

[Slide whistle sound]

[Footsteps]

[Humming stealth music]

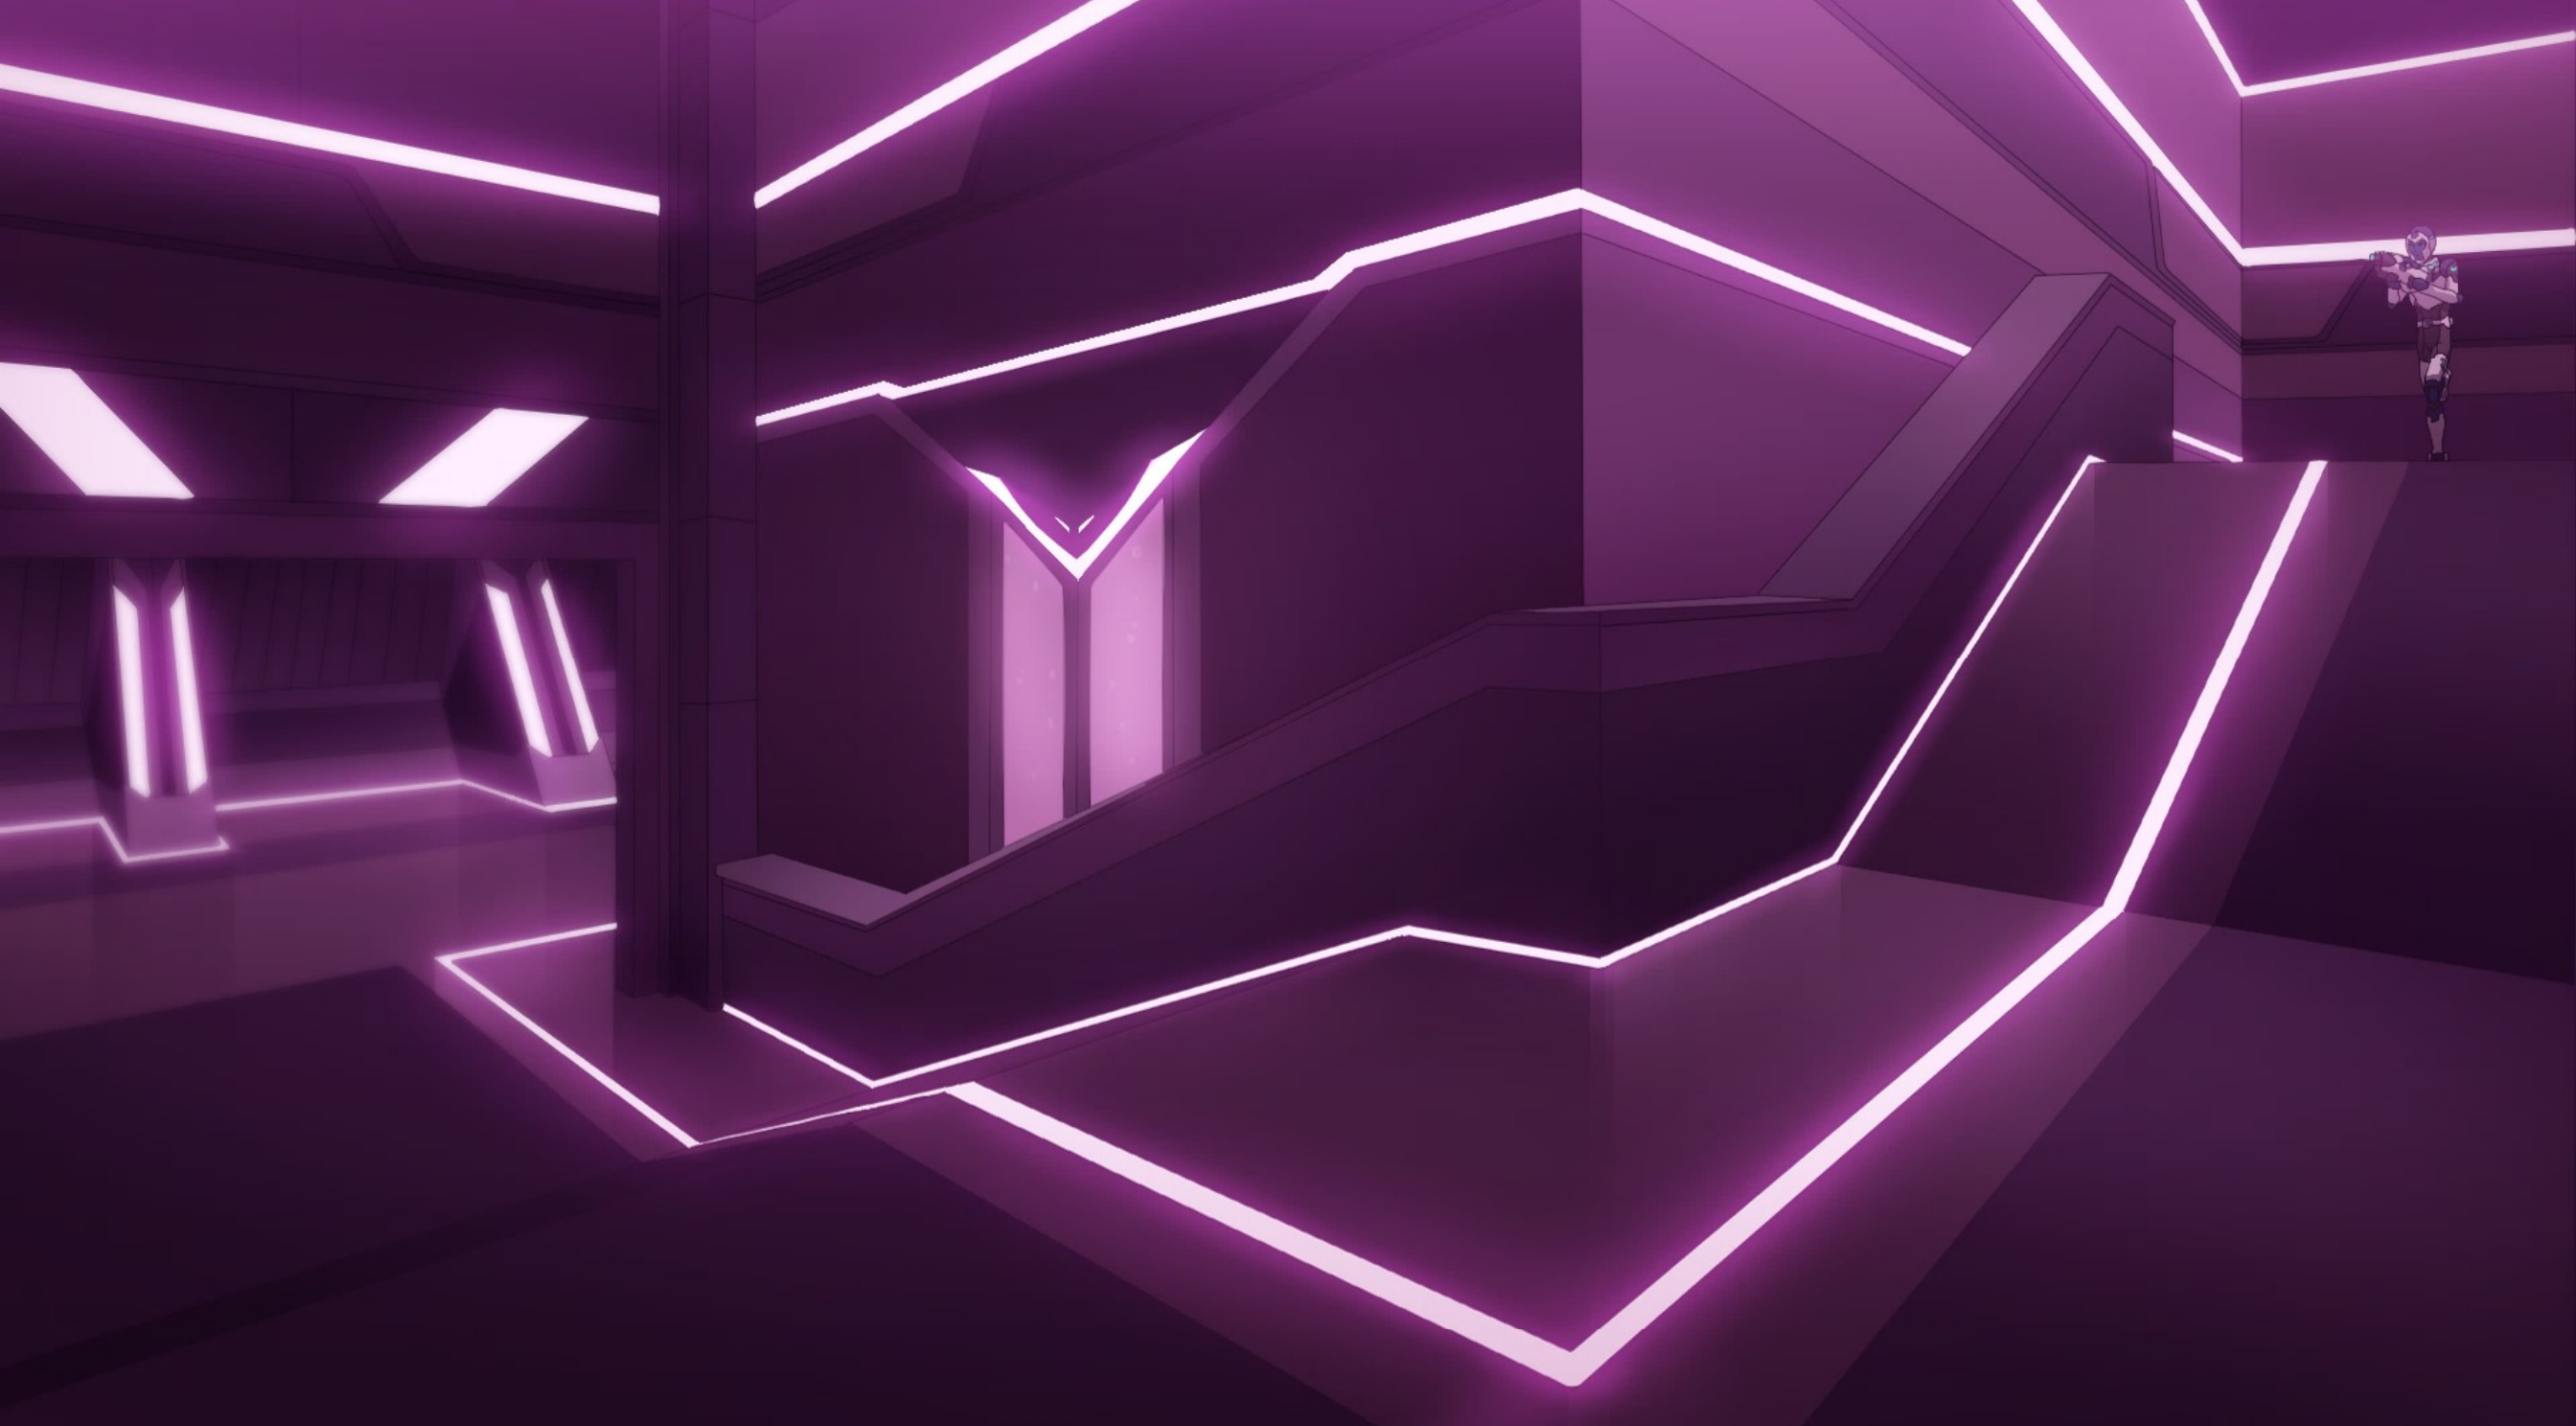

[Humming stealth music]

[Continues stealth humming]

