Others to do the Same.**

AHA Healthcare Provider CPR

AHA CPR / AED

Learn the techniques to save a life. Early CPR and AED use has proven to increase the survivability of patients that experience sudden cardiac arrest.

CPR and AED are easy skills you can learn from one of the finest Instructors around. She makes the class fun while teaching the skills to save a life.

This class is for those students that are taking EMT classes, CNA and Nursing classes, working in a medical office or facility, or that the employer or job requires a more in-depth medical CPR certification.

This class does require passing a written exam and passing a skill test to receive American Heart Association certification.

This is 2 year certification

AHA CPR Classes

Training meets all requirements for the American Heart Association certification for Healthcare CPR Provider and a certification card will be given upon successful completion of the course.

Classes cover:

Chest Compressions
Ventilations
AEDs
Blocked Airway
Lots of hands on practice
Certification card
