

Here are some of the fruits of our latest research--papers recently published journals or in press:

- Carter MJ, Waycaster C, Schaum K, Gilligan AM. Cost-effectiveness of three adjunct cellular/tissue-derived products used in the management of chronic venous leg ulcers.

[Value Health 2014;17:801-13.](#)

- Zelen CM, Gould L, Serena TE, Carter MJ, Keller J, Li WW. A prospective, randomised, controlled, multi-centre comparative effectiveness study of healing using dehydrated human amnion/chorion membrane allograft, bioengineered skin substitute or standard of care for treatment of chronic lower extremity diabetic ulcers. [Int Wound J 2014; Nov 26.](#) [Epub ahead of print]
- Serena TE, Carter MJ, Le LT, Sabo MJ, DiMarco DT. A multi-center randomized controlled clinical trial evaluating the use of dehydrated human amnion/chorion membrane allografts and multi-layer compression therapy vs. multi-layer compression therapy alone in the treatment of venous leg ulcers. [Wound Repair Regen 2014; Sep 15.](#) [Epub ahead of print]
- Lansingh VC, Nano ME, Carter MJ, Zárate N, Resnikoff S, Eckert KA. Complexities and challenges of surgical data collection from cataract patients: comparison of cataract surgery rates between 2001 and 2008 in all provinces of Argentina. [Arg Bras Oftalmol. 2014; 77:25-9.](#)
- Fife CE, Carter MJ, Walker D, Thomson B, Eckert KA. Diabetic foot ulcer off-loading: The gap between evidence and practice. Data from the US Wound Registry. [Adv Skin Wound Care 2014; 27:310-6.](#)
