

abuse, does it mean that it is OK for them to abuse others without being held accountable?

Katie Anderson nobody wants to shut the school down! It's about removing the leadership. If ccps pulls the charter agreement that leaves the school open for an appeal process as well but if in fact it closes the school Under the current leadership it is going to keep the school open and give the opportunity for somebody else to run the school and Hillsdale will return. That line of communication is still open and they are willing to guide another leadership for the school.
