Daltex
Bespoke

derbyshire specialist
aggregates 

We have an extensive range working with our partner Derbyshire aggregates, who offer a 15 year guarantee on the stone and resin.

Windsor Grey

One of our newest additions, Windsor Grey is a stunning mix of light and dark grey rounded stones with hints of dark green, white, and cream aggregates.

This is ultra stylish choice for both contemporary and traditional properties and suitable for for driveways, patios and paths.

Richmond

One of our newest additions, Windsor Grey is a stunning mix of light and dark grey rounded stones with hints of dark green, white, and cream aggregates.

This is ultra stylish choice for both contemporary and traditional properties and suitable for for driveways, patios and paths.

Gunmetal Grey

Gunmetal Grey is an eye-catching, naturally rounded and angular resin bound aggregate blend.

This blend is set amongst a sea of light and dark grey, interlaced with warm jewels of cream and gold permeating throughout.

This stylish blend makes a spectacularly impressive contrast against traditional brickwork but also works well with darker stone.

Ocean Pearl

Ocean Pearl is a stunning combination of contemporary shades of light and dark grey resin bound aggregate.

This attractive blend is interlaced with gorgeous tones of creamy quartz and jewels of amber throughout to create a showstopping finish ideal for resin driveways and projects of all types.

Ocean Pearl works spectacularly well on residential driveways, paths & patios.

Anthracite

Anthracite is a beautiful resin bound gravel blend that combines stylish shades of silver and grey for a stunning finish.

This naturally rounded and angular aggregate mix is decorated with alluring amber and cream particles throughout and makes an excellent choice for resin driveways, walkways, and patios, and is also suitable for commercial venues such as holiday parks and sports centres.

Sovereign

This striking mix of naturally round and angular stone in deep green with flecks of cream, yellow and white delivers a classic and stylish finish that is perfect for driveways, paths and patios.

Brindle

This gorgeous combination of angular and rounded stone in crushed brown, purple and pink creates a beautiful, subtle finish which looks perfect in any driveway or patio setting.

Pink Opal

Angular jewels of pink, purple and brown stone are beautifully offset against a lustre of smooth, rounded greys and natural beige. A classic blend which complements properties of all styles and age.

Orchid

Natural clusters of smoothly rounded greys, yellow and cream combine with bursts of angular pink, purple and brown to create an eye-catching blend of real beauty - a timeless classic for any driveway, patio or path.

Steel Blue

This stunning blend of silver grey features flecks of blue and black and creates a contemporary finish ideal in any urban setting - but it also makes a spectacularly impressive contrast against traditional brickwork. Eye catching when used for driveways, patios and paths.

Solstice

Fiery red granite set amongst tones of angular pink, cream and grey stone creates a show stopping blend that adds instant impact to any driveway, path or patio.

Sunset

Warm hues of pink, lilac and brown combine beautifully in this mix of crushed angular and rounded gravel to create instant kerb appeal for every style of property.

Champagne Pink

Subtle tones of lilac, brown and purple are beautifully offset against silver to create this spectacularly elegant and attractive blend of mixed angular and rounded stone – an ideal choice for driveways, paths or patios.

White Gold

The Daltex White Gold resin-bound gravel mix is a unique and distinctive mix of golden and white stones. The mix has various aggregates of different sizes and textures that add to its bright and sparkling aesthetic.

Alpine

An eye-catching blend of white aggregates with flecks of silver. This crisp and contemporary look complements darker border colours but is equally spectacular when used on its own.

Fossil

This beautiful blend of cream with a hint of silver offers a lighter, softer finish for contemporary and traditional properties.

Athena

This blend of red and silver resin bound aggregates is often used to create unique design features but it works equally well as the main colour creating a very distinctive, eye catching finish.

Cappuccino

Warm hues of yellow, green and brown aggregate of various textures and sizes are mixed to create an attractive deep and rich finish.

Glacier

White stone interspersed with ivory tones gives this classic colour a cool, clean and sophisticated finish.

Rose Garden

This specially selected collection of round, shiny pebbles mixed with granite stone has beautiful red and golden highlights which complements red brick properties in particular.