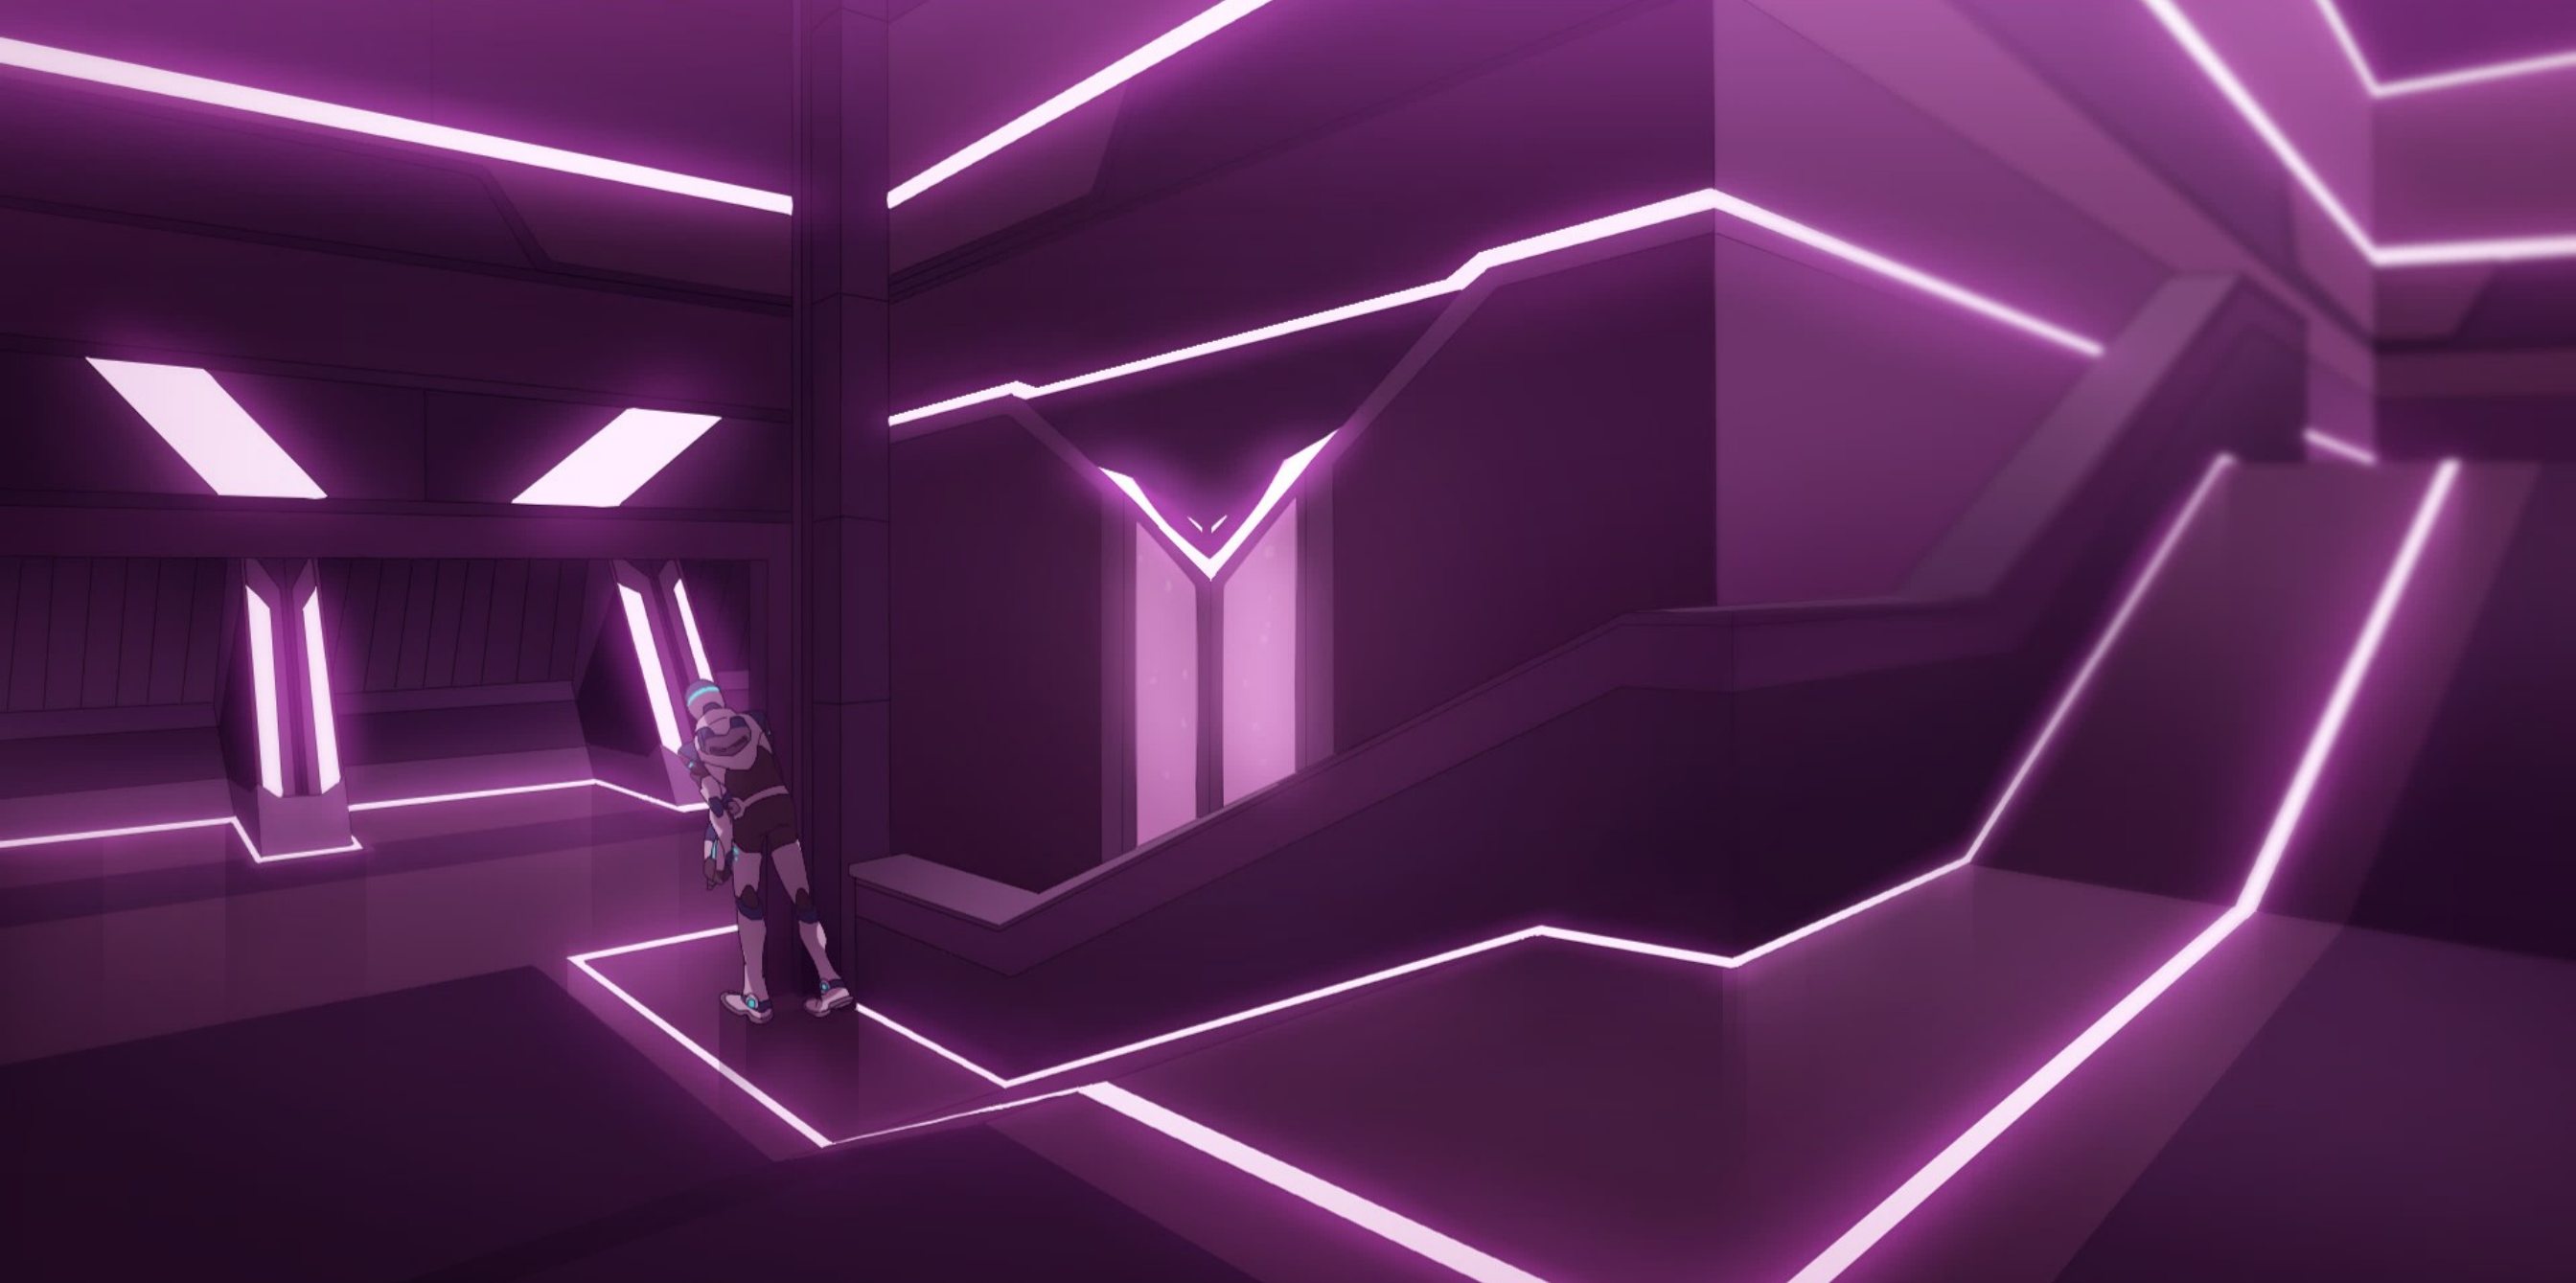

[Continues stealth humming]

Huh?

[Mumbling] No patrols over here, either..? Weird.

Uhh..

...What the cheese?

Hmm..

[Loud explosions accompanied by multiple lasers firing]

[Lance] Pidge. Hey, Pidge!

What the heck is up with this map you made? I have no idea where I am right now.

*Argh!!*

***What?! How?! I compiled it using scans from your lion!***

Hey! Don't blame Blue!! She had a lot of weird Galra interference to deal with when she was scanning the base!

[Pidge] [Exasperated sigh] Alright, whatever. If you are where I think you are...I'm pretty sure you need to go left? Probably..?

Well, your guess is better than mine. Left it is.

[Lance] So how're things on your guys' end?

[Explosions, bii-bohs bii-bohing in distress]

[Yelling] Things are bad! They're *really* bad! Anyone have any idea why the galra are targeting a *bii-boh* convention?!

[Yelling] Guys, focus!

[Hunk] [Still yelling] Yeah, *easy for you to say!* I can't even see! [struggling noises]  
Bii-boh Pidge no!! *Get off my visor!*

[muffled bii-bohing]

[A very large explosion going off, everyone screaming]

Hey... guys?! Everyone o...

...kay..?

[Complete silence]

[Lance] [Voice audibly cracking] Oh. Hey.

[Guns being drawn and pointed at Lance, Lance shrieking]

[Lasers being powered up]

...Quiznack.

