Dear President Wiebers and Members of the Woman's Club of Cranbury –

Congratulations on celebrating 100 years of Federated Service to your community! That is quite a milestone that not all clubs have the honor of celebrating. That truly says something about your club and the 95 members in your club.

While doing some research on your club, I found that “early departments in your club offered sewing, gourmet cooking, china painting, flower arranging, furniture refinishing, crewel” and more. Yes, these were activities that early homemakers found useful, but my guess is that even those early club members found spending time with other women who shared their common interests, is truly what kept them interested and involved.

As you mature in life, the number of hours you dedicate to your children, your husband, your job, and your household start to recalibrate. You begin to realize that through all the mad-capped frenzy of middle age– holding down the fort and keeping your personal and professional affairs running smoothly– you had one constant with you all along to ground you. That constant is this women's club, *your club: Woman's Club of Cranbury*.

The hidden benefit of club membership is the strong bonds you build with your fellow members. When you've been in the club as long as I have, you realize your club friends have always been there for you, supporting you throughout your life. Through it all, you need women in your life who can lift you up and keep you grounded, give you confidence, and renew your dreams. That's exactly what your woman's club does for its members.

That's a priceless upside of club membership. Developing strong and healthy female friendships benefits all women. It ultimately pays dividends for your families and your community. It's the priceless, hidden gift of

membership that just keeps giving. While we share the same values of helping others, the people who have been helped most of all... are us.

After the speakers are done talking, ask the person next to you why they stay in Federation and I bet the majority will tell you it's the women they have met, the bonds they have created. I can tell you the women I have met have genuinely been the greatest women in the world.

So keep on advocating for your community in the company of women who quite literally care about you and have your back. Let's look forward to the next 100 years of lifetime friendship and community service!

In federation friendship,
