

I support school choice and believe in options for parents because every child should have an opportunity for a top notch education not based on your ability to pay for it. I have heard many sides of all that has gone on and it's certainly a matter of perspective. I have viewed situations in a completely different way than others and yet we both experienced it. Perspective makes the difference. MCA is a great school with a wonderful staff and teachers and I believe it will continue to improve year after year.

Joe Baird Jana Greer - The Donalds removed their children from MCA because of David Hull's abuse.

Joe Baird Jana Greer - Please accept my apology. I spoke incorrectly when I stated that the Donalds were not at Community School. I have modified my comment above and removed that part.
