

Product Brief

Drop Point Hunting Knife

Item #5718

Strong, sharp, dependable.

Built to perform.

A versatile hunting knife.

Why the Drop Point Hunting Knife?

- This versatile hunting knife with its drop point design and sharp blade is available in Double-D®- or straight-edge. Wide belly is perfect for slicing. Includes a leather sheath designed to safely store and carry your knife and strap it to your belt for convenience.
- Moose, deer, wild boar, turkey - it doesn't matter. This American-made knife can tackle them all. The high-carbon, stainless steel blade will stay sharp and resist rust. The comfortable soft-grip handle is designed to give you a sure grip for maximum control. Simply put, if you like hunting, you will love this knife.
- Performance is what comes to mind with this dependable hunting knife. American-made and backed by The Forever Guarantee, the high-carbon, stainless steel blade will stay sharp and resist rust through all of the rigors of field dressing and skinning. The comfortable soft-grip handle is designed to give you a sure grip for maximum control. Make this knife your own by choosing a Double-D®- or straight-edge, as well as handle color in Orange or Black.

Use to:

- Field dress and skin small to big game.
- Perform general chores at camp.

**American-Made Knives.
Guaranteed Forever.**

“ I received this knife as a gift from my in-laws and was somewhat skeptical as to how it would perform on big game. Couldn't be happier. I've cleaned 3 deer now and it's still going. An added benefit is the knife's ability to cut through the bone. ”

Design, Material & Craftsmanship

Drop Point Hunting Knife

#5718

Blade length: 4-1/2"

Overall length: 9-1/4"

Weight: 5 oz.

Special Manufacturing Steps

Stamped Blade

Advancements in steel technology allow for a more uniform grain structure in high-quality steel that can be stamped. Superior steel along with proper heat treating results in a knife that's durable, flexible and able to hold a sharp edge.

Heat Treat Process

A unique three-step process of extreme heat, deep freezing and tempering that makes the blade hard yet flexible, stain resistant and able to hold a sharp edge.

High-Speed Buffing

The edge is buffed in this extra step, taking it from sharp to razor sharp.

For additional Cutco Products, visit www.cutco.com

Drop point

A slow, convex-curved drop designed for control and added strength.

Exclusive Double-D® edge

A series of three recessed cutting edges make a smooth, clean cut with less pressure. Points protect blade to retain sharpness.

Optional: Straight edge

30-degree angle and ultra-sharp edge for smooth cutting.

High-carbon, stainless steel

Holds a sharp edge while maintaining its beauty. Resists rust and corrosion.

Ergonomically designed handle

Secure fit - large or small, left or right hands. Comfortable, sure-grip handle helps reduce fatigue and provides a sure grip for safety and control.

Full tang

Provides strength and balance with the blade extending the full length of the handle.

Handle material

Thermoplastic elastomer reinforced with polypropylene.

Handle color available in Black or Orange.

Blade can be engraved.

Includes leather sheath.

“ I have had many other knives both straight and serrated but this one takes the cake. While everyone else is sharpening theirs this one keeps on cutting. This would be the one knife I wouldn't give up. Have cleaned 6 deer, 2 bear, and a couple of pigs and still feels brand new. Keep up the good work Cutco. ”
