

I John Project – Getting Started

If you have decided to participate in the project whether as a church, family or an individual, we would like for this guide to help you get started.

1. Purpose to stay with the project through the 52 weeks of memorization.
2. Promote the project with others and exhort them to stay with it with advance instructions and a plan to prepare for the first Sunday.
3. Download the instruction guide and review that document (available at www.andsomeevangelists.com).
4. Procure printable business cards if you will be printing the verses.
5. Download the first series of Flash cards and print them out or have an online printing company print the cards in bulk.
6. Prepare a plan to assist a church, family or individual to be able to accomplish the project.
7. Using the church bulletin, family Bible time, text reminders, or other ways of communication, make the weekly verses available publicly to minimize confusion.
8. Pray and see what the Lord can do.
