 **Emmanuel Cancer Foundation**

October 12, 2022 - Emanuel Cancer Center

“ECF was there for us on our journey, delivering free groceries monthly, presents to both our boys on holidays, and financial assistance when needed. What really set ECF apart was the amazing social worker that regularly visited our house to provide emotional support and guidance. She was simply a godsend and helped us through our most difficult times.”

## ABOUT ECF

Since 1983, the **EMMANUEL CANCER FOUNDATION (ECF)** has been a beacon of light for New Jersey families facing pediatric cancer. We provide comfort and relief through free in-home counseling, food and other material assistance, and emergency funds to help with urgent expenses. ECF supports families for as long as they need us, whether one month or ten years.

**ARKY** and his family are having a difficult time right now. The energetic toddler has had three brain surgeries and multiple chemo treatments. The family is frightened and stressed.

“I just want you to know that when my daughter was diagnosed, we had no idea what we were doing. ECF came into our lives and you are our guardian angel. We could never have gotten to where we are without you.”

“Thank you for all the love and support you have given us all. From social work visits to our home to the monthly grocery delivery to the special gifts and thoughtful messages, and for making sure my children and I maintained a roof over our heads while our daughter was going through chemotherapy.”

## FROM FAMILIES

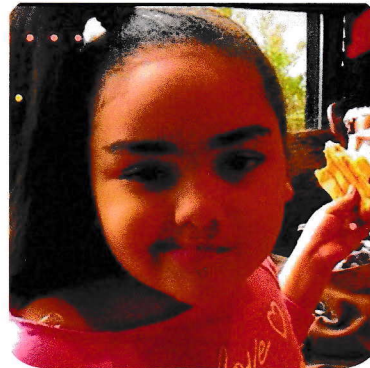

**MAIRA** recently had a bone marrow transplant to treat her cancer. She can't go to school because of her weakened immune system. Her parents are struggling financially because of all the care Maira needs.

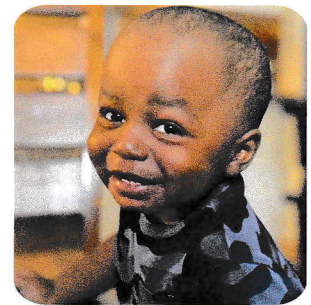

“From the moment I reached out, ECF has been by my side. They have helped many times with things like rent, utility bills, supplying gas cards and store cards to make my life easier. They never say I'm asking for too much but instead always say they will help if they are able.”

**RILEY** has faced many painful procedures and complications from her cancer treatment. Her parents are overwhelmed and struggle under mounting bills.

Nine year old **INAYAH** has a brain tumor, but she doesn't let that stop her from enjoying time with her family. But there have been many struggles, physically, financially, and emotionally.

**CAIRO** was diagnosed with cancer at 4 months old, right in the middle of the pandemic. He endured 13 rounds of chemo, his mom by his side. Despite losing his hair and facing countless painful needle sticks, Cairo never cried, dancing and singing in the hospital.

“What your organization has done to lift our spirits leaves me speechless... being surrounded by people like yourselves gives us the ability to accept any outcome.”

**Your kindness makes a difference for these kids!**
