

V-LOC[®]

TECHNOLOGY

KEY PROGRAMMABLE CONSTANT VOLTAGE LED DRIVERS

- Smooth, flicker-free dimming down to 1%
- 0-10V and TOUCH Dimming on all models
- Key Programmable Voltage Output from 12V to 48V
- Architectural Grade Reliability

FROM THE POWER
SUPPLY INNOVATORS AT

HATCH[®]

THE HIGHEST PERFORMANCE DIMMABLE CONSTANT VOLTAGE LED DRIVER ON THE MARKET

At Hatch Lighting, we have a long tradition of developing unique and innovative power supply solutions for the lighting industry. In developing V-LOC, we recognized a market need for a programmable constant voltage driver that would provide smooth, flicker-free dimming and excellent color quality reproduction with a wide variety of commercially available constant voltage LED loads. V-LOC LED drivers have been designed from the ground up to become the industry standard power supply for a wide variety of architectural-grade constant voltage lighting applications.

Specification Highlights:

For complete V-LOC and TOUCH Dimmer specifications please visit hatchlighting.com

- Smooth, flicker-free dimming down to 1%
- 0-10V and TOUCH Dimming on all models †
- Dim-To-Off Capability
- Consistent color quality reproduction throughout the full dimming range
- Universal Input: 90VAC-305 VAC
- Key Programmable Output via V-LOC Keys: 12V*, 24V 36V & 48V
- 40W, 60W & 96W Models*
- No minimum load required
- UL Class 2 outputs
- UL8750 Supplement SF Compliant: Isolated 0-10V
- UL/cUL Class P Listed
- Field installable

**V-LOC LED drivers are now available for evaluation.
Please contact your Hatch Sales Rep for details.**

About Hatch:

Since 1985, Hatch Lighting has specialized in the design and manufacture of advanced electronic power supplies for lighting applications. Today, we offer a full range of LED drivers, Emergency Lighting Products, Surge Protection Devices, Ballasts and Transformers. With the introduction of V-LOC, Hatch continues the legacy of releasing unique and innovative products to meet the evolving demands of the lighting industry.
