Home Visiting Program

• STRENGTH BASED • FREE • VOLUNTARY

What is **KidsFirst** ?

KidsFirst is a free, confidential, voluntary home visiting program designed to support families with young children.

What Can **KidsFirst** Do For You and Your Family?

The first three years are critical. The purpose of **KidsFirst** is to support your family as you bring a new baby into your life or while parenting toddlers. Families can benefit from **KidsFirst** supports and services before and after the birth of a baby.

How Does **KidsFirst** Work?

A **KidsFirst** staff member will meet with you to learn more about you and your family. Together you will determine if the program is for your family. If it is, a Home Visitor will meet with you regularly to share Growing Great Kids activities and other supports as your family grows.

“My Home Visitor is an excellent listener and has given me inner strength and confidence.”

“You have inspired me to be a better parent, to listen and be patient with my daughter.”

The Home Visitor Will Help You Achieve Your Goals By:

- Listening
- Building on your family’s strengths
- Sharing information about parenting and child development
- Providing fun activities for you and your child that promote healthy child development and attachment
- Connecting you to other services

KidsFirst Team Members Will Also Support You To:

- Deal with difficult challenges
- Provide culturally responsive programming
- Connect with mental health and addiction counselling in your home or other community locations upon request

“I get to talk to someone who doesn’t judge me and who really cares about my child.”
