Power Cool Sleep System 11.5"

Mlily New Sleep System—Power Cool is one of our latest innovations in adjustable beds. High tech adjustable base doubles breathability and cooling sensation to ensure a whole night of sound sleep.

Cooling Fabric

Instantly Cool When You Lie Down

The moment you touch it, you will experience a completely smooth, cooling sensation due to its excellent air-flow and breathability features.

Mlily Bamboo Charcoal Memory Foam

A Drier and More Breathable Sleeping Environment

Mlily Bamboo Charcoal Memory Foam is crafted to adapt to your body's micro pressure points, regulating moisture, odor and temperature all while you sleep. It ensures your mattress stays **dry and breathable** even on hot, humid nights.

Mlily Smart Foam

Super Breathability That Keeps You Cool All Night

Mlily's specially engineered Smart Foam is **breathable**, flexible, and actively adapts to your body's natural contours. It provides all of the benefits of latex while being allergy-free. Smart Foam ensures a comfortable, more restful night's sleep.

Mlily Unique Pocket Spring Design

The Quiet Quality Sleep Experience of Special Pocket Springs

Corner to Corner Support for Less Tossing and Turning

Mlily **Pocket Springs** are specially crafted with a **unique spindle shape**, allowing the mattress to be roll **compressed** and delivered right to your door. High durability and stability provide you with an unparalleled level of support. Corner to corner support ensures that you get the regenerative sleep you need to wake up feeling your best with **less tossing and turning**.

Mlily patented the fans in the adjustable base as "Mlily New Sleep System—Power COOL".

Mlily New Sleep System—Power Cool Base

Specially Designed for Cool Night's Sleep

Mlily New Sleep System is one of our latest innovations for adjustable beds. It has four fans to ensure a cooler, more comfortable sleep surface even on the hottest nights. The adjustable base better supports you by providing perfect positions when you are reading or watching TV. It turns your bed into a recliner with ease, enhancing comfort and taking away back, neck, and shoulder pain.

WellFlex 12"

Milily Wellflex Series is a foam mattress collection with specially designed Ice cool fabric to ensure instantly cooling sensation upon touch. Milily M-made memory foam provides breathability, increased comfort and extended coolness.

Ice Cool Fabric

Instantly Cool When You Lie Down

The moment you touch it, you will experience a completely smooth, cooling sensation due to its excellent air-flow and breathability features.

AirCell Technology Cool Memory Foam

A Cooler and More Comfortable Sleep

Our sleep scientists have engineered a special AirCell Technology that is eco-friendly, helping to regulate temperature and ensure a cooler and more comfortable sleep. No matter the temperature in your room, the molecules of our AirCell design help to ensure that the temperature of your sleep surface remains refreshingly cool and comfortable.

Milily Smart Foam

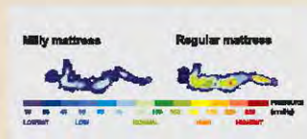

Super Breathability That Keeps You Cool All Night

Milily's specially engineered Smart Foam is breathable, flexible, and actively adapts to your body's natural contours. It provides all of the benefits of latex while being allergy-free. Smart Foam ensures a comfortable, more restful night's sleep.

Milily Special Made Memory Foam

Pressure Free Sleep

Non-memory foam mattresses do not always provide the best level of comfort and support. When you sleep on a Milily memory foam mattress, our high grade foam adapts to your body's millions of micro pressure points, aligning your spine and conforming to your body's natural contours to relieve stress and tension.

Milily Base Foam

High Density Memory Foam

Milily M-made high density memory foam is unparalleled in its super breathability as well as its supreme support compared to the common memory foam. The high density will better support your neck, shoulder and waist and help to relax your body more thoroughly.

Harmony Chill 13"

Mlily M-PCM technology helps to better absorb, convert and release heat, turning your mattress into an exclusive air conditioner. With Harmony Chill mattress, you will enjoy a whole night of cool and comfortable sleep.

Cooling Fabric

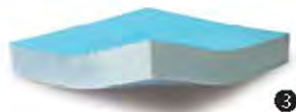

Instantly Cool When You Lie Down

The moment you touch it, you will experience a completely smooth, **cooling sensation** due to its excellent air-flow and breathability features.