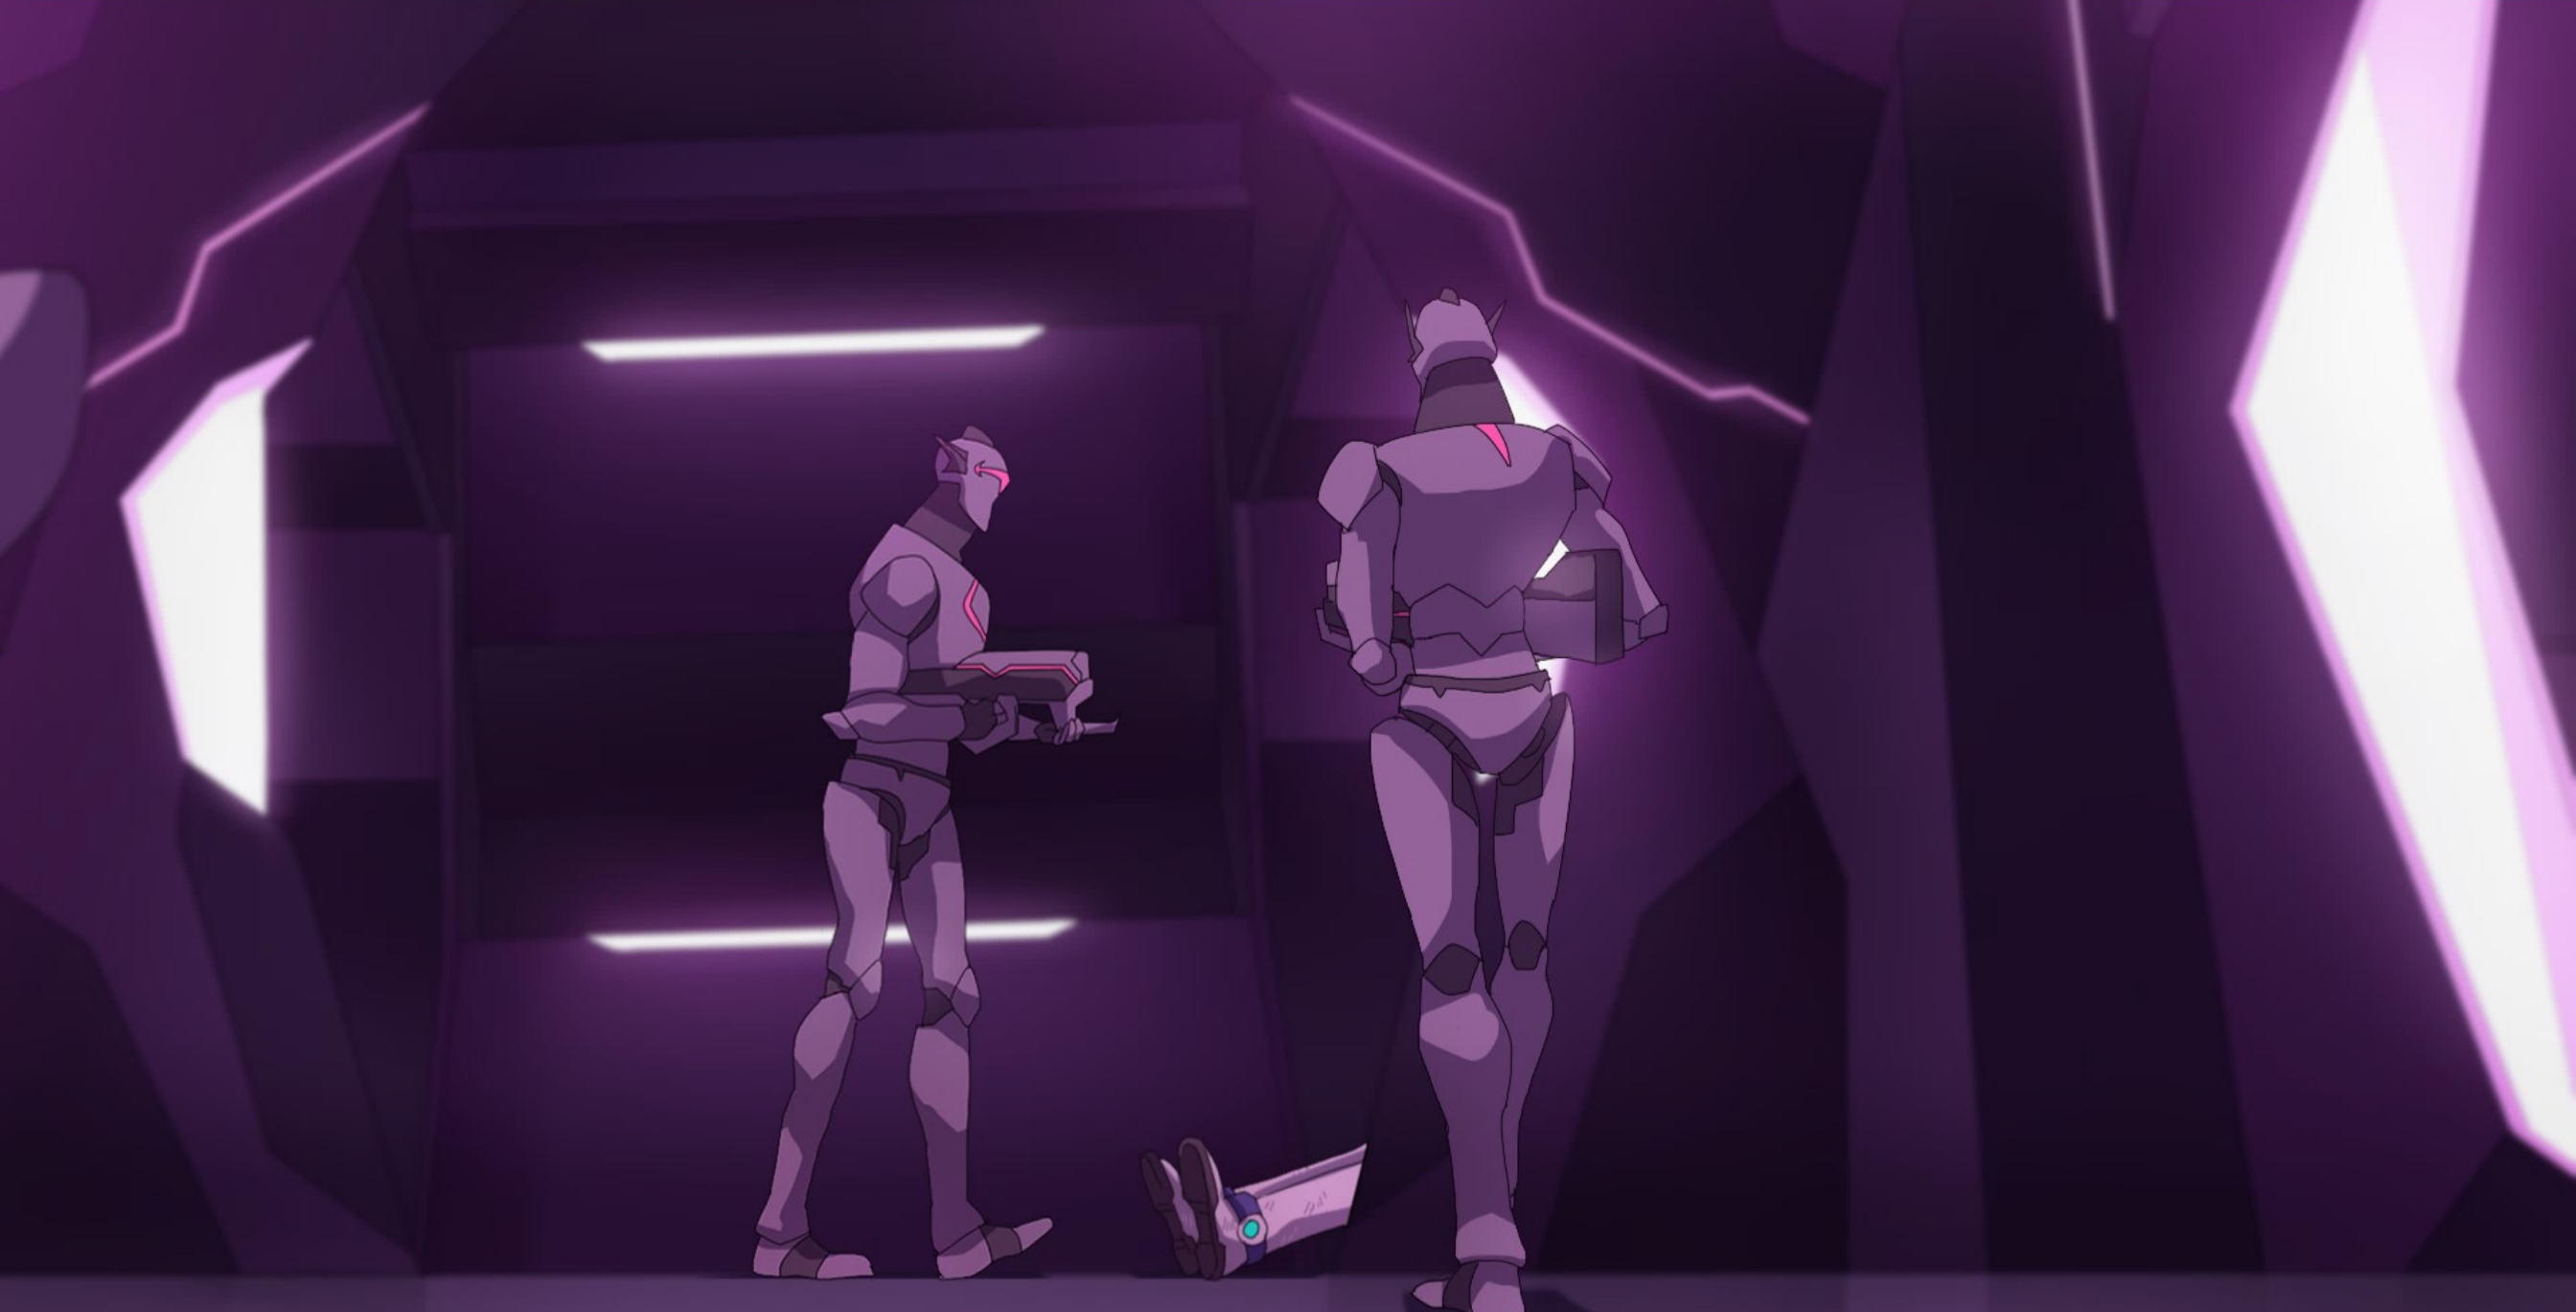

[Dragging sounds]

[Lance grumbling]

Hey, where are we going?

[Lance] [voice distant] I know you guys can talk!

[Lance struggling] Can I at least have my helmet back? It *stinks* in here.

[Lance] [grunting] Ugh!

[Sentry] Sir.

[Sentry] We've captured an intruder,

and we believe they may be a paladin of Voltron.

A paladin of Voltron, you say?

Well now,

what an interesting development.

Lieutenant En, shall I notify central command of this?

No.

[Lieutenant En] With the component retrieval nearly complete,

what better way to present it to Lord Zarkon *himself* than with a pivotal member of the insurgency against the empire alongside it?

Sir, the blue lion also appears to be within the facility.

[Lieutenant En] Excellent.

... And where is the rest of your team, paladin?

Why would I tell you?

Simple.

Because it is in your best interest to do so.

What, is that a threat or something? We both know you're not gonna ki-

[Lance grunting] Argh!

Ugh!

[Footsteps]

[Lieutenant En] You're of no use to me dead, so it's true that I can't kill you.

But what I *can* do is much, *much* worse.

[grumbling] Ow..

...Whatever, man. I think you think you're a lot scarier than you actually are.

[Lieutenant En] Hmph. Given that you *taunt* those you are at the complete mercy of, it would seem that the rumours circulating our ranks are true.

... What rumors?

They say though the paladins of Voltron *are* quite formidable, there is one within their ranks that is a particularly *inept* and *witless* soldier. The one who wears *blue armor*, if I recall correctly.

Wait, so you guys.. *gossip* about me?

