

# Indian Wells Golf Villas

## House Painting

## Scheme 5

Sherwin Williams HomeScapes Paint Color Wheel #262:

Colors: House and Trim Color; **SW7104\***, **SW7105**, **SW7106**, **SW7557** Alternative Darker Trim Colors; **SW7556**, **SW7559**, **SW6371**, **SW7573**. \*SW7104 is not included in color wheel #262. You will have to ask the store employee to get you the card sample if you select SW7104.

Step 1: The first 4 colors may be used to choose as both your house color and trim/garage color. The last 4 colors may be considered for trim color(s) if you prefer a darker trim/garage color. The last 4 colors may NOT be used as the house color. No more than 2 colors may be used for trim accents, a total of 3 colors for the house and trim/garage.

Step 2: If you decide to use a different brand of paint than Sherwin Williams or they do not have the approved paint schemes then **card samples of each color must be attached to your ARC request and provided to the ARC committee for review**. The ARC request must then go to the Board of Directors open and noticed meeting for review. Keep in mind not selecting from the preapproved color schemes will most likely delay your approval/rejection thus delaying your painting schedule.

Note: **You cannot mix color schemes without approval** from the ARC committee. Most schemes are not mix and match.

Step 3: Gutters must be the color from the paint scheme and your roof of barrel style only tiles should align with the paint scheme selected on your ARC request. Any variation requires a public board meeting decision and will most likely delay your request.

### House & Trim Colors
