Agile Cyber Solutions, Inc.

Specializing in cyber mission operations, education, and training to safeguard autonomous maneuver through cyberspace

Agile Cyber Solutions was established in 2017 to address the challenges faced by Government and industry enabling new and modernized Internet Technology (IT) operating concepts and strengthening cyber security. We are a Service Disabled Veteran Owned Small Business (SDVOSB) with a focus on IT systems analysis, design, integration, implementation, and training. We offer coding, database optimization, security solutions, threat analysis, analytics and digital forensic training.

We consult to analyze existing IT infrastructure and assist our customers to achieve Better Buying Power (BBP) by significantly reducing system life cycle costs through up-front integration and efficient sustainment. We advise on how to best leverage improved infrastructure, including technologies encompassing Cloud based applications and storage. With an emphasis on *cyber security*, we offer turnkey IT solutions from installing thick/thin client and end-user systems to modifications and improvements of existing complex and large footprint systems. Agile Cybers' philosophy of continuous collaboration with its industry partners allow us the unique opportunity to leverage IT engineering and related human capital resources to expand with mission demands. We continually forge relationships with larger companies, which gives us the exclusive opportunity to immediately support the changing demands and requirements of our customers.

Our leadership team consists of former Office of the Secretary of Defense (OSD), Army, and Navy professionals with executive level experience in both tactical Command, Control, Communications, Computers, Cyber, Intelligence, Surveillance and Reconnaissance (C5ISR) and Data Center/Cloud/ Generating Force (strategic/enterprise network) technologies. Our suite of service offerings include acquisition life-cycle program management, procurement, science and technology (S&T) maturation, and federal law enforcement cyber investigations and operations. We have a proven track record in leading large-scale operations and marshalling diverse resources toward accomplishment of organizational goals and objectives. Agile Cyber Solutions is highly experienced in IT policy development, application, and integration. We are comfortable working both inter/intra Service and foreign government/military environments.

Company Data

- DUNS: 08-086-1319

- Cage Code: 7Y9G6

- Point of Contact: Andrew P. Chappell, President
