

# Installation Guide – Tiled Roof

## STEP 1 - CLEAN GUTTERS, VALLEYS & DOWNPIPES

It is important that all leaves and debris are removed from the gutters. and valleys and downpipes. Flush out downpipes and wash out gutters leaving a clear and clean surface.

## STEP 2 - ROLL OUT THE MESH ALONG THE GUTTER

Roll out the Gutter Mesh along the length of the Gutter. Line it up to the edge of the Gutter lip ready for the Gutter fixing trim to be applied over the top.

## STEP 3 - ATTACH MESH TO GUTTER USING FIXING TRIMS

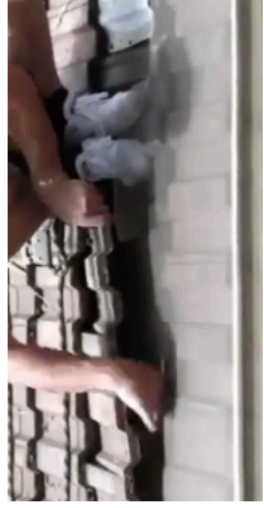

Line up the Gutter fixing trim with the edge of the Gutter ensuring that the mesh is sitting straight and attach trim with screws. Add screws in pre drilled holes.

## STEP 4 - MAKE CUTS IN MESH

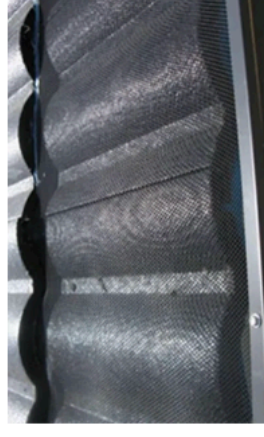

Make a cut in line with low groove of the tile approx 2 inches deep. Use appropriate cutting tool that is sharp.

## STEP 5 - TUCK MESH UNDER 2ND ROW OF TILES

Carefully lift up second row of tiles and tuck the mesh under ensuring it is sitting tight and straight. The cuts will help the mesh mould to the roof shape. Place tiles back down and ensure secure.

## STEP 6 - FINISHED PRODUCT

Well done!

Enjoy leaf free gutters for years to come.
