WELCOME TO NIGHT & DAY FURNITURE

At Night & Day Furniture, we believe that smartly designed furniture is an extremely valuable asset. Our product assortment essentially revolves around sleep solutions specializing in the following categories: adults bedroom and accessories, murphy Cabinet beds, convertible sleepers, youth bedroom and Futon frames.

The Night & Day Furniture product line is manufactured in our own factories located in Malaysia and Indonesia. We use "Para" wood, also known as "Rubberwood", which are plantation grown hardwoods, harvested and managed through systematic planting and replanting programs.

We provide information and support through videos, point of purchase (POP), online product dimension specifications and clear line drawing product assembly instructions to enhance both the retailer and the customer experience.

The core principles at Night & Day Furniture are to strive to do business based on the following core principles QUALITY...VALUE...AVAILABILITY and SERVICE. Our QC teams are based at the factories in Malaysia and Indonesia allowing them to inspect product throughout the production process.

Our mission: "The perfect sleeping solution for small spaces in today's home designs"

Small Enough to Know You... Large Enough to Serve you!

SPICES COLLECTION

- *Certified plantation grown hardwood construction*
- *Choose your height with P series or K series options*
- *Choose the complete bed or headboard with adapter kit option*
- *5 finish choices*

Headboard Adapter Kit

This adapter allows our headboards to be used with a standard "Hollywood" metal frame. It works with most "P-series" and "Dual System" headboards. (Does not work with "K-Series" headboards). The adapter comes in all 5 bedroom finishes and uses hardware supplied with the headboard. Slotted holes match most metal frames and may be drilled for exceptions.
