

# **SAY HELLO TO CRYOSKIN.**

**Non-invasive fat loss and  
skin toning technology.**

**CRYOSKIN**

# ***What is Cryoskin?***

---

Cryoskin is a revolutionary machine from Europe which uses heat and cold to destroy fat cells permanently.

The technology is applied using a massage technique which is painless and non invasive.

No suction, no surgery. Just incredible results in 30 minutes.

*“After 10 minutes on  
each leg...all the cellulite  
in the middle and along  
the sides of my thighs  
had vanished!”*

- Ashley Mateo  
Shape Magazine

# Why Use Cryoskin?

---

If you work hard to make the best of yourself and your body, then this is for you. Depending upon what you want to achieve, Cryoskin can be used in 3 modes.

## ***Slim.***

Cryoskin can slim your stomach, legs, back, arms and butt. We take measurements before and after and most people lose at least an inch in their first session. (No really).

## ***Tone.***

Toning is effective for drastically reducing the appearance of cellulite and shaping those tough areas that diet and exercise just can't reach.

## ***Face.***

Cryoskin Face can help to improve your complexion, reducing pore size and the appearance of fine lines and wrinkles. It can even visibly reduce a double chin.

## 5 Star Reviews.

*"I have to admit I was a bit skeptical. However after just one treatment I lost 2 inches. It has stayed off even after 3 days. "*

**- Malai**

*"I started getting compliments from people after the 2nd session. I Started at 37 inches and after my 5th session I was down to 33.5. Couldn't believe it!!"*

**- Kelly**

*"This service is truly beyond my expectations...it nearly eliminated all the fat and uneven areas on my stomach and my stretch marks too. I'm so happy with my change. Now I started treatment on my face too and my coworkers noticed right away...very excited to to see how many years it will take off me!"*

**- Amanda**

*We're rated 5 Stars and "excellent" on Trustpilot. See more reviews on our official Trustpilot page.*

# ***This Works.***

---

With so many treatments claiming to reduce fat and cellulite, we understand why some are skeptical.

In fact, when we first discovered this treatment on a trip to Paris we were skeptical too. But we personally found Cryoskin to be so effective, we decided to bring it to the US.

Don't just take our word for it, see what the press, our customers and clinical trials in Europe are saying.

In a recent study carried out in Paris, the average reduction around the waist was 1.85 inches after 5 sessions. 87.5% of those tested experienced an improvement in shape and 100% showed an improvement in toning, firmness and smoothness.

Cryoskin has been tested for safety and effectiveness in Europe, where it has earned a CE mark.

Thousands of successful treatments have also been carried out in the US.

1.85"

Average loss around the waist.

87.5%

Showed an improvement in shape.

100%

Showed an improvement in skin quality.

# This 20-Minute Treatment Made My Cellulite Disappear

And it basically felt like getting a massage.

LIFTS HER  
FACE”***

- Ericka La Pearl  
Cardi B's Makeup Artist

THE ZOE REPORT

*"it wasn't uncomfortable at all. It certainly wasn't painful...it actually felt kind of nice. I was in and out in about 30 minutes and was able to go about my normal day-to-day activities as usual."*

*"Immediately post-treatment, I lost 1/4 inch on one leg and 1/2 inch on the other. It takes about two weeks for the lymphatic system to flush everything out, after which I had lost another inch on both sides."*

# ***Why Book a Free Consultation?***

---

**1**

## ***Ask Questions***

We understand that every person has their own questions and concerns. It's important to us that each customer has the opportunity to ask questions.

**2**

## ***Set Goals***

By learning about your body and fitness goals, our Cryoskin professionals can help you to choose the right mode and the right treatment areas.

**3**

## ***Get The Best Results***

During your free consultation, you'll receive a few tips which will help you to get the best results from your Cryoskin sessions.

# FAQ.

---

## ***Will it Hurt?***

The treatment is painless, with some clients describing it as rather pleasant. This is due to the massage technique and the session beginning with skin warming descending into the gradual decrease of temperature.

## ***Are There Side Effects?***

There are no side effects for the vast majority. A very small number of clients have reported pins and needles after a session but in every case this has stopped within 48 hours.

## ***How Many Sessions Will I Need?***

This will depend upon how many areas you would like to focus on. In general we recommend a pack of 5 sessions to get you started.

## ***How Much Does it Cost?***

The cost depends upon the retailer and the area of treatment, but our guide price is \$350 per session.

## ***Is it Worth the Money?***

Most of us spend up to \$150 a month on a gym membership. We spend even more on workout classes and healthy food. In context, given Cryoskin's permanent results, we feel strongly that Cryoskin is a worthwhile investment in yourself.

## ***What About Aftercare?***

Cryoskin kills fat cells for good. However as your body creates new fat cells over time, we recommend a topup session once every 6 months.

## ***Is Cryoskin FDA Approved?***

As we are marketing Cryoskin as a beauty device, not a medical device we do not require FDA approval at this time.