Domino

This elegant mix of black and contrasting white stone is beautifully textured. Guaranteed to make an immediate impression.

Harvest Gold

A warm golden brown blend that is made even more attractive by the hint of gold that runs through it. This classic collection complements most property styles and is a popular choice for paths and patios as well as driveways.

Santorini

Red and white aggregates combine stylishly to create a sensational colour blend reminiscent of the Mediterranean.

Slate Grey

This gorgeous slate coloured resin bound gravel is permeated with shades of lighter grey throughout. A timeless classic that suits all styles of property.

Pearl Blush

This creamy white blend features natural bright, light colours including flecks of cream, yellow and grey blushed with red. Hard but durable, this colour blend creates a stunningly natural, decorative finish.

Aurora

Flecks of chestnut and black highlight the lighter tones of gold, cream and grey perfectly to create a truly stunning finish that is ideal for driveways, patios and paths.

Dune

This warm and sandy coloured finish combines all the very best brown and yellow gravels to create a semi-rounded, smooth and even texture. A very popular choice.

Moonshadow

This silver grey angular blend with a strong black fleck for texture and contrast produces a contemporary and clean finish.

Sienna

This beautiful mix of tones includes browns, oranges and reds to create a warm and inviting finish which is still very contemporary.

Seashore

This palette of coastal inspired creams, yellows and greys creates a gentle warm blend which works beautifully with a wide range of properties.

Arcadia

This stunning selection combines golds with greys to create a stylish blend which is always a favourite. It works particularly well with stone and rendered properties or in coastal areas where it complements the colours of the natural landscape beautifully.

Arizona

This blend of rounded gravel contains chestnut, hazel and almond colours mixed beautifully with soft creams, yellows and grey to create an absolutely stunning finish.

Oyster

Natural light quartz colours are mixed together with flecks of black to add real depth and character to this blend. Perfect for driveways.

Golden Pearl

This round, smooth, textured blend includes a combination of brown hues along with yellows and natural light colours to give a smooth, durable finish that is incredibly popular for use in resin bound driveways, paths and patios.

Winter Sage

This stunning blend consists of dark green and contrasting gold, cream and grey. The perfect choice for contemporary driveways, paths and patios.

Polaris

This blend of black with silver grey contrasting flecks produces a speckled granite like surfaced which is perfect in an urban or pedestrian setting.

Eden

All the beauty of autumn captured in one blend. In particular, the green accent within the blend complements grassed and planted areas and makes this an ideal choice for garden paths and patios as well as driveways.

Harlequin

Silver contrasts beautifully with black to create a very strong contemporary look that is ideal for the most stylish resin bound driveways, paths and patios.

Onyx

A striking deep black aggregate, made even more attractive because of its shiny finish. The perfect contrast to pots, plants and flowers, it is incredibly versatile and can also be combined with contrasting border colours such as grey or silver to create a stunningly contemporary look.

Cornfield

Warm, sunny and welcoming. Yellow and golden hues combine to make this an ideal selection for driveways, paths and patios.

Morning Mist

Silver and cream tones run through this blend and the pearl coloured finish delivers a distinctively premium, luxurious feel. Clean, classic and contemporary.

Sorrento

The striking contrast of red against green and the defined angular appearance of the gravel makes this an ideal and very practical choice for driveways.

Riviera

This colour blend is full of character and beauty – sandy hues mixed with amber and silver specks create an eye-catching finish just perfect for resin bound drives.

Merlot

Strong. Rich. Burnished Red. A striking choice which works particularly well against other strong colours and can be used for both traditional and modern designs.

Springtime

This exceptionally popular mix of golden, white, red and brown aggregates creates an attractive traditional colour blend which works well with all types of properties.

Sunlight

This golden and beige mix of resin gravel will brighten up any garden with its soft, summery feel. A stunning choice for patios and paths as well as driveways.

Eclipse

Jet black interspersed with silver flecks creates a sparking colour combination which works incredibly well across larger areas in particular.

Titan Silver

A modern classic. This contemporary speckled silver mix works well with most colours and designs and can be paired with black or green for show-stopping results.

Carnival

This gorgeous blend is a carnival of warm colours. Combining red with golden aggregates, it complements homes and commercial properties of all types.
