

The Democrats' War on Our Military

The Democrats' War on Our Military: The United States Military remains the world's most **powerful** and **effective** fighting force. However, Biden and Democrats are determined to implement their "woke" agenda in

our military as well. This is causing real damage, particularly with regards to **RECRUITING**. The type of **YOUNG MEN** (those who join the **INFANTRY** and do the actual ground fighting) that our military **CANNOT EXIST WITHOUT** are not really interested in joining a "woke" LBGTQ+ promoting organization with electric tanks. As unpleasant as it may sound, the job of our military is to **kill people** and **blow s**t up**. It's time our Armed Forces get back to their **core mission**.
