Speaking Engagements can provide a condensed educational experience. Various topics and interactions available.

OUR STORY

The residential design and real estate industry is saturated with individuals who have a siloed knowledge in their specific profession. Having a full circle perspective of how design, construction and real estate relate will be a benefit for your clients, your contractors and your business. Built4Design was created to facilitate a better understanding of these relationships.

OUR VISION

Our vision for Built4Design is to provide a more manageable approach to residential construction and business education. With curated courses, workshops, and presentations specifically designed for the interior design and real estate community, we hope to equip industry professionals with confidence when engaging with construction projects, advising clients and designing residential spaces.

WHY CHOOSE US?

Consulting, training and construction education curated specifically for residential interior designers and real estate professionals.

OUR BACKGROUND

With almost 20 years in the residential design and construction industry, Elizabeth has developed a diverse understanding of the life cycle of the built-environment, from design concept to project completion. Her graduate degree in real estate and construction management layered with her various industry certifications provides a wealth of knowledge in various aspects of the residential design industry.