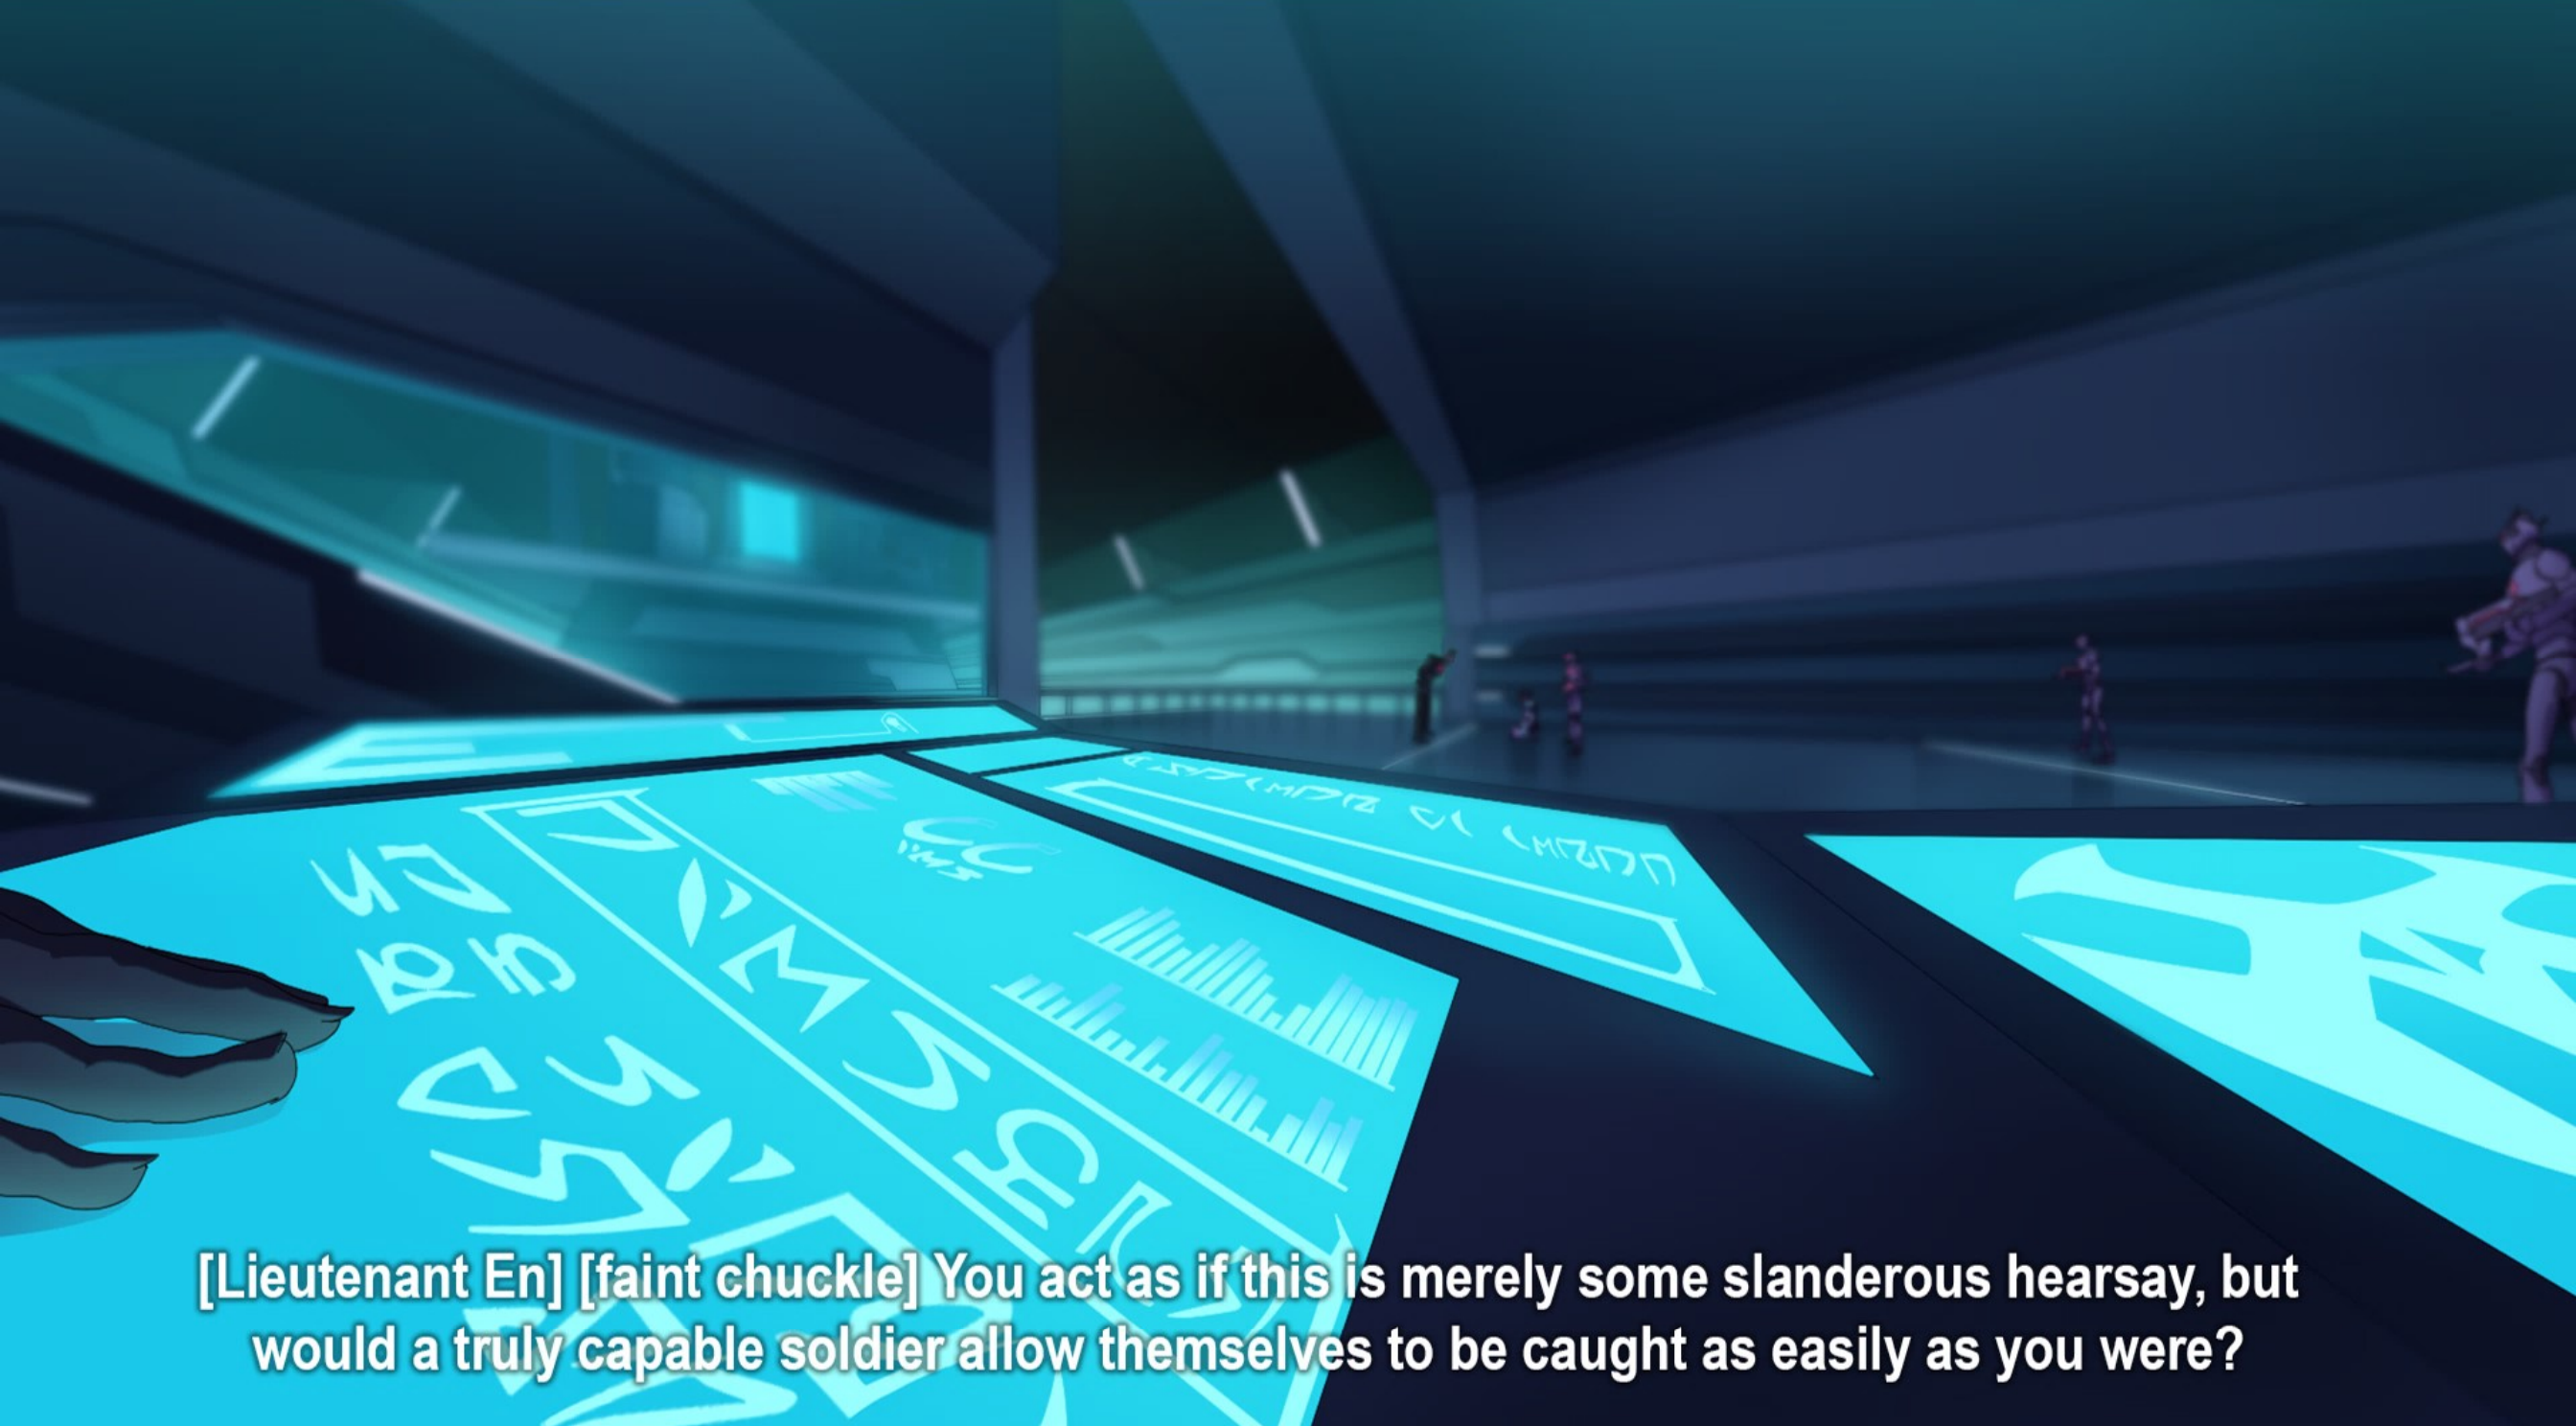

[Mockingly] Oh *nooo*....

[Lance] That cuts real deep, man. I guess I should give up on being a paladin and let you guys take over the universe then, huh?

[Lieutenant En] [faint chuckle] You act as if this is merely some slanderous hearsay, but would a truly capable soldier allow themselves to be caught as easily as you were?

[Lance inhaling sharply]

[Sergeant Thiga] Sir.

**Scans of the surrounding station area and planetary airspace are clear of any other voltron lion energy signatures.**

All sentries that had been de-activated during infiltration are now back online, as well.

Good. And?

[Lance struggling]

[Sergeant Thiga] ..Now that the station is secure, I recommend we send the patrol sentries to retrieve the blue lion immediately.

[Gasp] No..!

