Complete Healthcare Solutions, Inc
UnifiMD® version 2.0

To Drummond Group:

UnifiMD® EMR software system pricing is based on modules that are offered to our customer base in a designed package. Complete HealthCare Solutions, Inc. agrees that any and all adjustments made to the pricing structure are listed below for the UnifiMD® version 2.0.

Complete HealthCare Solutions, Inc. understands and agrees that ONC HIT Certification program final Rule statement gives Drummond Group LLC, an ONC-ACB, the sole responsibility for ensuring compliance and determining appropriate consequences if EHR technology developers fail to disclose accurate price transparency information.

Complete HealthCare Solutions, Inc. understands and agrees to provide Drummond Group LLC copies of or be given access to any and all websites, marketing materials, communication statements, and other assertions made by Complete HealthCare Solutions, Inc. regarding the ONC certification status of UnifiMD® in a reasonable time to ensure the price transparency information is being accurately disclosed.

UnifiMD® software cost includes an up-front cost for implementation, licensing and training as well as an on-going monthly subscription cost to maintain use of the software. There are multiple packages available depending on the specific needs of the providers. Clients can install the program locally in their office or chose to have their database hosted on the Complete HealthCare Solutions, Inc. cloud servers. A discovery of the practice's needs and review of the current practice management setup will result in Complete HealthCare Solutions, Inc.'s recommendation of the best option. The certified product may require additional database fees, dependent on the practice's current environment, and evaluation of needs.

Complete HealthCare Solutions, Inc. hosted environment is a practice's full package offering with a contracted term of use. Monthly fees include not only software license, software support, Dr. First E-prescribing (when applicable), software upgrades and services packs, document management support, and portal access, but also access to database from any internet connected PC, and offsite backup.
