BOONEVILLE:
Heartland Co-Op
106 Main Street

I agree to the following conditions, and I understand that Dallas County has no obligation and will assume no responsibility for the work or liability resulting from such:

1. **THE DEADLINE TO SIGNUP IS FRIDAY, APRIL 23RD** There will be a $20.00 late fee for any application received after the deadline. **Flags must be in place by April 23rd and kept visible until October 1st.** This will inform the blade operator of the location of the treated surface. Failure to keep the flags visible may result in the treated area being bladed. In the event of rain, the county reserves the right to lightly blade some dust suppression areas for the safety of the public. Typically this does not damage your application and will promote better dust suppression for the end user.
2. **Please measure your spot as accurately as possible. If your flags are not in place when the application is to be made it will be centered on your residence. If you need assistance measuring your spot please call our office.**
3. If, in the county's opinion, sufficient surface deterioration has developed as to become a liability to the traveling public or if at any time the road condition becomes such that the county determines maintenance is required, the county will perform necessary maintenance. The county at no time will be responsible for the cost of re-treatment. The county will blade all spots in preparation for the second application regardless of when the first application was completed.
4. Additionally, I understand that after October 1st of the issued year, Dallas County reserves the right to scarify the treated portions and maintain them as rock roads.
5. This agreement is limited to **two treatments** only.

LIQUIDOW™ Calcium Chloride is a very effective dust suppression product; however Jerico Services, Inc. does not guarantee the performance of the product due to factors such as weather, surface preparation or heavy traffic patterns.