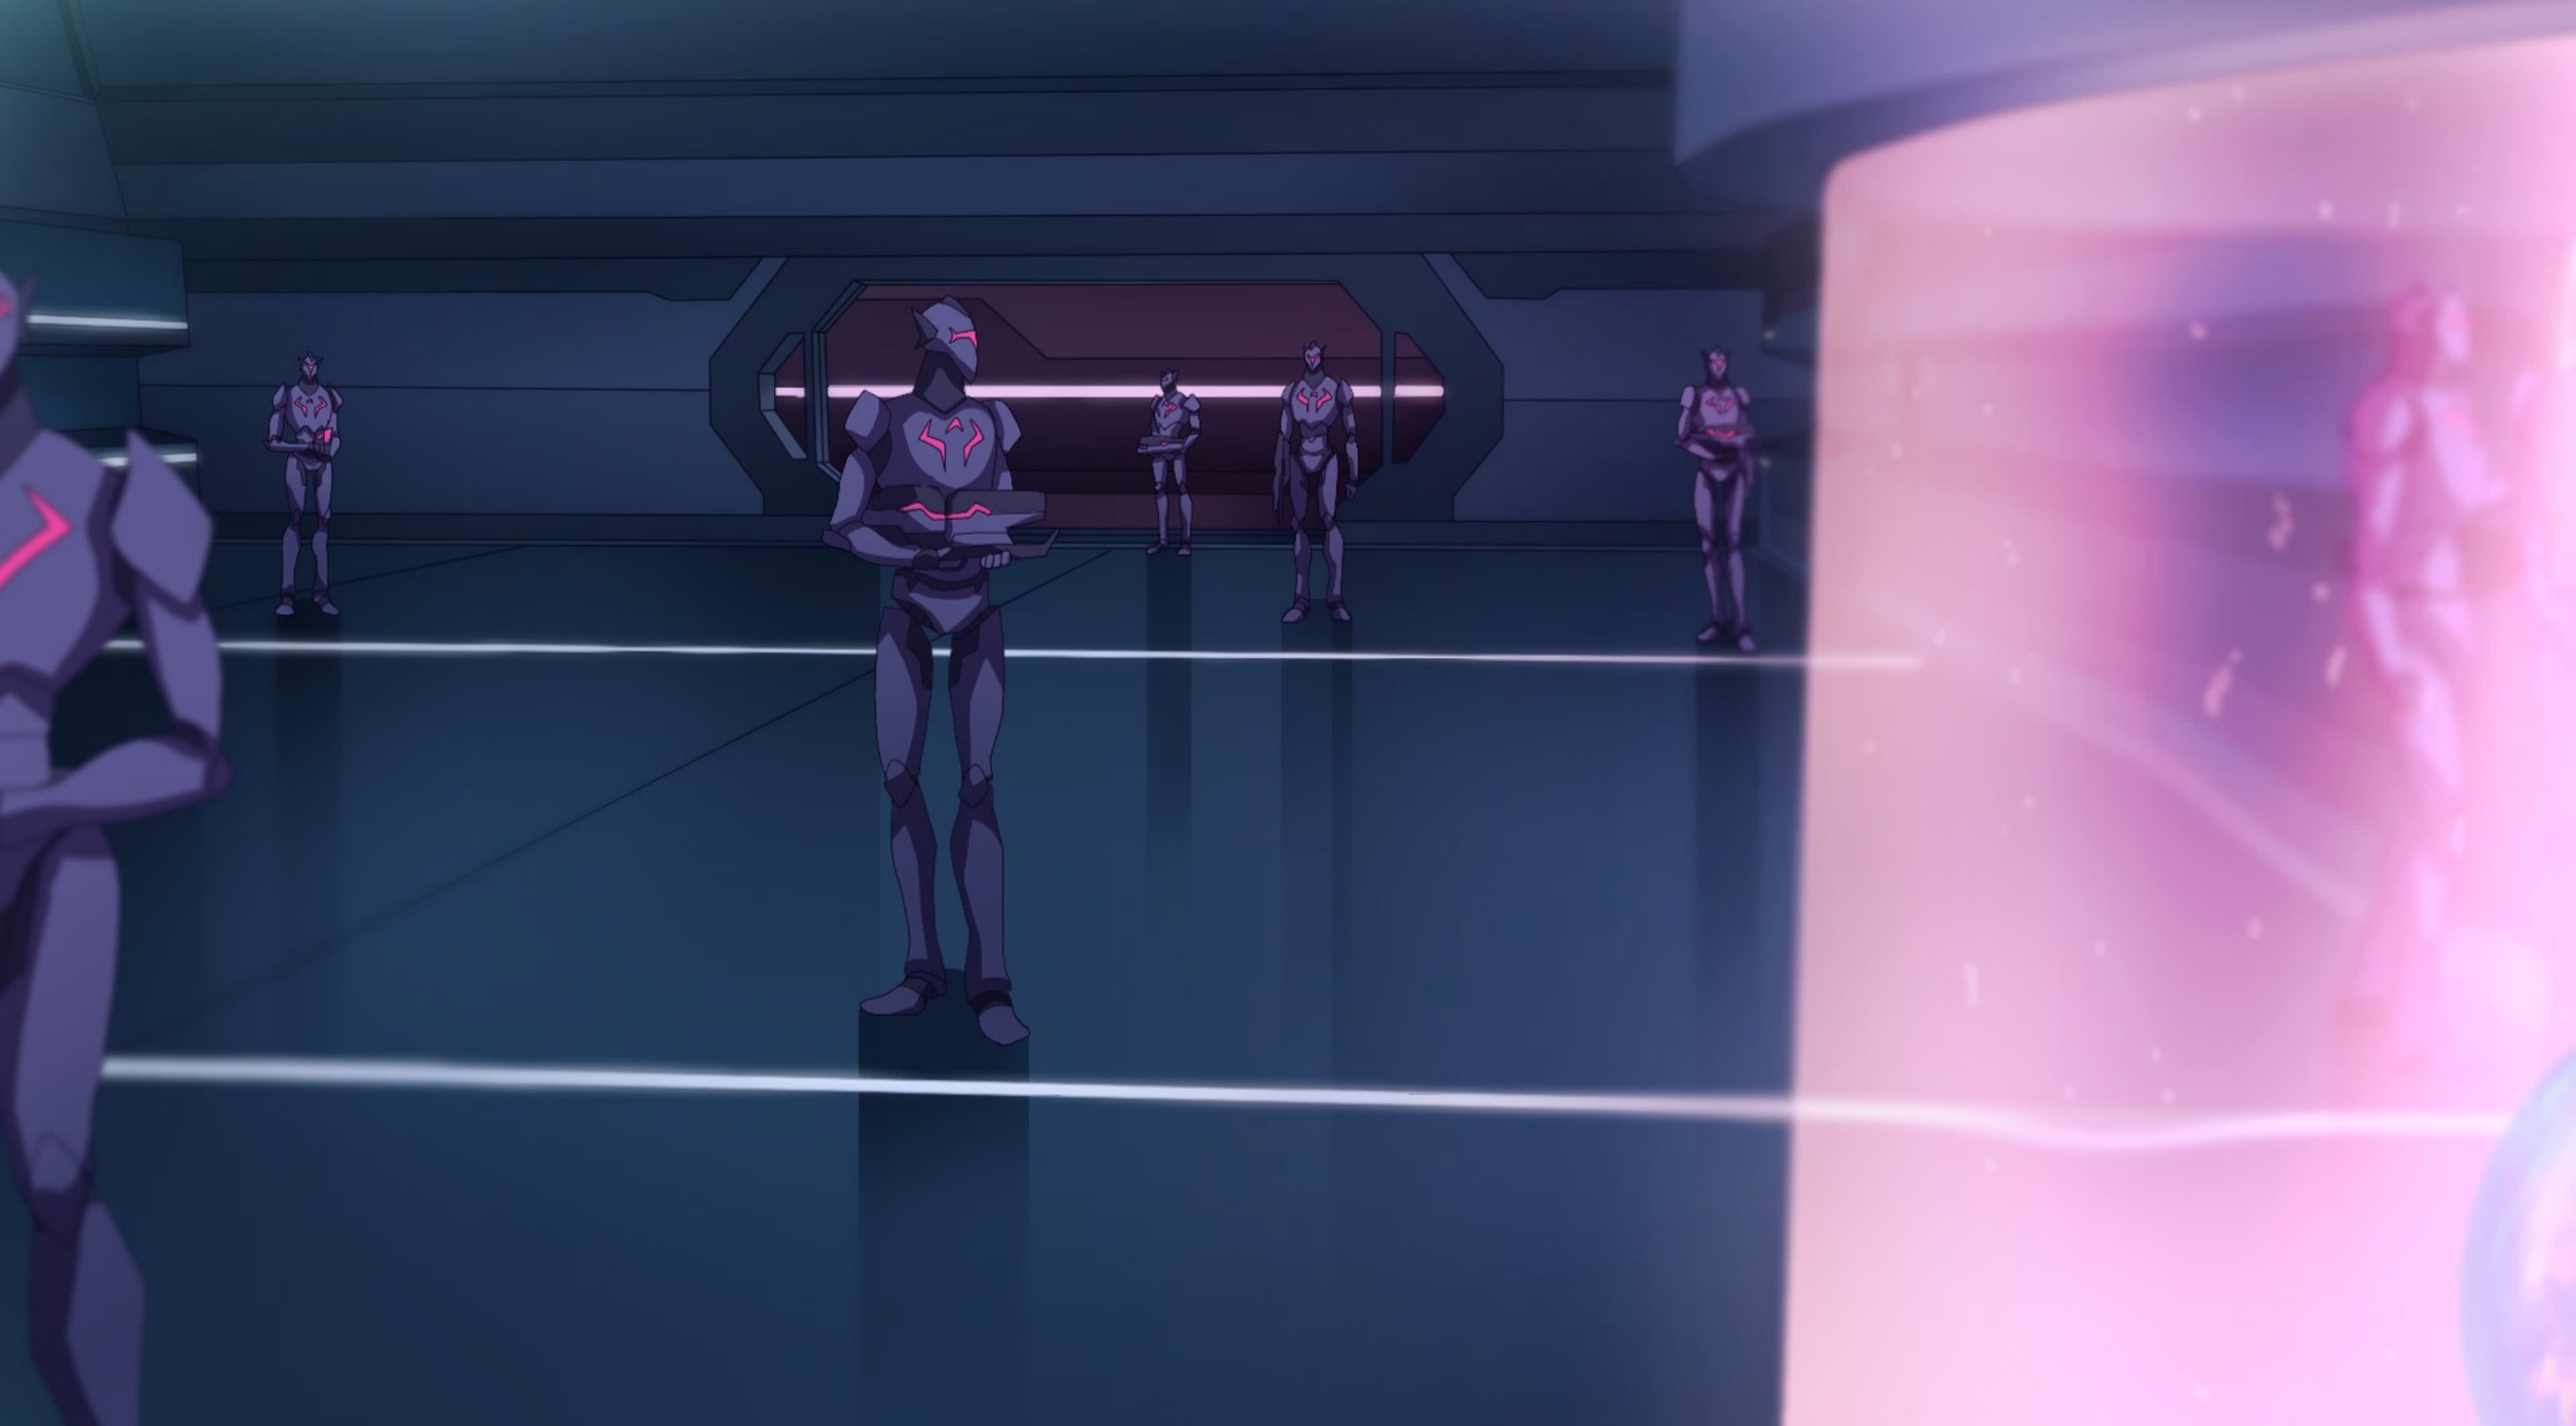

Quiet.

[Scuffling, Lance cursing]

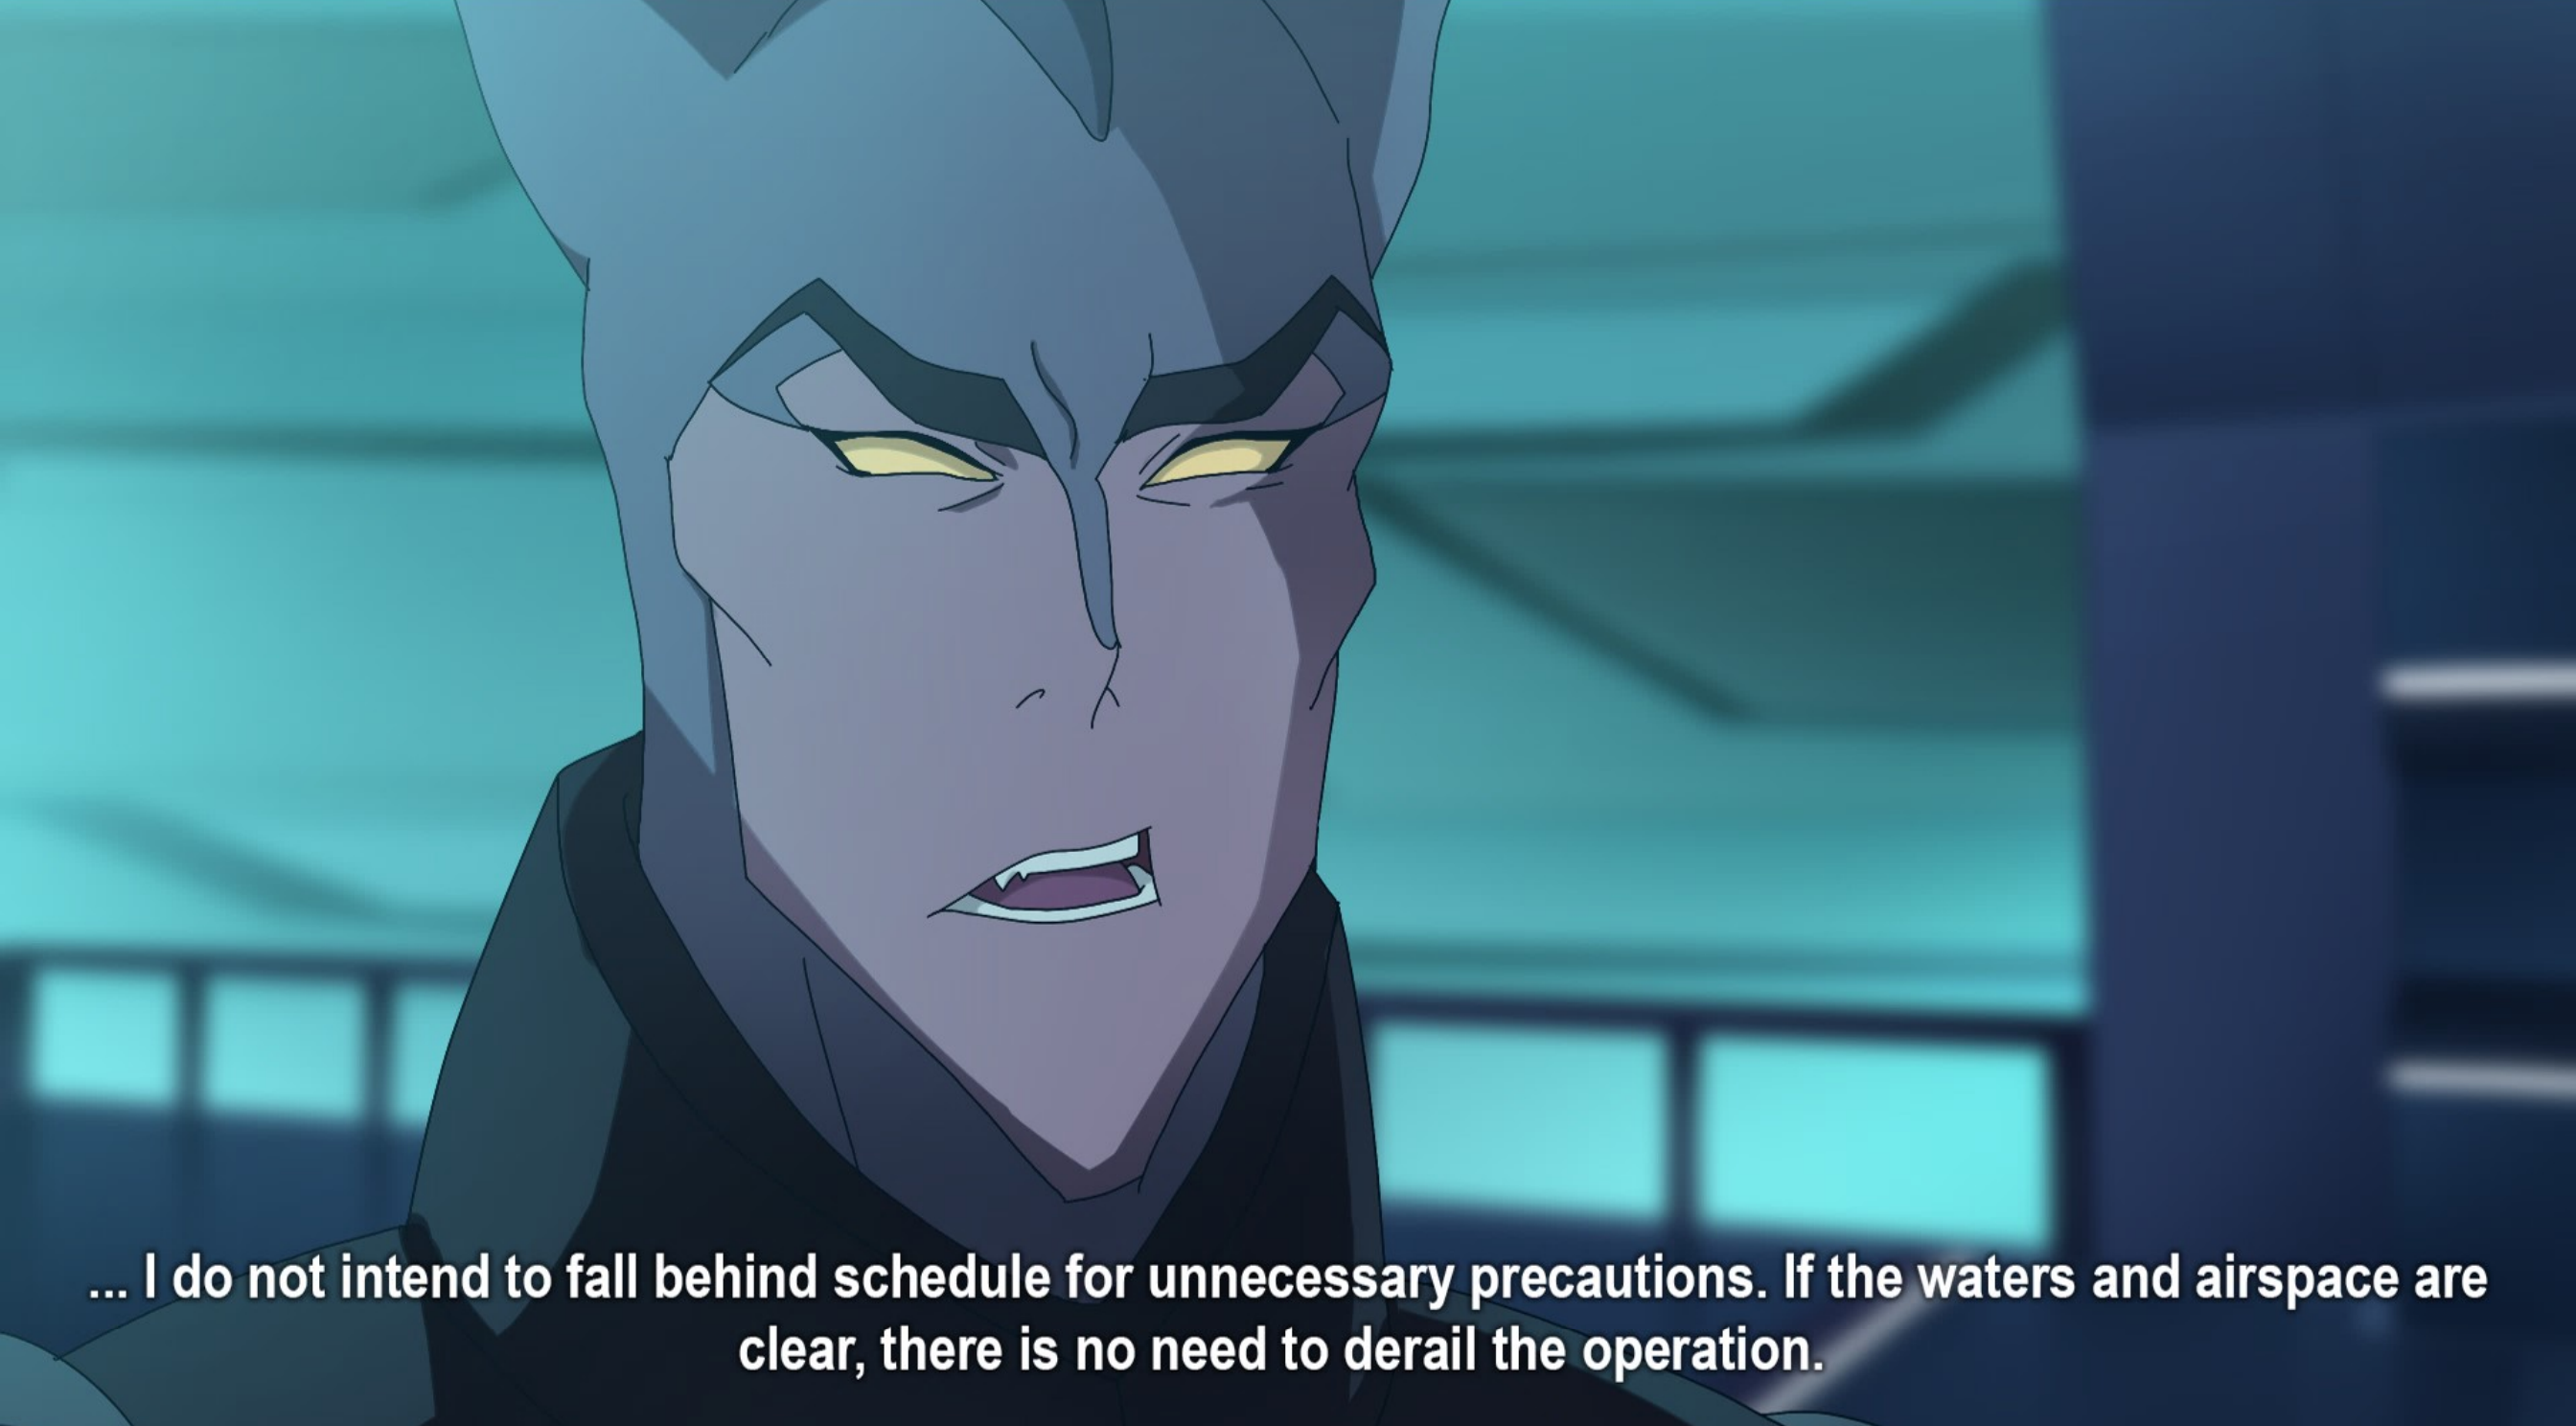

How many are needed?

