STEAM

STEAMwSeniors

WE ARE ALL MAKERS

- A nonprofit 501(c)(3), focused on STEAM education for the aging population, suitable for all ages.
- Emphasizes intergenerational learning to leverage diverse experiences.
- Aims to enrich participants and foster shared knowledge across generations.
- Promotes health and wellness through engaging STEAM programs.

Explore Science!

We can study our natural world and how we interact with it through experiments and observations.

Explore Technology!

We can try out new technologies and learn about how they might innovate the way we live and work.

Explore Engineering!

We can build, tinker, and design using math and science principles.

Explore the Arts!

We can use our imaginations to consciously create artistic expression: drawing, painting, writing, theater, sewing, singing, digital design, etc.

Explore Math!

Math is everywhere! Engineering, science, art and technology all have math in common.

What

Our heart is in serving you through STEAM programs

Science-Technology-Engineering -the Arts-and Math-

STEAM

While donations and grants help fund many activities, material fees may apply.

STEAMwSeniors

INDEPENDENT ASSISTED FULL & MEMORY CARE

STEAM Teasers

STEAM Awareness

- Collaborative, hands-on STEAM activities that blend learning, community building, and enjoyment. Open to all groups wanting to get a taste for STEAM.
- Suggested material donation may apply if facilitated by STEAMwSeniors.

Independent Living

Workshops, Events, Clubs

- Tailored for independent seniors, offering diverse, theme-based STEAM workshops suitable for small groups of 10-20.
- Material fee may apply if facilitated by STEAMwSeniors.

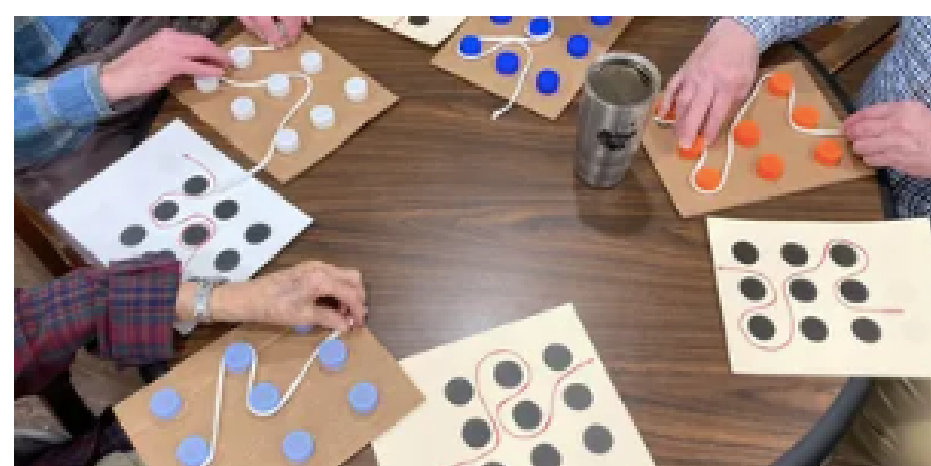

Assisted Living

Various Theme Based Lessons

- A range of theme-based hands-on STEAM lessons, adaptable to the specific needs of residents in assisted living communities.
- Suggested material donation may apply if facilitated by STEAMwSeniors.

Memory Care

Active Play

- Build community, connection, and self-esteem for those in high functioning memory.
- Material donations accepted, but internal funding sources attempt to cover costs.

Building Lessons with Outside Sources

Outside Resources

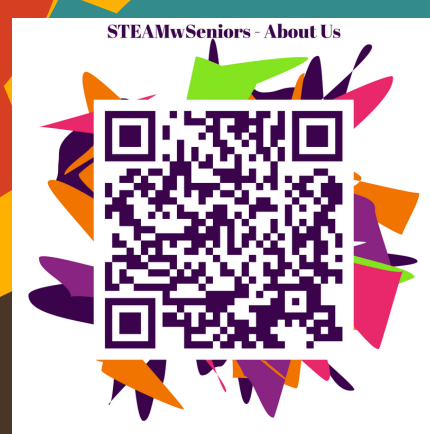

- Additional ideas to help build your programs, these activities of 1000+lessons can be modified for any group.

Intergenerational STEAM

Events or Projects

- Hands-on learning experiences that bring together senior citizens and younger generations, fostering cross-age collaboration and knowledge sharing in STEAM disciplines.
- Material donations accepted, but internal funding sources attempt to cover costs.
