Susan noted and apologized that the Infrastructure seemed to have fallen through the cracks in 2019, but stated that it would be a priority of the Board in 2020.

The Infrastructure Report in its entirety was submitted for filing with the Records of the CRS POA

- There were no positions available for 2020, so there was no need for a full committee. However, in 2021 both Candy and James will be going off the Board opening up two positions.

7. **OLD BUSINESS:**

Susan asked if there was any old business that needed to be discussed. There was none.

8. **NEW BUSINESS:**

- Community Survey: Susan thanked all those who responded to the survey that the Board sent out the CRS POA Members as a whole. Those results were collected and analyzed by the Board and the Board made the following decisions:
 - **Speed Humps, Speed Bumps and Rumble Strips:** As was expected, some feel there is a speeding problem and others do not. However, it was clear from the overall responses that the Community as a whole was not in favor of speed bumps, speed humps or rumble strips so this Board was tabling all discussions regarding Speed Bumps, Humps and Rumble Strips by this board.
 - Susan noted that the Board received some good alternative ideas from Members of the CRS POS and that the Board may discuss some of those options in the future if the speeding issue continues to grow.
 - Susan also asked that everyone take a moment to check their speed as they are driving through the neighborhood as it is easy to be going more than 25 mph and not realize it.
 - **Upgrading Front Gate:** It was again, clear from the overall responses that the Community as a whole is not in favor of upgrading our front gate to a "call" gate. So, again this Board is listening to the majority and is tabling all discussion regarding upgrading the Front Gate to a "call" gate.
 - Susan noted that the Board had been asked "why the funds to upgrade the gate could not come from the Capital Expenditures Fund. Susan, responded to this as follows:

"As most of you know that as a private community, we are solely responsible for maintaining and repairing our roadways and that those costs could easily become astronomical. Because of this, the philosophy of the community and its boards, both past and present, has been not only to set aside a portion of the annual assessment fees received each year to build up the Capital Expenditure Fund for future road maintenance and repairs; but to also guard against using it for anything other than our roadways in an effort to protect our property owners from suddenly being faced with a very expensive cost at one time that could be a significant burden on them.

- **Outside Management Company:** The subject of hiring an Outside Management continually comes up. But, again the majority of the responses received were not in favor of this, so this Board will also table the discussions of this for the time being. Susan, did note that those who were in favor of this were those who have previously served on the board.
- **Bylaws:** Currently we are operating in noncompliance with our Bylaws as the website url and the email address for the Association and its Board are not correct in the Bylaws. In an effort to rectify this, a ballot to amend the Bylaws was included in the Annual Packet with a self-addressed, stamped envelope.

There are a total of 112 lots that can cast votes in the CRS POA. Out of those 112, we received 47 lot votes, all of which were in favor of amending the Bylaws. Unfortunately, since the Bylaws require 57 votes (51%) and we only received 47 votes. Therefore, the amendment to change the website url and the email in the Bylaws did not pass and we will continue operating out of compliance with our Bylaws until another vote can be taken at next years annual meeting

- **Low Hanging Branches:** The Board previously sent out a reminder about low hanging trees branches in the roadway easement. The tree at the front gate also has low hanging branches. Trees along the roadway easement should be trimmed upward at least 15 feet from the roadway. Some of these trees are Live Oaks and should be trimmed prior to February 1st to minimize Oak Wilt. There are volunteers within the neighborhood that are willing to trim the trees at no cost to the CRS POA or the lot owners. In light of this, the Board will:

- Send letters via emailed out to individual lot owners offering free trimming services.
- The trees will be trimmed on January 31st.
- On Saturday, February 8th, POA will:
 - rent a Chipper for 8 hours of run-time to mulch all trimmings done by volunteers;
 - send out an email telling POA Members that they can bring any tree branches that they may want to dispose of to the community park for chipping (chipping must be done within our 8 hours of run time)

- and will allow POA members to pick up mulch on a first-come-first-served basis.
- **Feral Hogs:** It was noted that there is a feral hog problem within CRS. Susan has contacted a Chris Sawyer a hog trapper who traps feral hogs on ranches in the area at no cost -- he only wants the meat from the hogs. So, hopefully, his schedule will allow him to come out and look at our area in the next couple of months to see if he can help with our problem. Again, if we can get him, he will trap and remove the hogs from the subdivision at no cost to the CRS POA

CONSIDERATION OF ADEQUACY OF RESERVES:

James stated that we have adequate reserves at this time.

ANNOUNCEMENTS:

It was announced that the next regular board meeting will be held on Saturday, February 8, 2020, @ 9:30 a.m., at 25007 Montana Creek Crossing.

Since there was no further business, a motion was made, and all were in favor to adjourn the meeting. The meeting adjourned at 1:37 p.m.

Respectfully submitted,
Sean Finke. CRS POA Secretary
