

A modern outdoor living space featuring a large fireplace with a fire, a patio sofa with patterned pillows, and a coffee table. The ceiling is made of light-colored wood and has several infrared heaters mounted on it. Two square lantern-style pendant lights hang from the ceiling. The background shows a view of a forested hillside under a clear blue sky.

Built for
comfort in
*any outdoor
space.*

Comfort. Craftsmanship. Warmth. Style.
You build homes with these qualities
in mind – and we manufacture heating
systems that reinforce your vision.

INFRATECH
COMFORT

*comfort and style
meet convenience*

MOUNTING OPTIONS

Our heaters can be flush mounted, ceiling mounted, wall mounted or pole mounted. They have minimal clearance requirements, and are UL-listed for as low as seven feet. All our mounting options are easy to install.

With smaller, sleeker profiles than typical gas infrared heaters, Infratech electric heating systems offer a streamlined, yet effective heating solution for any indoor-outdoor space.
