## **Description/Benefits:**

Dry Salt Therapy, also known as Halotherapy, benefits adults and children alike. It is safe and natural with no harmful side effects. Halotherapy is beneficial for overall wellness by removing any toxicity from the respiratory system. For general respiratory hygiene, a once or twice a week visit will enhance lung capacity, boost your immune system, reduce stress, and aid better sleep.

**How does it work?** A machine called a Halogenerator intakes air and is comprised of a salt feeder, and a grinder or blade cutting mechanism that transforms pure-grade sodium chloride into micro-sized salt particles that then disperses the dry salt aerosol via a fan into the designated salt therapy treatment room.

Benefits include but are not limited to:

- Asthma/Allergies
- Bronchitis
- COPD
- Cystic fibrosis
- Sinusitis
- Ear Infections
- Common Cold
- Psoriasis
- Eczema
- Swelling and Inflammation
- Dermatitis
- Dry and Flaky Skin
- Acne
- Rosacea
- Rashes or Itching

Such side effects should cease with the removal of pollution and pathogens. Skin irritation and dermal sensitivity may occur. In such cases, decrease the frequency of sessions.
