Carefully remove the contents from the package. If any parts are missing do not attempt to use the product until they have been obtained and correctly installed.

CAUTION: Carefully separate the birdfeeder top from the lantern body. The LED stem is enclosed and can be easily damaged when feeder top is removed.

Operating Birdfeeder Solar Light

NOTE: The rechargeable batteries are preinstalled from the factory. Before operating the solar light, the rechargeable batteries inside battery compartment need to be fully charged.

- (SEE FIGURE 1) Carefully lift the birdfeeder top and set the power switch to the "OFF" position. Power switch is located under solar birdfeeder top.
- Place the assembled solar birdfeeder in full sun, away from streetlights or other light sources where it will receive direct sunlight for at least 8 hours per day. Other light sources may fool the sensor and keep the light from coming on, or cause it to turn off automatically.
- The batteries require at least 8-hours of full sunlight to charge. Once the batteries are fully charged, set the power switch to the "ON" position.
- The light will automatically turn on at dusk and off at dawn.

NOTE: The number of hours light is illuminated is directly proportional to the number of hours of sunlight it receives. If the light is placed in a shaded area it will not fully charge and reduce the hours of night time light.

MAINTENANCE INSTRUCTIONS

CAUTION: Carefully separate the birdfeeder top from the lantern body. The LED stem is enclosed and can be easily damaged when feeder top is removed.

Filling Solar Birdfeeder

- (SEE FIGURE 1) Carefully lift the birdfeeder top and fill birdfeeder to recommended fill level.
- Close the birdfeeder top and hang in desired location.

Refilling Birdfeeder

NOTE: Refill birdfeeder when seed level is at or below refill level. Do not allow seed to remain below recommended refill level.

- (SEE FIGURE 1) Carefully lift the birdfeeder top and fill birdfeeder to recommended fill level.
- Close the birdfeeder top and hang in desired location.

Care Instructions

NOTE: Do not use abrasives or chemicals to clean solar panels.

- Remove any dirt and debris from the solar panels. Gently clean solar panels with a soft cloth.
- Gently clean solar birdfeeder body with mild soap and water.

Rechargeable Battery Replacement

- (SEE FIGURE 2) Carefully lift the solar lighted birdfeeder top and open the battery compartment underneath the top.
- Remove the old batteries and replace them with new rechargeable batteries (B) of the same rating.
- Close the cover of the battery compartment and replace the birdfeeder top.
- Reference section "Operating Birdfeeder Solar Light" to restore solar lighted birdfeeder to full operation.