More than we have here. I'll have to take some from the drilling station down below.

... I do not intend to fall behind schedule for unnecessary precautions. If the waters and airspace are clear, there is no need to derail the operation.

**[Lieutenant En] Heighten security levels and leave it, for now. I want you to take these sentries and join the rest down below. We will send them to secure the lion once extraction is complete.**

[Sergeant Thiga] ... Yes sir.

A character with purple skin and yellow eyes, wearing a dark suit with a glowing pink symbol on the chest, standing in a dark, futuristic environment. The character has a determined or angry expression. The background consists of dark blue and black geometric shapes, possibly a futuristic building or a cave. A bright blue light source is visible in the bottom right corner.

... And what of the blue paladin?

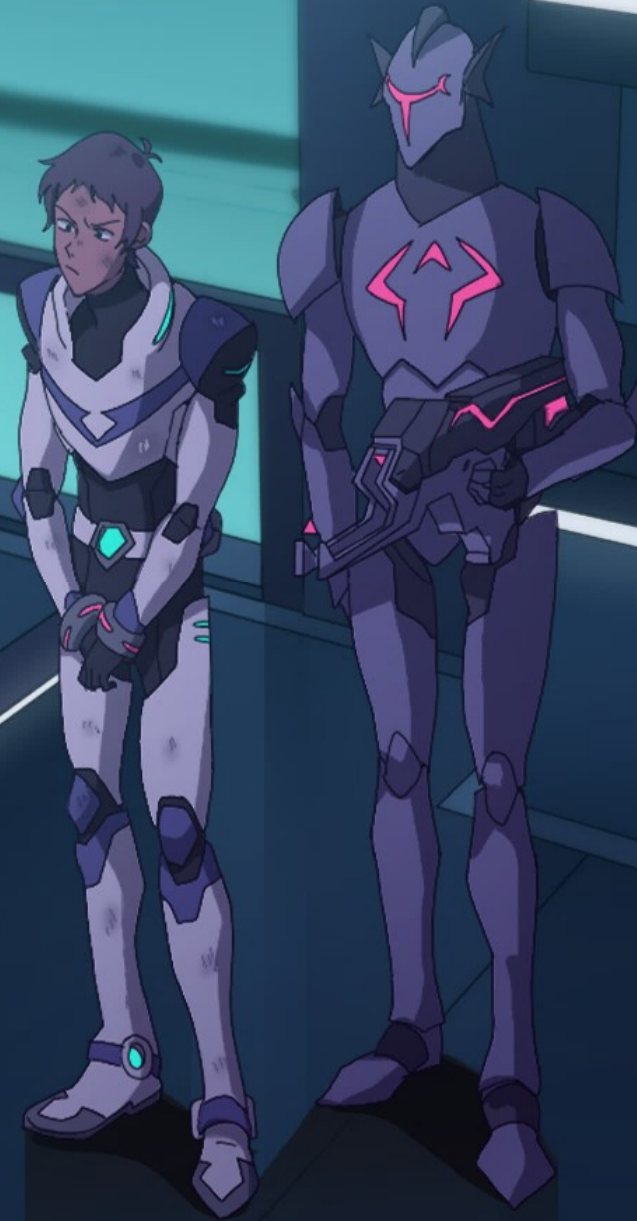

[Lieutenant En] He wil remain here until we are finished.

[Lieutenant En] Hmm..

[Lieutenant En] You there.

[Sentry] Sir.

Take him over to the nanofluid chambers so we can keep him from causing any more trouble.

[Sentry] Yes sir.

[Shoving sound, Lance grunting]

Tell me something, paladin.

How well does your species tend to fare when submerged in boiling solvent?

[voice cracking] ... What?

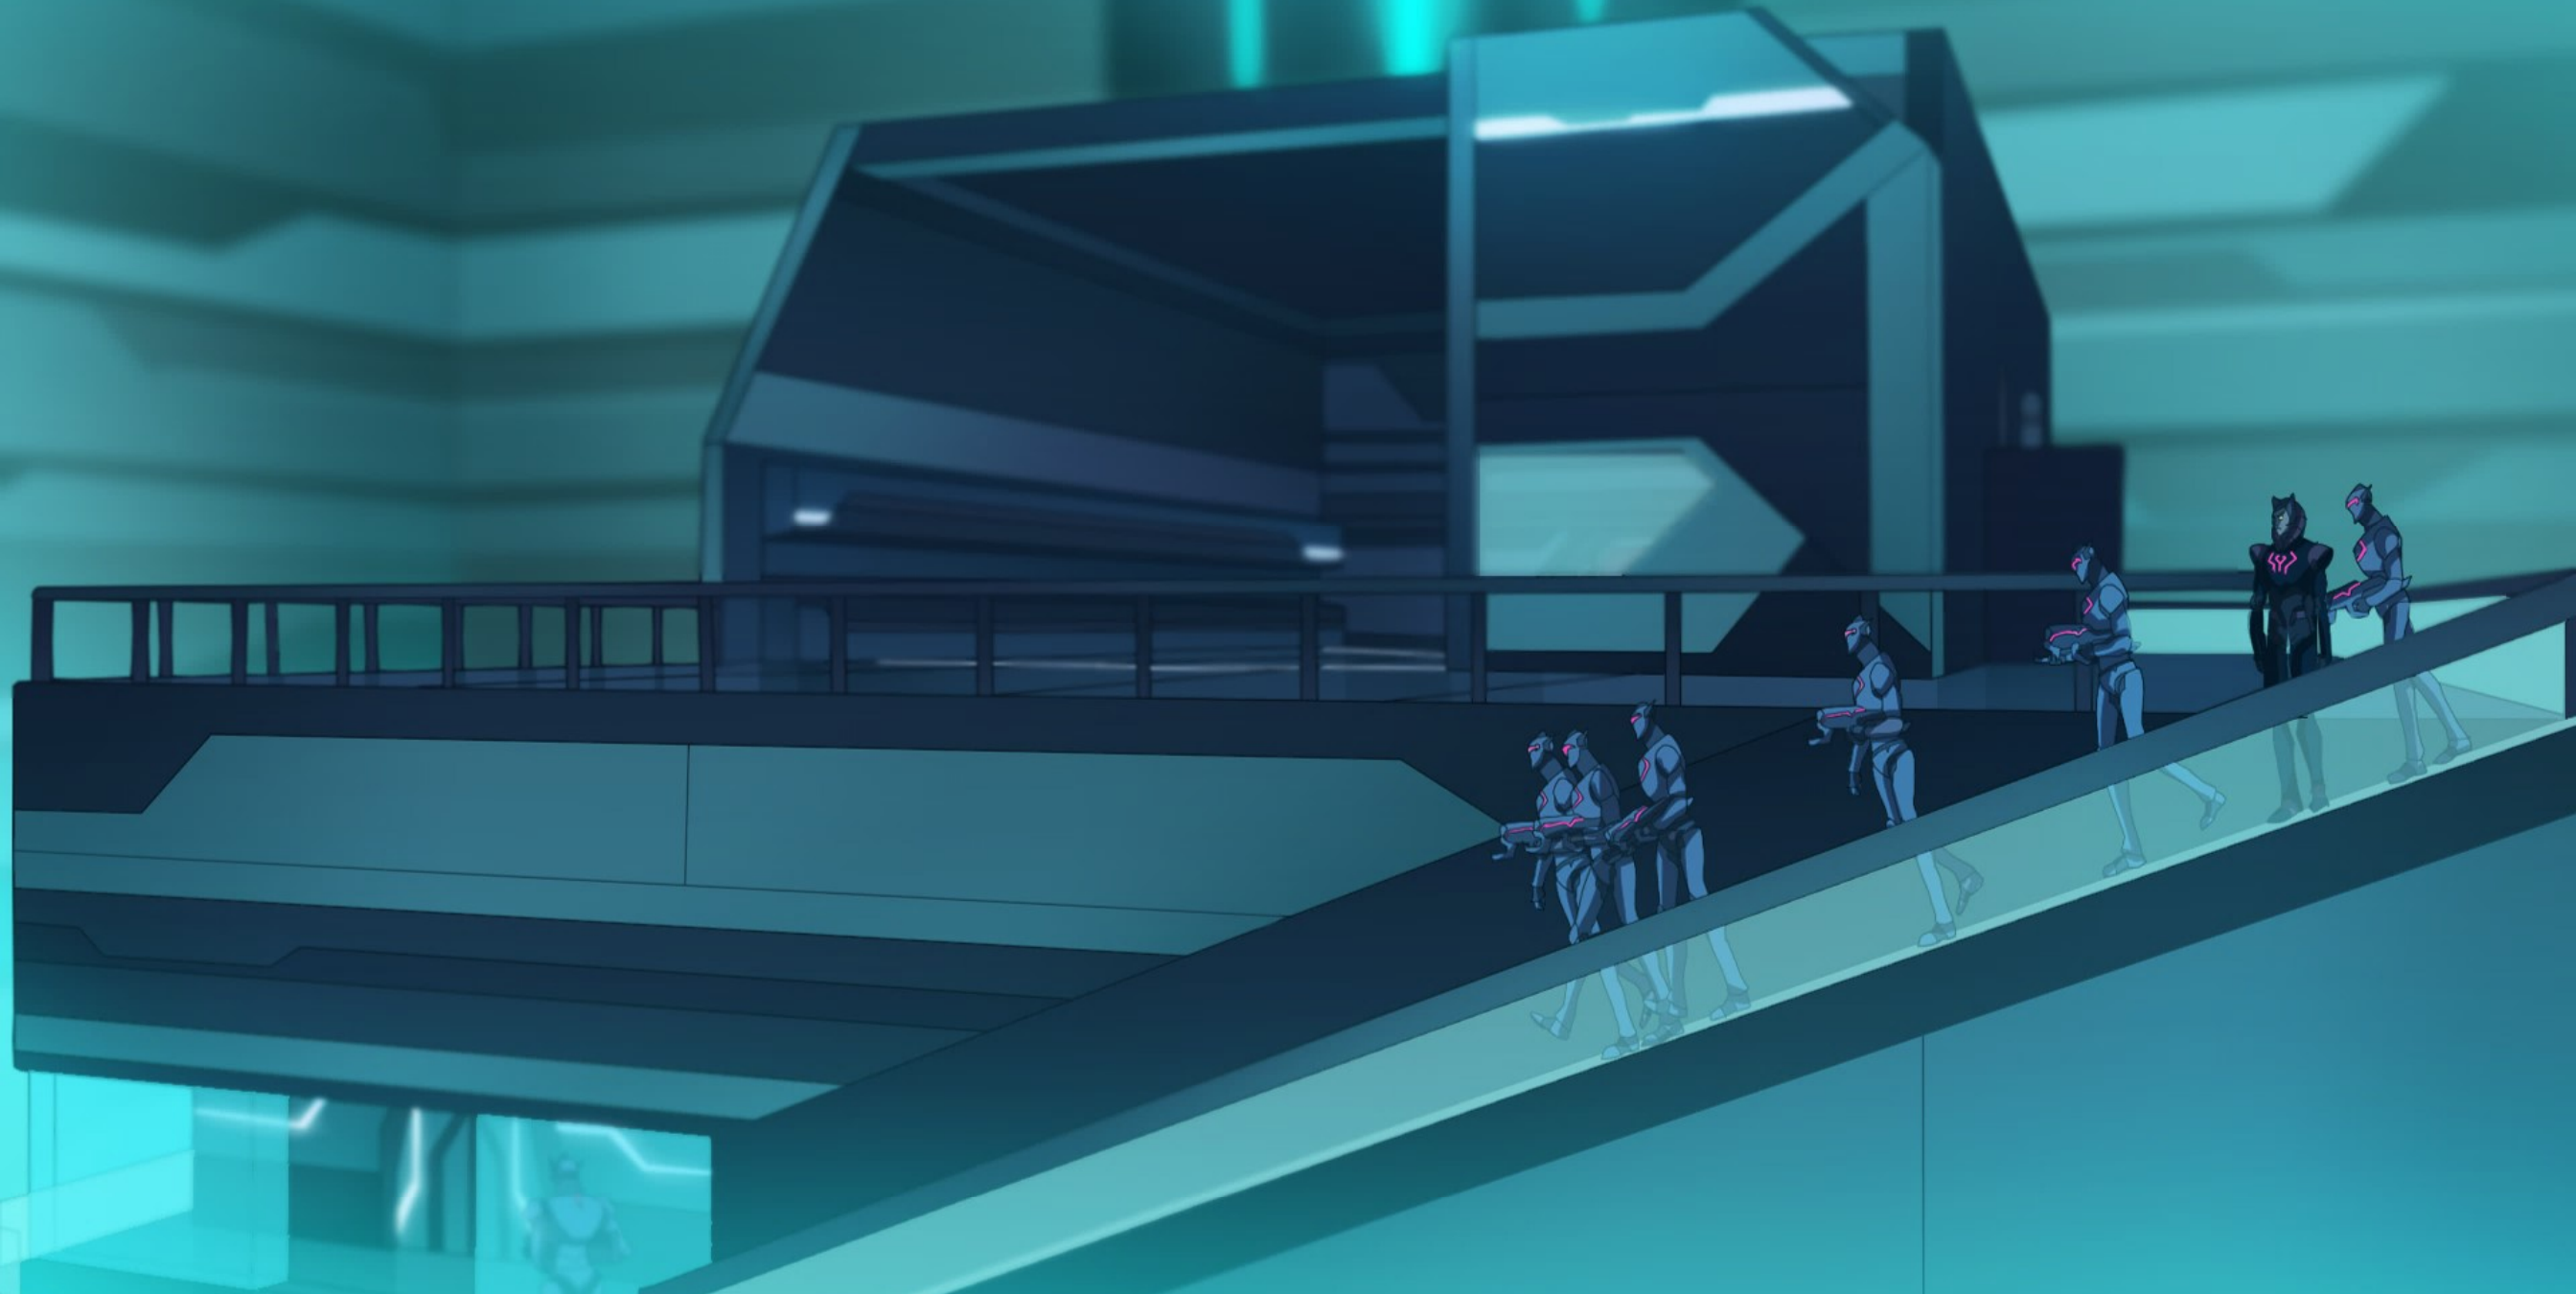

[Chuckles]

Let's find out, shall we?

