

Other Popular Luxury Brands

Interior Bowl Length 60" Sink

58"

56"

Workstation Design

PARAGON™

Dual Ledge within body of sink
(Stainless, copper, brass and bronze)

A single interior step, exposing ½ an inch of the flange as a top second tier and the countertop is the top tier.

Their workstation sink mimics our older Signature Series design, merely exposing the flange as an added tier, then they use the countertop as the top tier, causing water to sit on a caulk joint.

Interior Bowl Width

18" at top and 18" at bottom

17" at top and 16" at bottom of bowl. Using flange, offers an 18" width.

Our multi-purpose grid will fit top ledge and sink bottom in same orientation.

Stainless Grade

Domestic 316L
16 gauge stainless steel

316L
16 gauge stainless steel

Some brands don't indicate if their metal is domestically sourced or not.

Cutting Board Material

(UHMWPE (Ultra High Molecular Weight Polyethylene).

Resin, Graphite or Bamboo

Our primary cutting boards are made of the only material inspectors will approve as cutting surfaces in butcher shops. You will never see resin, graphite or bamboo as professional cutting surfaces.

Drying Rack

Multi Purpose all Metal Grid

Plastic rack with metal rods

Our multi-purpose grid has far more uses, including top and bottom level drying.

Recommended Basin Accessory

Not needed with our sinks.

A bottom grate to protect the bottom from scratching.

Due to the proprietary hand finishing in our stainless bowls, there is no need for an awkward bottom grate!

Sponge Caddy

Offered as part of our essential accessory pack.

Doesn't offer a Sponge Caddy

One of our most popular accessories.

Bowl and Colander Accessory

Both bowl and colander will allow cutting board slide over top.

Colander has handles that will not allow it to fit under cutting board.

Our cutting board, bowl and colander designs feature recessed accessories for ease of swiping directly from a cutting board.

Dual Drain Option

Harmony

Allows for food prep and clean up as you go as well as dual users.

Does not offer a dual drain

Rachiele's Harmony sinks offer dual - drain location combinations in single bowl sinks for dual users or those who prefer to clean as they prepare a meal.

Drain Placement

Based on the user, and always in the rear corner.

Center end, fairly far into the bowl

The drain is precisely in the way of much of the valuable workspace in the bowl if it is not tucked into a rear corner.

Marketing

No advertising budget.
No dealers, no factory representatives and no sales staff.

Sells through dealers with a commissioned sales staff.

Expensive marketing materials and Advertising.

When you invest in a Rachiele custom sink, you are paying for material and labor only.