AirCell Technology Cool Memory Foam

A Cooler and More Comfortable Sleep

Our sleep scientists have engineered a special AirCell Technology that is eco-friendly, helping to regulate temperature and ensure a **cooler and more comfortable** sleep. No matter the temperature in your room, the molecules of our AirCell design help to ensure that the temperature of your sleep surface remains refreshingly cool and comfortable.

Mlily Phase Change Material

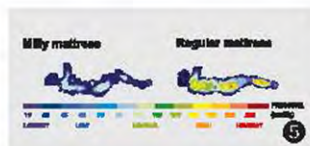

Keeps You Cool All Night

Mlily **Phase Change Material** (M-PCM) regulates your body temperature by absorbing, storing and releasing heat at the right times to ensure your body maintains a supreme level of **coolness** for comfortable sleep. It allows heat and humidity normally trapped under the covers to be cycled out of the mattress.

Mlily Bamboo Charcoal Memory Foam

A Drier and More Breathable Sleeping Environment

Mlily **Bamboo Charcoal** memory foam is crafted to adapt to your body's micro pressure points, regulating moisture, odor and temperature all while you sleep. It ensures your mattress stays **dry and breathable** even on hot, humid nights.

Mlily Special Made Memory Foam

Pressure Free Sleep

Non-memory foam mattresses do not always provide the best level of comfort and support. When you sleep on a Mlily memory foam mattress, our high grade foam adapts to your body's millions of micro pressure points, **aligning** your spine and **conforming** to your body's natural contours to **relieve** stress and tension.

The Dream 13''

As the global partner of Manchester United, Milly mattresses incorporates Manchester United's signature elements and sportsmanship into the mattress, allowing customers to experience the same regenerative sleep as the Manchester United players.

Manchester United Designed Cover

To Wake up Refreshed and Energized

Milly's special cover of The Dream incorporates the colors of Manchester United into the design. A double jacquard weave is used to provide advanced breathability and comfort.

Mini Springs

Better Support for a Better Sleep

Milly has specially designed mini springs in the upper layers of the mattress so they can individually adjust as you sleep. They align to your body's own natural contours and give you a more breathable sleep experience.

AirCell Technology Cool Memory Foam

A Cooler and More Comfortable Sleep

Our sleep scientists have engineered a special AirCell Technology that is eco-friendly, helping to regulate temperature and ensure a cooler and more comfortable sleep. The Mlily Mission:

Dedicated to improving people's deep sleep.

Why Mlily Mattress ?

Mlily AirCell Memory Foam

This patented foam was developed in-house to provide a superior feel and breathability compared to other foams used in the industry. The foam is not temperature sensitive, and will remain supple even in cooler temperatures. It also uses more environmentally friendly materials, which eliminate odors and gases that may be present in most memory foams.

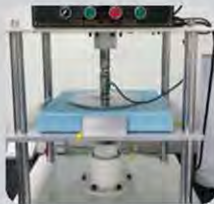

Mlily Smart Foam

In our quest for continuous innovation, this is another patented foam that was developed in-house to simulate the feel of latex while increasing breathability. Smart Foam is a high density memory foam that provides superior support and pressure relief. This is our most breathable foam, and it is safe to use for people with latex allergies.

Mlily mattress has acquired all necessary certificates including Certipur and Oeko-Tex certification. We achieved Certipur certification for more than 10 kinds of foams, and we may have the most complete articles in Oeko-Tex certificate.

High Technology Support

80,000 times test

80,000 times test

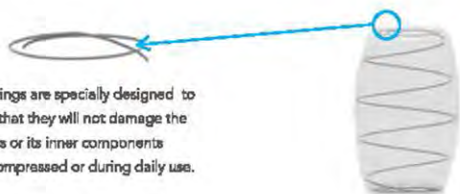

80,000 times spring test

100,000 times mattress test
Test number: QB/T1962.2

Spindle Shaped Spring Design

The spindle spring design eliminates the friction between springs, ensuring a quiet night's sleep, and enhancing the longevity of the mattress.

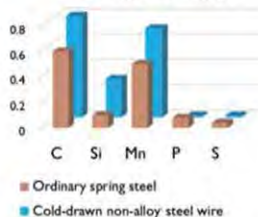

Our springs are specially designed to ensure that they will not damage the mattress or its inner components while compressed or during daily use.

Premium Quality Coil Material

To ensure the highest quality of springs used in our mattresses, we only use select cold drawn non-alloy steel wire. In addition, all of our springs are twice tempered for improved quality and longevity.
