Burnt Willow Pencil Edge (With Silver Grey Granite Paving)

Block Paving Collection

Driveways have traditionally been a statement about your home, albeit because it is the first impression you give to the outside world. Over the years, as with most things, styles and trends have changed. Despite the continuous cycles of change regarding tastes in driveway landscaping, there is a legacy towards concrete block paving that has been passed down from generation to generation. Concrete Block Paving is both practical and affordable to all, and can produce the look that you are aiming to achieve, whether it is traditional or contemporary. Castacrete have been manufacturing driveway blocks for many years, and with time comes experience and knowledge. Our ever increasing knowledge has enabled us and continues to enable us to produce a competitive range of blocks, in an assortment of styles, colours and sizes.

Coming soon Winter 2020 Permeable Block Paving Collection

Concrete Block Permeable Paving (CBPP) differs from conventional block paving because it allows water to soak through the driveway, preventing water from amassing and flooding. This is laid on top of a sub-base which allows water to be stored and pass through while still allowing driving and parking.

Rumbled Block Paving

Rumbled Paving Setts have been developed to enable a look that can only be described as authentic and quaint. Its rumbled and worn characteristics, cannot fail to re-create the cobbled streets image of years gone by. Available in six colours and three sizes, developed with affordability in mind. The versatility of the Rumbled Paving Setts is unquestionable. Regardless of whether you are aiming to achieve the charming country cottage look or the classy yet contemporary vision, these blocks are guaranteed to produce an attractive and captivating finish to any landscaped project.