[Distant footsteps]

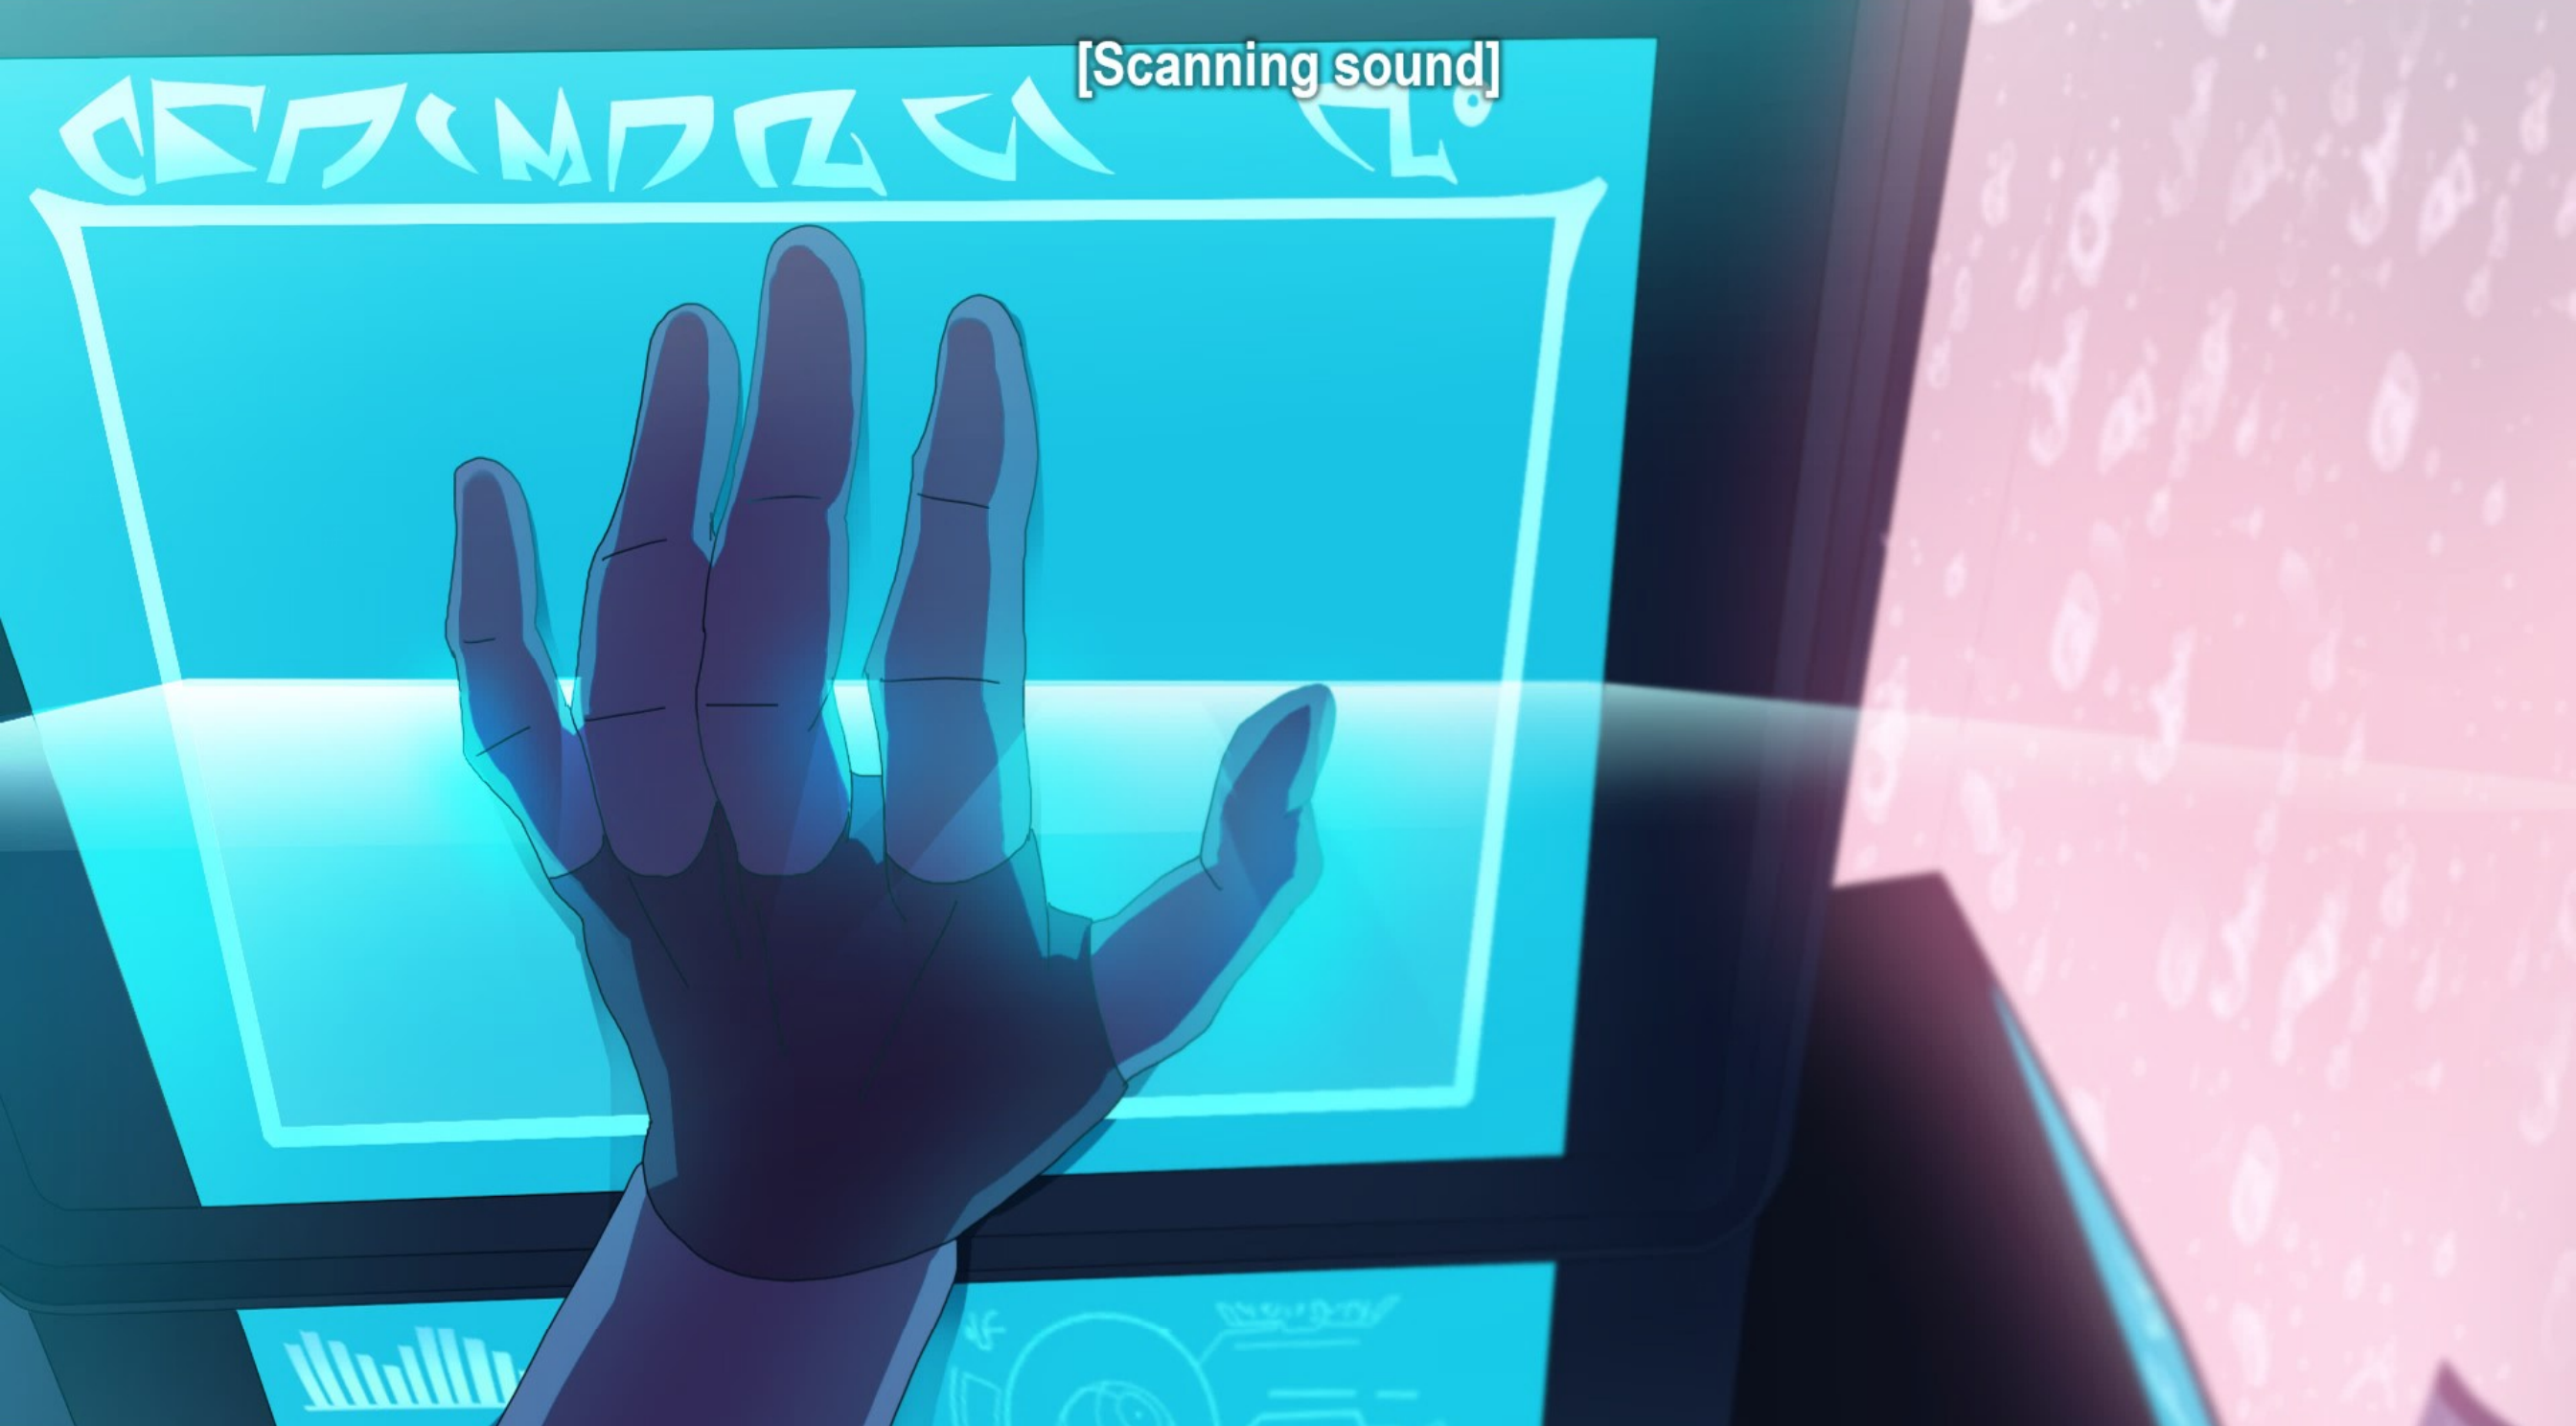

[Bubbling noises]

[Bubbling noises]

[Scanning sound]

[Liquid rapidly draining]

