E

All-natural & earth-friendly

P&H Fatwood is not the by-product of commercial logging or clear-cutting. Not a single live tree is used – every stick of our Fatwood is hand-selected and harvested from naturally felled trees (storms, lightning, old age). Dead trees pose a fire hazard, so harvesting fatwood helps preserve forests. [Learn more @ plowandhearth.com/blog](http://plowandhearth.com/blog).

E | Fatwood Fire-Starter Kindling

Loaded with organic resins that ignite instantly, Fatwood is nature's best kindling. It burns with an intense heat and gets fires going quickly – just two 8" sticks and a single match are all it takes. 100% natural.
