Pavilion

The world is watching.
Let's give them something
to talk about.

May 13–22, 2023

Open to the Sky

Design Pavilion is New York's
Premier Public Design Exhibition

- Driving business
- Creating Community
- Addressing social topics
- Sharing hope and delight

The sixth annual Design Pavilion celebrates design, innovation and collaboration at the center of the world, with original installations at landmark destinations around New York City.

Together, we share
courageous vision and
unbounded possibilities
with millions of visitors.

An Exhibition for These Times

Design Pavilion provides a platform for leading international designers, architects and artists to create and build innovative structures of inspiration, shared in-person and virtually.

A show of sustainable structures in outdoor venues, placed at landmark locations and neighborhoods, offering a variety of communities the opportunity to engage.

→Expanding visibility with new locations.

Open to Everyone

Design Pavilion structures are gathering places for the public, the design industry and design enthusiasts, where they can enjoy cultural programming and aesthetic experiences.

Design Pavilion, partnered with **NYCxDESIGN**, hosts educational and experiential activities for children and students, and engages the public in design thinking and creative projects, demonstrating the important role design plays in shaping our future.

Explore the ultimate experience of Art Meets Wellbeing

Join the launch of Design Pavilion Web3 and bring your wildest dreams!

Without the reality of gravity, budgets and building codes, we're limited only by the imagination. Bold, brilliant Design Pavilions are perfect for metaverse environments with an NFT market of inventions and ingenious inspiration.

Explore the ultimate experience of Art Meets Wellbeing (cont.)

Utilizing two beautiful real-life built Design Pavilion installations as the portals and backdrop designs, we start our wellness journey.

- A Manhattan portal to the Metaverse
- Combining art, exponential tech including XR, Web3, and blockchain, with neuroscience and ancestral storytelling to create content and context
- Unique and original design capsules in various locations in the New York City, connected with the world via the blockchain
- High-end perception/synesthesia technologies for a unique local experience
- High-end immersive participatory multiplayer experiences gated via holographic, IRL and online experiences with a focus on wellbeing
- Bio-metrically scanned emotions creating pixelated works of art, turning them into personal NFT tokens, to capture the moment and experience
- AR art forms and holograms with every activation
- Performance art, educational programs, meditative and healing sessions, and launch event opportunities

Let's make it WELL, together. Contact us for the details.

Open to Ideas

Design Talks NOW is a hybrid series of conversations and presentations in front of a live audience and shared online and on demand with tens of thousands of viewers worldwide.

Focusing on current concerns and the perspectives of design industry thought leaders, Design Talks NOW features architecture, design, art and civic vision and explores regenerative design, future cities, advanced technologies and commitment to wellness.

Design Talks NOW is archived on-demand at design-pavilion.com and on YouTube.