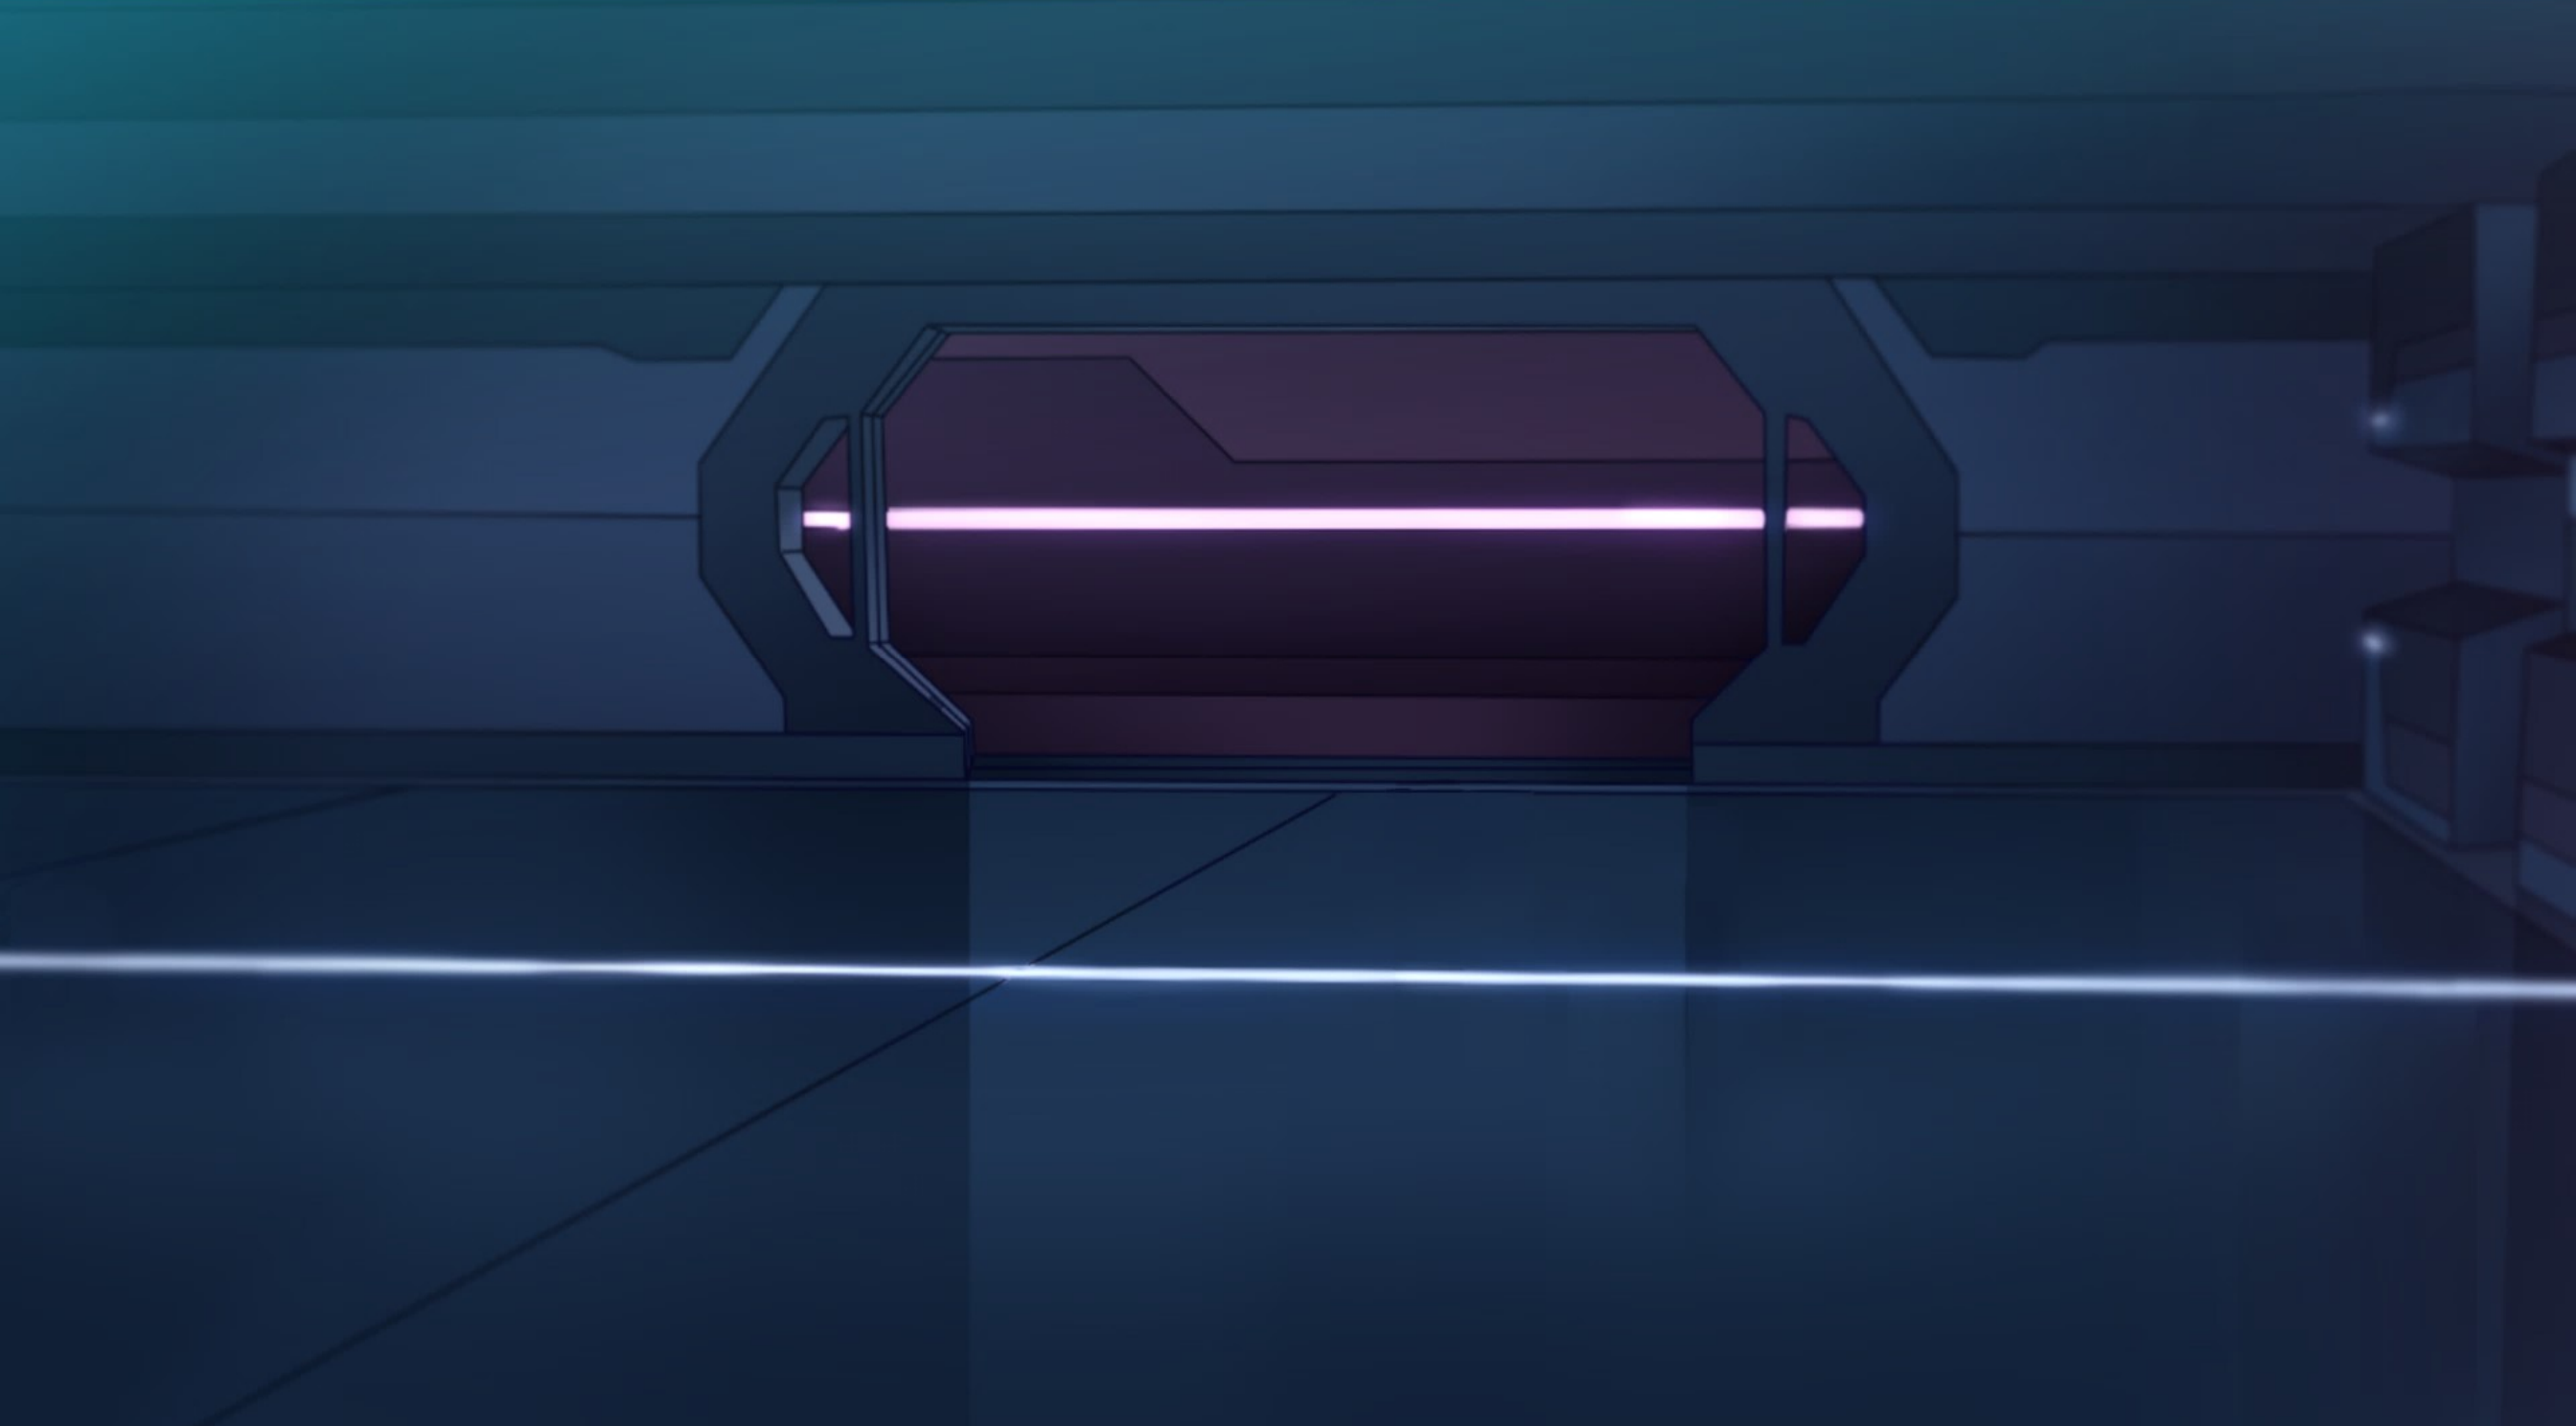

Well? Come now, we don't have all quintant.

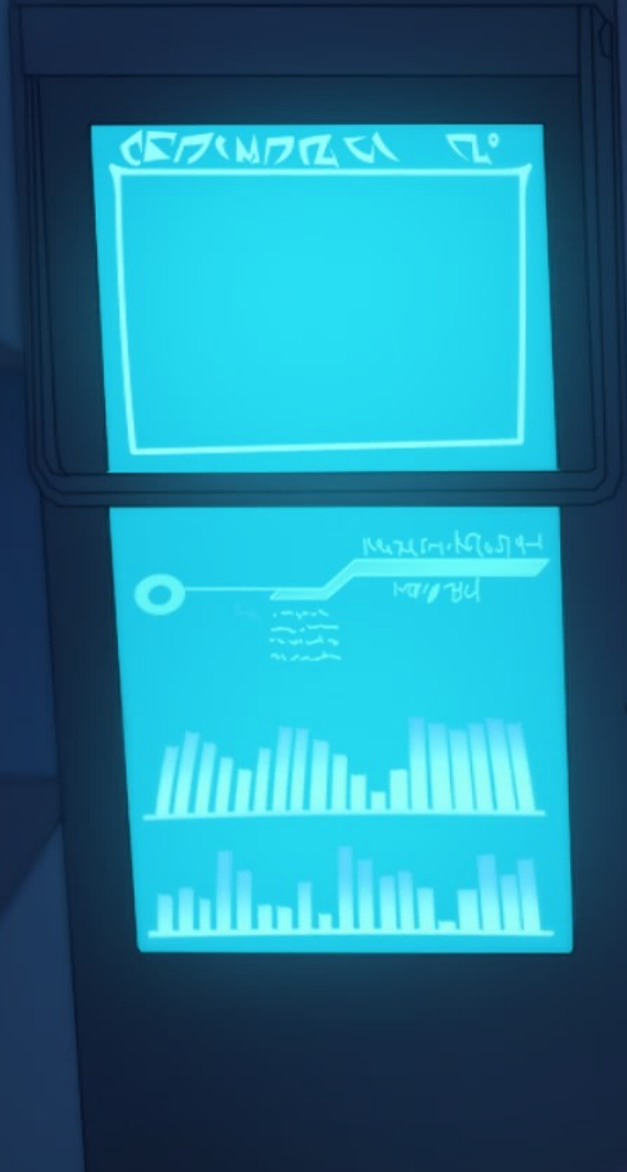

[Lance being shoved] Argh!

[Lieutenant En] Let's start with the legs.

[Lieutenant En] In you go, now.

[whimpering]

[Jet boosters being activated]

[Jet boosters being activated]

What?!

[Lieutenant En] No!

[Metallic thud]

[Jet boosters being activated]

[Metal clanking] [sentry yells]

[Lance grunting on impact]

[growling]

[Blade activating]

[En yelling]

[Lance shrieking very loudly]

[Lance shrieking very loudly]

[Lance and En grunting]

[yelling]

Ugh!

[En] [growling] You..!

I'm going to tear you to pieces and present your flayed corpse to the emperor *myself!*

**[HIGH PITCHED SCREAM]**

[En screaming]
