngoscope this year and apply the funds to the PCI back plate.
