

## Approved Exterior House Painting Color Schemes

### EXTERIOR HOUSE PAINTING

All exterior house painting requires submitting an Indian Wells Golf Villas Homeowners Association, Inc. "Alteration & Modification Request" form. This form may be accessed from our website, [indianwellshoa.net](http://indianwellshoa.net) and must state the color scheme number, house paint number from the approved scheme, trim paint number from the approved scheme and if a 2nd trim paint is selected, trim paint 2 number from the approved scheme you have selected. (See color schemes 1 - 9 below).

The Color Schemes for Indian Wells use HomeScape paint by Sherwin Williams.

**Note 1: The first four colors may be used to choose as both your house color and trim/garage color.** The last four colors may be considered as trim color(s) only if you prefer a darker trim/garage color. **The last four colors may not be used as the house color.** No more than 2 colors may be used for trim accents. A total of three colors. **Choosing from the approved color schemes allows the ARB committee to approve immediately without the need to present at a public meeting (Board Meeting).**

**Note 2:** If you decide to use a different brand of paint than Sherwin Williams, OR choose Sherwin Williams colors NOT within the approved paint schemes, card samples of each color must be provided to the ARB committee for review and be presented at a public meeting (Board Meeting).

**Note 3:** You cannot mix schemes.

**Note 4: Gutters** must be a color from the paint scheme and your **roof** (barrel style only) color should align with the paint schemes. Any variation will require a public board meeting decision.
