Beginning in February, St. Catherine of Siena be collecting food donations to help restock the shelves of the New Hope Reed Market with items they can use. This on-site market allows the residents to "shop" for items, at no cost to them at a convenience store on the property a couple of times a month.

New Hope Housing empowers people to stabilize and advance their lives, creating a path to positive generational impact and offers affordable housing with other support services on site.

Donated items <u>from the list</u> are accepted the first weekend of each month and can be dropped off in carts at the back of the church. Our Men's Group volunteers will deliver the donated items the Monday morning following the collection that weekend.

We are unable to accept open items, expired items or items not listed.

Reed Market only stocks the basic house/food items that are listed.

Thank you for your support assisting others in our community with basic needs.
